North State Communications Employees' Savings Plus Plan
Notes to Financial Statements
December 31, 2010 and 2009

1. Description of Plan

The following description of North State Communications Employees' Savings Plus Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which provides retirement benefits to certain employees of North State Telephone Company (the "Company"). Eligibility to participate in the Plan is based on attainment of age twenty-one and completion of one year of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's net assets are segregated between the profit sharing and 401(k) portions of the Plan.

Contributions

Participants may contribute from 2% to 30% of their pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan. The Company makes matching contributions to each participant's account of 25% of the amount of the individual participant's contribution, up to 6% of total compensation.

Vesting

Participants are vested immediately in their participant contributions plus any earnings and appreciation thereon. For participants whose employment is terminated prior to normal retirement age for any reason other than death or disability, vesting in all Company contributions, plus earnings and appreciation, is in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Years of vesting service are defined as all Plan years during which a participant completes 1,000 or more hours of service to the Company.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contributions, and an allocation of the Plan earnings and investment gains or losses. Allocations are based on investment fund balances comprising each participant's account.

Payment of Benefits

On termination of service, participants with less than $1,000 receive a lump-sum distribution. Participants with balances greater than $1,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or may choose among other options provided for in the Plan.

Forfeited Amounts

At December 31, 2010 forfeited non-vested amounts totaled $1,661. These funds will be used to reduce future employer contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, including interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values in investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

2. Basis of Presentation and Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents consist of funds held in money market accounts. Cash and equivalents are carried at cost, which approximates fair value.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

During 2010 and 2009, the Plan incurred administrative expenses totaling $98,596 and $73,677, respectively.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

3. Unallocated Assets

Approximately $500 and $87,000 of Plan assets had not yet been allocated to participants as of December 31, 2010 and 2009, respectively.

4. Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs to the valuation methodology are unobservable. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were used by the Plan, and Level 2 inputs were only used when Level 1 inputs were not available.

The following tables present fair value measurement information for the Plan's investments:

	As of December 31, 2010		
	Quoted Market Prices (Level 1)	**Significant Other Observable Inputs (Level 2)**	**Total**
Common collective trust	$ --	$ 9,973,750	$ 9,973,750
Mutual funds	31,485,299	--	31,485,299
Total investments	$ 31,485,299	$ 9,973,750	$ 41,459,049

	As of December 31, 2009		
	Quoted Market Prices (Level 1)	**Significant Other Observable Inputs (Level 2)**	**Total**
Common collective trust	$ --	$ 10,849,625	$ 10,849,625
Mutual funds	30,550,582	--	30,550,582
Total investments	$ 30,550,582	$ 10,849,625	$ 41,400,207

4. Fair Value Measurements (continued)

Level 1 Fair Value Measurements - The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements - Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

During 2010, significant transfers were made between Level 1 and Level 2 investments. Transfers of $2,063,460 were made from Level 1 to Level 2 investments, and transfers of $2,971,369 were made from Level 2 to Level 1 investments. The Plan recognizes transfers between investment levels in the period that the transactions occur.

6. Income Tax Status

The Plan obtained its latest determination letter on October 13, 1993 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

During 2010, the Plan was formally amended to conform to recent regulatory pronouncements.
