Independent Auditors' Report

The Administrator of
Family Ford, Inc. d.b.a. Brandon Ford 401(k) Plan
Tampa, FL

We were engaged to audit the financial statements and supplemental schedules of Family Ford Inc. d.b.a. Brandon Ford 401(k) Plan ("the Plan") as of December 31, 2010 and 2009, and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note 2, these financial statements were prepared on a modified accrual basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FAMILY FORD, INC. d.b.a. BRANDON FORD 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2010

1. Description of the plan:

The following description of the Family Ford, Inc. d.b.a. Brandon Ford 401(k) Plan (the "Plan") provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan, effective January 1, 1996, set up to cover all employees of Family Ford, Inc. d.b.a. Brandon Ford (the "Company"). Employees who have six months of service and are age twenty-one or older are eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Income taxes:

The Plan obtained its latest determination letter on April 18, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Contributions:

Participants may elect, by submitting a written request to the Plan Administrator, to have their wage compensation reduced by any designated dollar amount up to the maximum amounts allowable under the limitations of the IRC. For the year ended December 31, 2010, elective deferral amount allowed under IRC Code Section 402(g) was $16,500, and catch-up contribution allowed for participants age 50 or older, under IRC Code Section 414(v) was $5,500. The Company discontinued matching contributions effective May 1, 2009.

Maximum annual addition to each participant's account is subject to the limitation set by IRC Code Section 415(c)(1)(A), which was the lesser of $49,000 or 100% of the participant's compensation for the year ended.

Participant accounts:

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings, and charged with an allocation of administrative expenses. Allocations are made proportionately to participants' annual compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the plan (continued):

Vesting:

Participants are immediately vested in their 401(k) deferral and voluntary nondeductible contributions. Vesting in their employer match accounts is based on years of continuous service. A participant is 100% vested after five years of credited service. The vesting schedule is as follows:

Vesting years of service	Vested percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeited accounts:

At December 31, 2010 and 2009, forfeited nonvested accounts totaled $4,944 and $229, respectively. These accounts will be used to reduce future employer contributions.

Payment of benefits:

The normal retirement age is a participant's 65th birthday. Upon death, disability or retirement (at or after normal retirement age or date) of a participant who has not incurred a separation from service, his account balance is 100% vested. A participant who incurs a termination of employment prior to his normal retirement age is entitled to that portion of his basic profit sharing account balance earned to date, with vesting based upon the years of service credited as of the date of termination of employment.

On termination of service, a participant may receive a lump-sum amount equal to the value of his or her account.

1. Description of the plan (continued):

Payment of benefits (continued):

In gereral, unless a participant elects to have his benefits under the Plan paid at a later date, the payment of benefits to him will begin no later than the 60th day after the close of the Plan year in which the latest of the following events occurs:

* the date on which the participant attains the age of sixty-five;
* the 10th anniversary of the year in which the participant commenced participation in the Plan; or
* the participant terminates his employment

Loans to participants:

Participant loans against individual Plan balances are allowed; however, total loan amount cannot exceed 50 percent of the participant's vested interest balance or $50,000, whichever is lower. The minimum loan amount is $1,000. Loans will bear interest at the prevailing interest rate charged by persons in the business of lending money for loans which would be made under similar circumstances as determined by the administrator. Upon termination of employee, the remaining outstanding loan balance will be treated as a taxable distribution to the participant from the Plan.

Plan expenses:

The employer has elected to absorb part of the Plan's operating and administrative expenses.

Basis of accounting:

The financial statements of the Plan are prepared under the modified accrual basis of accounting. That is, the asset amounts are reflected on a cash basis except for the contributions receivable. The contributions are reported on a Plan year accrual basis.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Summary of accounting policies:

Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and change therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Basis of accounting:" for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Date of Management's review:

Subsequent events were evaluated through June 30, 2011, which is the date the financial statements were available to be issued.

Notes receivable from participants:

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

3. Concentration of credit risk:

Financial instruments, which potentially subject the Plan to concentrations of credit risk, consist primarily of cash contributed and investment funds.

Since all cash is allocated to investment funds within a diversified portfolio, there are no significant concentrations of risk. In addition, the contributions and funds are owned by individual participants, therefore limiting any risk of loss.

4. Investments:

The following table presents the value of investments at December 31, 2010:

Investment option	Fair value at 12/31/2010
Guaranteed Interest Accounts	$ 77,470
Pooled Separate Accounts:	
Retirement Living at 2045	$ 1,490

5. Risk and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

6. Related-party transactions:

During the year ended December 31, 2010, there were no related-party transactions which are prohibited by ERISA and for which there are no statutory or administrative exemptions.

7. Reportable transactions:

There were no aggregate transactions that represented 5% or more of the fair market value of net assets available for Plan benefits for the year ended December 31, 2010.

8. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at anytime subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

9. Fair value measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Input levels by investment category

		Fair value measurements using:		
	Fair value	Level 1 inputs	Level 2 inputs	Level 3 inputs
December 31, 2010				
Investment contract	$ 77,470	$ 0	$ 0	$ 77,470
Pooled separate accounts	2,403,843	2,403,843	0	0
Total	$ 2,481,313	$ 2,403,843	$ 0	$ 77,470
December 31, 2009				
Investment contract	$ 63,695	$ 0	$ 0	$ 63,695
Pooled separate accounts	2,209,301	2,209,301	0	0
Total	$ 2,272,996	$ 2,209,301	$ 0	$ 63,695

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were only used when Level 1 inputs were not available, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

9. Fair value measurements (continued):

Level 1 inputs

The fair value of pooled separate accounts is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 inputs

The guaranteed investment contract and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is the amount plan participants would receive if the were to withdraw or transfer funds within the Plan prior to their maturity, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Effect of level 3 inputs on net assets or liabilities

	Investment contract
December 31, 2010	
Beginning balance	$ 63,695
Total gains or losses	0
Interest credited	1,464
Purchases, sales, issuances, and settlements (net)	12,311
Ending balance	$ 77,470
The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the changes in unrealized gains or losses relating to assets still held at the reporting date:	$ 1,464

9. Fair value measurements (continued):

Effect of level 3 inputs on net assets or liabilities (continued)

	Investment contract
December 31, 2009	
Beginning balance	$ 48,016
Total gains or losses	0
Interest credited	1,397
Purchases, sales, issuances, and settlements (net)	14,282
Ending balance	$ 63,695
The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the changes in unrealized gains or losses relating to assets still held at the reporting date:	$ 1,397

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010 are reported in net appreciation in fair value of investments.
