INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Administrator of Ash Grove Cement Company 401(k) Savings Plan
Overland Park, Kansas

We were engaged to audit the financial statements and supplemental schedule of the Ash Grove Cement Company 401(k) Savings Plan (the "Plan") as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company dba Principal Trust Company, custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ASH GROVE CEMENT COMPANY 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

The following description of the Ash Grove Cement Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions. The Plan was restated January 1, 2010.

General – The Plan is a defined contribution savings plan established by Ash Grove Cement Company (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees of the Company not covered by a collective bargaining agreement are eligible to participate after 30 days of service. Employees who are classified as temporary or seasonal are eligible to participate in the Plan upon completing one year of service, and reaching the age of 21. The Company serves as the plan administrator and controls and manages the operations and administration of the Plan.

Principal Life Insurance Company ("Principal") serves as a custodian and recordkeeper for the Plan. Delaware Charter Guarantee & Trust Company dba Principal Trust Company, an affiliate of Principal, serves as the custodian for the mutual fund investments, the collective investment trusts, and individually directed brokerage accounts. Employees of the Company serve as trustees.

Contributions – Contributions to the Plan can be made by both the Company and the participant. Participants are allowed to make tax-deferred contributions between 1% and 50% of eligible compensation subject to certain Internal Revenue Code (IRC) limits. All participant and Company contributions are to be invested at the discretion of the participant. Effective October 1, 2005, new employees are automatically enrolled into the Plan once the eligibility requirements have been met. The automatic deferral rate is 4% of their eligible compensation, unless the participant specifies a different rate, or opts not to contribute.

Company contributions are discretionary and are based on a percentage of employee pretax contributions. The Company may make a discretionary matching contribution equal to a percentage of employee pretax contributions, not to exceed 4% of employee annual compensation. For the year ended December 31, 2010, the Company matched 50% of employee pretax contributions, up to the first 4% contributed.

Effective September 30, 2009, newly eligible employees of Ash Grove Materials Group ("AG Materials") are automatically enrolled into the Plan after 30 days of service, at an automatic deferral rate of 2%, unless the participant specified a different rate, or opts not to contribute. The Company will match the contributions of these AG Materials employees at a rate of 100% of the first 6% contributed.

Effective January 1, 2010, newly eligible employees of Ash Grove Aggregates – Johnson County Aggregates are automatically enrolled into the Plan after 30 days of service, at an automatic deferral rate of 2%, unless the participant specified a different rate, or opts not to contribute. The Company will match the contributions of these employees at a rate of 100% of the first 6% contributed.

Vesting and Forfeitures – Participants immediately vest in their voluntary contributions and earnings thereon. Participants become 100% vested in Company contributions and earnings thereon after three years of service. If a participant terminates employment because of

retirement, death, or disability, as defined by the Plan, the participant becomes 100% vested regardless of the years of service.

When a participant's employment is terminated prior to full vesting, the nonvested portion of the participant's account is forfeited and redistributed, first to pay Plan expenses, and then to reduce future Company contributions. At December 31, 2010 and 2009, there is \$186,263 and \$155,070 in forfeited assets, respectively. During 2010, \$40,470 of employer contributions were paid with forfeitures.

Participant Accounts – A separate account is maintained for each participant. Allocations to participant accounts for employee contributions are made when the contributions are received by the custodian. Allocations to participant accounts for investment income, changes in fair value of investments, and Plan expenses are made when such amounts are earned or incurred. Allocations are based on participant earnings or account balance, as defined by the Plan.

Notes Receivable from Participants – Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Only one loan may be granted during any one-year period and only one loan may be outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Participants are charged a \$40 set up fee when a loan is initiated, and a quarterly maintenance fee of \$8.

Payment of Benefits – Benefits are payable in the event of retirement, death, termination of employment, or other defined hardship. Terminated participants may elect to receive a lump-sum distribution, annuity contracts, or monthly, quarterly, semiannual, or annual installments for not more than the participant's life expectancy. Lump-sum distributions and installments are made in cash. If the value of the vested account is more than \$5,000, and the reason for termination is not death or permanent and total disability, the participant may elect to defer distribution to a date between age 55 and April 1 following the year the participant attains age 70½.

In-Service Distributions – Hardship withdrawals are available to Plan participants for the various reasons as described in the Plan Document. Hardship withdrawals are limited to the participant's account balance that is 100% vested. Upon making such a withdrawal, the participant is suspended from making deferrals for six months.

Participants' who have reached the age of 59½ may withdraw all or a portion of their vested funds.

Administrative Expenses – The Plan paid \$37,188 in expenses, primarily related to loan fees, brokerage account fees, and early withdrawal fees. The Company, on behalf of the Plan, pays all remaining administrative expenses for the Plan. Participants who maintain an individually directed account are charged an annual fee of \$75, and are charged a fee for each investment purchase or sale.

Plan Transfers – Assets in the amount of \$215,866 were transferred into this Plan from the Ash Grove Hourly 401(k) Savings Plan, and \$61,424 from the Ash Grove Cement Company Employee Stock Ownership Plan, other retirement plans sponsored by the Company.

Effective September 1, 2009, the Plan Document was amended to remove the Siouxland Concrete Company as a participating employer in the Plan. Assets related to the Principal US Property Separate account and notes receivable from participants totalling \$15,211 were transferred out to the Lyman-Richey Corp. 401(k) Plan during the 2010 Plan year.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right under the Plan to amend or terminate the Plan at any time subject to the provisions set forth in the Plan and under ERISA. In the event of Plan termination, participants become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The investment contract held by the Plan is not considered fully-benefit responsive and, as such, is presented at fair value.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in pooled separate accounts are expressed as a unit value as described below. Purchases and sales are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts, collective investment trusts, and mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Unit Values – Individual participant accounts invested in pooled separate accounts and collective investment trusts are maintained on a unit basis. Participants do not have beneficial ownership in specific underlying securities or other assets in these Principal investments, but do have an interest herein represented by units valued daily. The various funds earn dividends and interest, which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit value as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant. Transactions are recorded on the trade date.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for doubtful accounts is considered necessary.

Contributions – Employer and employee contributions are reported in the year services are rendered to the Company by the Plan participants.

Payment of Benefits – Benefit payments are reported in the year paid.

Date of Management's Review – Subsequent events have been evaluated through June 24, 2011, which is the date the financial statements were available to be issued, and there were no material events requiring recognition or disclosure.

New Accounting Pronouncements – In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. This guidance requires purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements. This guidance is effective for annual reporting periods beginning after December 15, 2010. The Organization is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

In September 2010, the FASB issued guidance which clarified how loans to participants should be classified and measured by defined contribution pension benefit plans. Previously participant loans were classified as investments. The new guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The 2009 participant loan balances have been reclassified from investments to notes receivable from participants to conform to the new presentation. Notes receivable from participants will be reported as investments on the Form 5500, and as such, are included as an investment in the supplemental schedule – *Schedule of Assets (Held at End of Year)*.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes used in the methodologies used at December 31, 2010 and 2009:

Pooled Separate Accounts (excluding the U.S. Property Separate Account) – Principal calculates a unit value (similar to a net asset value "NAV") of a separate

account. It is the sum of the market value of the underlying investments as determined by quoted market prices, less operating expenses accrued but not deducted, if any. Pooled separate accounts can be redeemed on a daily basis. There are no unfunded commitments.

Pooled Separate Account – U.S. Property Separate Account – This account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. Each property is appraised annually by an independent appraiser. See Note 7 which discusses the temporary withdrawal limitation. All withdrawals are being transacted at the NAV price at the date of distribution.

Collective Investment Trusts – Principal calculates a net asset value based on the market value of its underlying investments. The common and collective trusts (“CCT”) invest in mutual funds, and pooled separate accounts. The net asset values of the mutual funds and pooled separate accounts are used to determine the net asset value of the collective investment trusts, less operating expenses, if any. The CCT can be redeemed on a daily basis. There are no unfunded commitments.

Mutual Funds and Common Stocks – Valued at the closing price reported on the active market on which the individual securities are traded. Common stocks are held in the individually directed brokerage accounts.

Guaranteed Interest Accounts – Valued at the sum of the estimated fair values of each contract of the guaranteed investment contract fund because they are not fully benefit responsive. Fair value represents the amount plan participants or plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

Individually Directed Brokerage Accounts – Consist of common stocks and mutual funds and are valued as discussed above.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at December 31, 2010 and 2009:

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a group annuity contract with Principal. In accordance with FASB ASC 962, *Defined Contribution Pension Plans*, the group annuity contract is valued at fair value as it is not considered to be fully benefit-responsive. The accounts are credited with the underlying investments, income and loss thereon, and charged for Plan withdrawals and administrative expenses charged by Principal.

5. INVESTMENTS

The following represents the fair value of investments that represent 5% or more of net assets available for benefits of the Plan at December 31, 2010 and 2009:

	2010	2009
Guaranteed Interest Accounts	\$ 7,324,126	\$ 8,024,715
Large Cap S&P 500 Index	6,644,310	5,908,045
Money Market	4,175,580	5,881,021
Core Plus Bond	3,916,997	3,668,067
Principal Trust Target 2020 Fund	8,426,029	6,566,391
Principal Trust Target 2030 Fund	3,782,548	*
International Emerging Markets	5,232,894	5,037,731

* Balance did not exceed stated threshold on that particular date.

The following table represents net appreciation in the fair value of the investments during the year ended December 31, 2010:

Pooled separate accounts	\$ 4,900,506
Common and collective trusts	2,444,929
Mutual funds	756,866
Individually directed brokerage accounts	<u>253,993</u>
Total net appreciation	<u>\$ 8,356,294</u>

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. INFORMATION CERTIFIED BY THE CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company dba Principal Trust Company, the custodians of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments as of December 31, 2010 and 2009, and for the year ended December 31, 2010:

- Investments, at fair value
- Income (excludes interest from notes receivable from participants)
- Schedule of Assets (Held at End of Year) (excludes notes receivable from participants)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. WITHDRAWAL RESTRICTIONS ON PRINCIPAL U.S. PROPERTY SEPARATE ACCOUNT

Because of the current state of the real estate market, effective September 26, 2009, the Principal Financial Group implemented a pre-existing contractual limitation in the Principal U.S. Property Separate Account to delay payments to most requests for withdrawal from the Separate Account. This allows Principal Life to manage the Separate Account and satisfy withdrawal requests over time and fairly among all those who request a withdrawal. The withdrawal requests will be honored proportionately as sufficient cash becomes available for distribution, in accordance with the terms of the group annuity contract. Death and disability benefits are not affected by this limitation and will be processed as usual. Transfers and contributions into this separate account are also being accepted as usual.

During 2010, payments were made on four different dates to partially satisfy withdrawal requests from this investment. The withdrawal restrictions were completely lifted on March 25, 2011.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts, collective investment trusts, and guaranteed interest accounts managed by Principal Life Insurance Company and

Principal Trust Company. They are the custodians of the Plan, and therefore, these transactions qualify as party-in-interest.

9. TAX STATUS

The Company adopted a Prototype Non-standardized Profit Sharing Plan with CODA which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter, however, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2010. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the increase in net assets and transfers per the financial statements to the net income and transfers per the Form 5500 for the year ended December 31, 2010:

Net increase in net assets per the financial statements	\$ 9,738,975
Less - amount included as income on the financial statements, classified as transfer in on the Form 5500	<u>(15,211)</u>
Net income per the Form 5500	<u>\$ 9,723,764</u>
Transfers in from affiliated plans per the financial statements	\$ 277,290
Plus - amount included as income on the financial statements, classified as transfer in on the Form 5500	<u>15,211</u>
Transfer of assets to this plan per the Form 5500	<u>\$ 292,501</u>

Total net assets available for benefits per the financial statements and the Form 5500 are in agreement.
