Industrial Piping, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements
As of September 30, 2010 and 2009
and for the Year Ended September 30, 2010

Note 1 – Description of the Plan

The following brief description of Industrial Piping, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by Industrial Piping, Inc. (the "Company" or "Plan Sponsor") in December 1998. The Plan covers full-time employees of the Company who have completed twelve months of service which is defined as 1,000 hours of service over 12 consecutive months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration – The Plan is administered by the Company, which serves without compensation. The Plan Administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities. The Company has designated the president of the Company as administrator to the Plan.

Contributions – Participants may contribute up to 100% of pretax annual compensation subject to certain Internal Revenue Service limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan.

The Company may make a discretionary matching contribution equal to a specified percentage of each participant's compensation. The exact percentage, if any, is determined each year by the Company. The Company made matching contributions of 50% of an employee's salary deferrals for the first 6% of the employee's deferral until April 2010, at which time the Company ceased discretionary matching amounts.

The Plan also allows for annual discretionary profit sharing contributions in an amount to be determined by the Board of Directors at the end of the Plan year. Participants must be employed on the last day of the Plan year and have worked at least 1,000 hours in order to be eligible to receive any profit sharing contributions that may be made for that Plan year. The Company did not make any profit sharing contributions during the year ended September 30, 2010.

Participant accounts – Each participant's account is credited with the participant's contribution, and allocations of related Company discretionary matching contribution, discretionary profit sharing contributions, and Plan earnings/(losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements
As of September 30, 2010 and 2009
and for the Year Ended September 30, 2010

Note 1 – Description of the Plan (continued)

Vesting – Participants are immediately vested in their voluntary contributions under the 401(k) option of the Plan. Vesting in Company contributions and earnings and profit sharing under the 401(k) provision are subject to the following vesting schedule:

<u>Years of Service Completed</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Benefits paid to participants – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or an annuity. For termination of service for other reasons, distribution of the value of the participant's vested interest in his or her account will begin as soon as possible after the participant's request.

Forfeited accounts – As of September 30, 2010 and 2009, forfeited accounts totaled \$4,692 and \$9,105, respectively. Forfeitures are retained in the Plan and will first be used to reduce the Company matching contributions for the plan year in which the forfeitures occurred. During the year ended September 30, 2010, approximately \$6,000 of forfeitures were used to reduce Company matching contributions.

Note 2 – Summary of significant accounting policies

Basis of accounting – The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned.

Benefits paid to participants – Benefits paid to participants are recorded when paid.

Administration expenses – All administrative expenses are paid by the Company on behalf of the Plan, except for participant account administration fees and redemption fees which are paid by the participants.

Use of estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements
As of September 30, 2010 and 2009
and for the Year Ended September 30, 2010

Note 2 – Summary of significant accounting policies (continued)

Risks and uncertainties – Investment securities are subject to various risks such as interest rate, credit and overall market volatility. Due to the levels of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Fair value measurements – GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. The underlying assets are generally comprised of short-term securities representing high-quality, liquid debt and monetary assets. The money market fund is classified within level 1 of the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

and for the Year Ended September 30, 2010

Note 2 – Summary of significant accounting policies (continued)

Recent accounting pronouncements – In January 2010, the FASB issued guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category or line item in the statement of net assets available for benefits. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. For all portions of the update except the gross presentation of activity in Level 3 roll forward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the Level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. The Plan elected to adopt this accounting pronouncement effective October 1, 2009. As this guidance is only disclosure related, it did not have any changes to the carrying value of the investments on the statements of net assets as of September 30, 2010 and 2009.

Note 3 – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company ("John Hancock"), the trustee of the Plan, has certified to the completeness and accuracy of all investments and related investment income as of September 30, 2010, and for the period October 8, 2009 through September 30, 2010.

John Hancock has certified that investments consisting of shares of mutual funds and money market funds have a fair value of \$3,109,751 as of September 30, 2010. 401(k) Profit Sharing Plan

Notes to Financial Statements
As of September 30, 2010 and 2009
and for the Year Ended September 30, 2010

Note 5 – Party-in-interest transactions

Certain Plan investments are shares of mutual funds which were managed by American Funds through October 8, 2009, at which time John Hancock became the trustee as defined by the Plan. Transactions with these parties qualify as party-in interest.

Note 6 – Tax status

The Internal Revenue Service ("IRS") informed the Plan Sponsor by a letter dated December 3, 1997, that the Plan and related trust constitutes a qualified plan and trust under the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to business income tax and therefore, the Plan and related trust continue to be tax-exempt.

GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2007.

Note 7 – Plan termination

The Company believes that the Plan will continue without interruption, but reserves the right to discontinue the Plan. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each participant's respective account at the effective date of such termination. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.
