MASTERS ELECTRICAL SERVICES, LTD. 401(k) PROFIT SHARING PLAN
Notes to Audited Financial Statements
December 31, 2010

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Masters Electrical Services, Ltd. 401(k) Profit Sharing Plan ("Plan") are prepared following the accrual method of accounting.

Recognition of Income: The basis of investments held by the Plan is adjusted annually to closing market value and unrealized gains and losses are recorded as part of this adjustment. Realized gains and losses on investments are computed using this adjusted basis (beginning of year market value) on the first-in, first-out method. Security transaction expenses are considered in computing realized gains and losses on investments.

Investments: Investments in mutual funds are reported at quoted prices at year end (net asset value). Purchases and sales of securities are recorded on a trade-date basis. Dividends on mutual funds are considered when the fair value is determined. Interest on participant notes receivable is recorded on the accrual basis.

Benefit Payments: Benefits are recorded when paid.

Subsequent Events: Subsequent events have been evaluated by management through the date of the report of the independent auditors. Material subsequent events, if any, are disclosed in a separate footnote to these financial statements.

New Accounting Pronouncements: In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010, and is applied retrospectively to the prior period. However, for purposes of the Form 5500 reporting, participant notes receivable continue to be classified with investments.

Use of Estimates: The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risks: Concentration of credit risk with respect to the Plan's mutual fund investments is reduced as a result of diversity of the underlying portfolio.

NOTE B - DESCRIPTION OF THE PLAN

The following description provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Masters Electrical Services, Ltd. 401(k) Profit Sharing Plan is a defined contribution plan, established January 1, 1998, covering virtually all employees of Masters Electric Ltd. (the "Plan Sponsor") who have one year of service and are age twenty one or older. The Plan is for the exclusive benefit of its participants and their beneficiaries. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year participants may elect to contribute up to 75% of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan Sponsor may contribute a matching contribution as determined by its Board of Directors. The Sponsor match was \$24,303 in 2010 and \$33,419 in 2009.

Participant Accounts: Each participant's account is credited with their contribution and allocations of a) the Plan Sponsor contributions and b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are 100% vested at all times in their voluntary contributions. A participant's interest in the contributions the employer makes to the Plan becomes 100% vested upon attaining the Plan's normal retirement age, if employment is terminated due to death or disability, or following 6 years of employment in accordance with specific vesting schedules based on years of service as required by the Department of Labor Rules and Regulations.

Forfeitures: Forfeitures are retained in the Plan and are first used to pay administrative expenses. Any remaining amounts are allocated to eligible participant accounts.

Participants' Notes Receivable: Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Interest rates are established daily by the Trustee. These are reported at their unpaid principal balance plus any accrued but unpaid interest. Principal and interest is repaid at least quarterly by payroll deduction.

Payment of Benefits: Participants are eligible to request a distribution of vested benefits upon death, disability, attaining normal retirement age, after termination of employment and as required by law after attaining 70.5 years of age.

Plan Termination: Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE C – INVESTMENTS (Unaudited)

The fair value of individual investments that represent 5% or more of the Plan's net assets is as follows at December 31:

	<u>2010</u>	<u>2009</u>
Determined by quoted market prices:		
FA Freedom 2030 C	\$ 240,760	\$ 221,020
FA Freedom 2040 C	111,844	90,670
FA Freedom 2035 C	69,409	61,403
FA Freedom 2045 C	63,370	58,760
PIMCO Total Return	50,583	42,764
FA Treasury C	39,148	43,008
FA Freedom 2025 C	41,703	36,403

NOTE D - TRANSACTIONS WITH PARTIES-IN-INTEREST

Fees paid during the year for legal, accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE E - INCOME TAX STATUS

The Internal Revenue Service has ruled that the Plan qualifies under Section 401(k) of the Internal Revenue Code and is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is appropriately designed and is currently being operated in compliance with applicable requirements of the Internal Revenue Code.

Management is not aware of any tax positions that would have a significant impact on its financial position. Its federal tax returns for the last four years remain subject to examination.

NOTE F- FAIR VALUE MEASUREMENTS

Generally accepted accounting principles (GAAP) has established a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs are inputs that reflect assumptions of what market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of the inputs, as follows:

- Level 1: Quoted prices are available in active markets for identical assets or liabilities;
- Level 2: Quoted prices in active markets for similar assets and liabilities that are observable for the asset or liability; or
- Level 3: Unobservable pricing inputs that are generally less observable from objective sources, such as discounted cash flow models or valuations.

MASTERS ELECTRICAL SERVICES, LTD. 401(k) PROFIT SHARING PLAN
Notes to Audited Financial Statements
December 31, 2010

NOTE F- FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Common Stocks, Corporate Bonds and U.S. Government Securities: Valued at the closing prices reported on the active market which the individual securities are traded.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value:
