ACTIMIZE INC. 401(k) PLAN
Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Actimize Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering substantially all employees of Actimize Inc. (the "Company"). Employees must have attained 21 years of age to participate in the Plan. There was no service requirement to enter the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

NICE Systems, Inc. purchased the outstanding shares of Actimize Inc. on July 2, 2007. Pursuant to the terms of the purchase agreement, employees of Actimize Inc. began participating in the NICE Systems, Inc. 401(k) Plan effective October 1, 2010, and the Actimize Inc. 401(k) plan was merged and all assets of the Plan were transferred to the NICE Systems, Inc. 401(k) Plan on October 1, 2010.

Contributions

Subject to Internal Revenue Service ("IRS") limitations, participants could elect to make contributions to the Plan in amounts up to 100% of pre-tax compensation not to exceed \$16,500 for 2010 and 2009. Participants 50 years or older could elect to defer additional amounts (called "catch-up contributions") to the Plan. The additional amounts could be deferred regardless of any other limitations on the amount participants may defer to the Plan. The maximum "catch-up contribution" allowable for 2010 and 2009 was \$5,500. Participants could also contribute amounts representing distributions from other qualified defined contribution plans.

The Company matched the participant's pre-tax contributions at a rate of 50% to a maximum of 6% of compensation. Discretionary profit-sharing contributions were made at the option of Plan management. To be eligible for discretionary profit-sharing contributions, a participant had to be active anytime during the Plan year. Participants directed the investment of participant and employer contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings or losses, and could be charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

ACTIMIZE INC. 401(k) PLAN
Notes to Financial Statements

Note 1 - Description of the Plan (continued)

Vesting

Participants were immediately 100% vested in their contributions, plus actual earnings or losses thereon. Prior to the decision to terminate the Plan, vesting in the Company's contribution portion of their accounts was based on years of continuous service.

Vesting in the Company's match and discretionary profit-sharing contribution portion of their accounts, plus actual earnings thereon, was as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4+ years	100%

Notes Receivable from Participants

Participants were permitted to borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable from participants were secured by the balance in the participants' accounts and interest was charged at a reasonable rate based on the prevailing interest rates, as determined by the Plan administrator. Principal and interest were paid ratably through payroll deductions. The interest rate on notes receivable from participants was 5.25% to 7.25%.

Payment of Benefits

All or a portion of a participant's vested balance could have been payable upon the participant's normal retirement. Benefits are recorded when paid.

Forfeitures

Forfeited non-vested accounts were used to reduce future Company contributions and pay Plan administrative expenses. During the final period ended October 1, 2010, approximately \$35,600 of forfeitures were utilized to reduce employer contributions. Due to certain operational defects that occurred in the Plan (see Note 7), approximately \$131,000 in forfeitures became available for use to reduce future employer contributions. Such operational defects were identified subsequent to the transfer of Plan assets (see Note 9).

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Fair Value of Financial Instruments" for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Expenses

Substantially all expenses incurred in connection with the administration of the Plan were paid by the Company.

Notes Receivable from Participants

In September of 2010, the Financial Accounting Standards Board ("FASB") issued new guidance that required participant loans to be classified as notes receivable from participants in the financial statements of a defined contribution pension plan, measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which was effective for fiscal years ending after December 15, 2010 with early adoption permitted, and was applied retrospectively, by reclassifying participant loans on the statements of net assets available for benefits for all years presented. The Plan had chosen to early adopt this new provision and the financials were adjusted accordingly. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

Note 2 - Summary of Significant Accounting Policies (continued)

Fair Value of Financial Instruments

As required by the *Fair Value Measurements and Disclosure* topic of the FASB Codification, fair value is based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement. This topic establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value, as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

In January 2010, the FASB issued amended guidance on fair value measurements. The Plan adopted the amended provisions that are effective for interim and annual reporting periods that began after December 15, 2009 regarding disclosures of significant transfers in and out of Level 1 and Level 2 assets and description of the reasons for the transfers.

ACTIMIZE INC. 401(k) PLAN
Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (continued)

Fair Value of Financial Instruments (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used at October 1, 2010 and 2009.

Pooled Separate Accounts – Valued at net asset value based on the market value of the underlying investments. The net asset value is not a publicly-quoted price in an active market.

Mutual Funds – Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Accounting for Uncertainty in Income Taxes

The *Income Taxes* topic of the FASB Codification clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and was effective for fiscal years beginning after December 15, 2008. Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority.

The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of October 1, 2010, there are no uncertain tax positions, except as disclosed, taken or expected to be taken, that would require recognition of a liability or disclosures in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for years prior to 2007.

Subsequent Events

As required by the *Subsequent Events* topic of the FASB Codification, Actimize Inc. evaluated subsequent events through July 13, 2011, which is the date the financial statements were available to be issued.

Note 3 - Investment Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal"), the custodians, have certified the completeness and accuracy of all investments and related activity in the accompanying financial statements.

Note 7 - Tax Status

The Plan adopted a plan document sponsored by Principal Life Insurance Company that received an opinion letter from the IRS dated March 31, 2008, which stated that an employer that adopts the plan document may rely on the letter with respect to the qualification of its plan under the Internal Revenue Code ("IRC"). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal income taxes has been made in the accompanying financial statements.

Subsequent to the transfer of Plan assets, the Plan administrator became aware of certain Plan operational defects that may have impacted the qualification of the Plan. The Plan administrator took immediate steps to quantify and correct these operational defects, which occurred during the final period ended October 1, 2010, by self-correction method. The Plan administrator determined that certain participants were allocated excess matching contributions of \$131,000, including earnings of \$4,000. Such excess matching contributions were placed in the forfeiture account and will be available to reduce future employer contributions in accordance with the Plan agreement.

ACTIMIZE INC. 401(k) PLAN
Notes to Financial Statements

Note 8 - Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

Note 9 - Subsequent Event

Operational defects, of excess matching contributions, described in Note 7, resulted in self-correction and were ratified by the NICE Systems, Inc. 401(k) Plan, the recipient of the Plan assets. These forfeitures will be utilized in the NICE Systems, Inc. 401(k) Plan, in accordance with the plan document.
