INDEPENDENT AUDITORS' REPORT

Plan Administrator and Participants of
InfoLogix 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of InfoLogix 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplementary schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplementary schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplementary schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplementary schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary schedule taken as a whole. The form and content of the information included in the financial statements and supplementary schedule, other than that derived from information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the InfoLogix 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

[1] General:

The Plan is a 401(k) savings plan covering all full-time employees of InfoLogix, LLC (the "Company"), who have attained 21 years of age. The Plan was established on March 1, 2002. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). An employee who has attained 21 years of age will become eligible to enter the Plan on the first day of employment. The custodian and recordkeeper of the Plan is Principal Life Insurance Company.

[2] Contributions:

Elective deferral contributions for a participant are equal to a portion of compensation, as specified in the written elective deferral agreement. Elective deferral contributions shall be limited as needed to meet nondiscrimination tests, and may not exceed the dollar limit set by law for the Plan year. Participants may designate all or a portion of their 401(k) elective deferral as Roth elective deferral contributions. Designation must be made prior to the deferral and cannot be changed except for future contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Company contributions to the Plan are discretionary. No Company contributions were made for the year ended December 31, 2010. Participants direct the investment of participant and employer contributions, if applicable.

[3] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

[4] Vesting:

Participants are immediately fully vested in their elective deferral contributions, rollover contributions and earnings thereon. Participants vest in employer contributions in increments of 20% for each year of service, and become fully vested after five years of service, on their normal retirement date, upon death or total disability.

[5] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator, ranging from 5.25% to 10%. Principal and interest are paid ratably through payroll deductions.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[6] Payment of benefits:

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant with a vested balance less than $1,000 will receive a lump-sum payment, and a participant with a vested balance between $1,000 and $5,000 will have the balance rolled into an IRA. Hardship withdrawals are available in accordance with Internal Revenue Service guidelines.

[7] Forfeitures:

Forfeited non-vested accounts are used to pay Plan expenses or used to offset employer contributions. During the year ended December 31, 2010, there were no forfeitures used. Forfeited non-vested accounts available at December 31, 2010 and 2009 were approximately $1,038 and $1,038, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared on the accrual method of accounting.

[2] Notes receivable from participants:

In September 2010, the Financial Accounting Standards Board ("FASB") issued new guidance that requires participant loans be classified as notes receivable from participants in the financial statements of a defined contribution pension plan, measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which is effective for fiscal years ending after December 15, 2010, and is applied retrospectively, by reclassifying participant loans on the statements of net assets available for benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

[3] Subsequent events:

The Plan has evaluated subsequent events through July 18, 2011, the date the financial statements were available to be issued.

[4] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[5] Payment of benefits:

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[6] Plan expenses:

Certain expenses of the Plan are paid by the Plan sponsor; the remaining expenses are paid by the Plan.

[7] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Principal Life Insurance Company ("Principal"), the custodian of the Plan, has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, and the statement of changes in net assets available for benefits for the year ended December 31, 2010.

NOTE D - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

NOTE D - INVESTMENTS (CONTINUED)

During 2010, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Pooled separate accounts	$ 450,427
Guaranteed interest account	380
	$ 450,807

NOTE E - FAIR VALUE MEASUREMENTS

The FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In January 2010, the FASB issued amended guidance on fair value measurements. The Plan has adopted the amended provisions that are effective for interim and annual reporting periods beginning after December 15, 2009 regarding disclosures of significant transfers in and out of Level 1 and Level 2 assets and description of the reasons for the transfers. Additional disclosures that are effective for fiscal years beginning after December 15, 2010 regarding reporting purchases, sales, issuances, and settlements for Level 3 assets on a gross basis should not have a significant impact on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Guaranteed investment contract – The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Pooled separate accounts – Shares of pooled separate accounts are valued at the net asset value based on the market value of the underlying investments. The net asset value is not a publically quoted price in an active market. The pooled separate accounts are comprised primarily of mutual funds and Level 1 common stock. Some of the pooled separate accounts have transfer restrictions that are imposed to limit the number of transfers requested within a specific timeframe, which is generally one in a 30-day time period.

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Total investment assets at fair value	$ -	$ 2,748,858	$ 223,386	$ 2,972,244

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no transfers in or out of Levels 1, 2 or 3.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

Level 3 Assets for the Year Ended December 31, 2010

	January 1, 2010	Total Gains (Losses)	Interest Credited	Purchases, Sales, Issuances and Settlements (Net)	Transfers in and/or out of Level 3	December 31, 2010	Unrealized Gains (Losses) on Investments Held at Year-End
Pooled separate accounts	$ 156,007	$ 18,062	$ -	$ (57,703)	$ -	$ 116,366	$ 53,054
Guaranteed interest investment	67,379	380	1,463	29,334	-	98,556	380
	$ 223,386	$ 18,442	$ 1,463	$ (28,369)	$ -	$ 214,922	$ 53,434

NOTE F - GUARANTEED INTEREST ACCOUNTS

The Plan entered into various guaranteed interest account contracts with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The interest rate average ranges from 0.61% to 4.23%, with maturity dates through December 2014 for Plan year ended December 31, 2010. The average rate of return was 2.31% for the year ended December 31, 2010.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment. However, charges may apply at the participant account level for transfers to other investments and for early withdrawal of account balances. As a result, these guaranteed interest accounts do not meet the definition of fully-benefit responsive investments, and are therefore recorded at fair value. Fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. There are no unfunded commitments.

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Some of the Plan's investments are managed by Principal, the custodian of the Plan. Accordingly, these transactions qualify as party-in-interest transactions.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

NOTE K - SUBSEQUENT EVENTS

On January 18th, 2011, the Company was acquired by Stanley Black & Decker. There has been no formal decision to make any changes to the Plan at this time due to the Plan sponsor acquisition.

NOTE L - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2010 and 2009 to Form 5500:
