To the Investment Committee
Tennessee Valley Federal Credit Union
Profit Sharing and 401(k) Plan
Chattanooga, Tennessee

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of Tennessee Valley Federal Credit Union Profit Sharing and 401(k) Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2010, and the supplemental schedule (Schedule H, Line 4i – Schedule of Assets Held at End of Year (modified cash basis)) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Oppenheimer Trust Company, the Trustee of the plan, and Frontier Trust Company, the Custodian of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that Frontier Trust Company holds the Plan's assets and executes transactions. The plan administrator has obtained certifications from the Trustee as of and for the year ended December 31, 2010, and from the Custodian as of December 31, 2009, that the information provided to the plan administrator by the Trustee and Custodian is complete and accurate.

As described in Note 1, these financial statements and the supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee and Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1. Summary of Significant Accounting Policies and Plan Characteristics

General:

The Plan, established January 1, 1986, is a defined contribution employee benefit plan covering persons regularly employed by Tennessee Valley Federal Credit Union. Employees become participants in the Plan after completing six months of service and attaining the age of 21 years. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

The Plan is a contributory plan whereby an employee who elects to participate can contribute a percentage of the participant's compensation subject to limitations as defined by the Internal Revenue Service. The Credit Union matches employee contributions at 100 percent of employees' contributions up to 3 percent of compensation and 50 percent for contributions over 3 percent up to 5 percent of compensation for a maximum match of 4 percent. In addition, an additional percentage determined by the Board of Directors is contributed at year-end to all eligible employees whether or not they are making a contribution. Participants direct the investment of the contributions into various investment options offered by the Plan. Participants are provided a choice of up to thirty-six (36) portfolios with various risk levels and objectives.

Participant accounts:

Each participant's account is credited with the participant's contribution, the Credit Union's contribution and an allocation of earnings. The employer's contribution is allocated to each participant's account based on the employee's compensation for the plan year. Earnings are allocated based on the proportion of the participant's account balance at the preceding valuation date to the total of all participant accounts.

Vesting:

Participants are immediately vested in both employee and employer contributions.

Notes receivable from participants:

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

TENNESSEE VALLEY FEDERAL CREDIT UNION
PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1. Summary of Significant Accounting Policies and Plan Characteristics (continued)

Notes receivable from participants (continued)

During 2010 the Plan adopted, under the retrospective method, Accounting Standards Update (ASU) 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, which requires participant loans to be measured at their unpaid principal balance plus accrued but unpaid interest. However, in accordance with the modified cash basis of accounting the Plan does not include accrued but unpaid interest in the measurement of participant loans. The ASU also requires participant loans to be classified as notes receivable, segregated from plan investments. Prior to adoption of this ASU, the Plan measured its participant loans at cost which approximated fair value and included participant loans as plan investments.

Payment of benefits:

The Plan provides that a participant may begin receiving normal retirement benefits upon attaining the age of 65. Retirement benefits may be made by lump-sum distribution or periodic distributions not exceeding the participant's life expectancy.

Basis of accounting:

The accounts of the Plan are maintained, and the accompanying financial statements have been prepared, on the modified cash basis of accounting. Investment income and contributions are recognized when received rather than when earned, and expenses are recognized when paid rather than when the obligation is incurred. Additionally, investments are reflected at fair value. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with generally accepted accounting principles.

Administrative expenses:

Under the terms of the Plan, administrative expenses are paid by the Plan. If not paid by the Plan, the expenses shall become a liability of the employer. The employer may reimburse the Plan for any administrative expenses incurred and such reimbursement shall not be considered as an employer contribution.

Plan administration:

The plan administrator is the plan sponsor, Tennessee Valley Federal Credit Union. The administrator supervises the operation of the Plan, interprets the meaning of provisions in the Plan, determines eligibility for participation and benefits, and decides when benefits are to be paid in accordance with the terms of the Plan.

TENNESSEE VALLEY FEDERAL CREDIT UNION
PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 1. Summary of Significant Accounting Policies and Plan Characteristics (continued)

Trustee:

The Trustee of the Plan is Oppenheimer Trust Company. The Trustee serves under the terms of a trust agreement which provides for the investment of trust funds and prescribes the powers, duties, obligations and functions of the Trustee.

Estimates:

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent events:

Management performed an evaluation of subsequent events through July 18, 2011, the date these financial statements were issued.

Note 2. Plan Termination

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 3. Investments

All of the Plan's assets are held by the Custodian, Frontier Trust Company. The amounts set forth in the accompanying financial statements for investments, income from investments, notes receivable from participants and the information shown in the attached supplementary schedule (Schedule I) were summarized from information furnished by the Trustee, Oppenheimer Trust Company, as of and for the year ended December 31, 2010, and the Custodian, Frontier Trust Company, as of December 31, 2009. The plan administrator has received from the Trustee and Custodian a certification that the information furnished by the Trustee and Custodian is complete and accurate.

TENNESSEE VALLEY FEDERAL CREDIT UNION
PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 3. Investments (continued)

The fair value of each of the Plan's investments representing 5 percent or more of the Plan's net assets at December 31, 2010 and 2009, is as follows:

	<u>2010</u>	<u>2009</u>
Oppenheimer Global Opportunities Fund	\$ 905,649	\$ 811,709
Oppenheimer Quest Opportunity Value Fund	488,703	428,811
Oppenheimer Capital Appreciation Fund	996,883	876,642
Oppenheimer Discovery Fund	985,963	708,498
Oppenheimer Main Street Fund	595,028	506,533
Oppenheimer Quest Balanced Fund	-	455,401
Oppenheimer Cash Reserves Fund	<u>1,889,569</u>	<u>1,862,498</u>
	5,861,795	5,650,092
All other investments	<u>3,622,530</u>	<u>2,138,854</u>
	<u>\$9,484,325</u>	<u>\$7,788,946</u>

During 2010, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$931,095.

Note 4. Tax Status of the Plan

The Plan obtained its latest determination letter on December 8, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan's administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator has evaluated tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2007.

TENNESSEE VALLEY FEDERAL CREDIT UNION
PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6. Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by Oppenheimer Trust Company. Oppenheimer Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$5,125 for the year ended December 31, 2010.

Note 7. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 7. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Balance as of December 31, 2010	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

Note 7. Fair Value Measurements (continued)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the period. For the year ended December 31, 2010, there were no transfers in or out of levels 1, 2 or 3.

Note 8. Plan Amendment

During 2009 the plan was amended to automatically enroll eligible employees who had not declined to participate in the plan with a 1 percent withholding rate. The withholding rate for each participant increases by 1 percent each April up to 10 percent unless the participant specifies otherwise.

Note 9. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	<u>2010</u>	<u>2009</u>
Net assets available for benefits per Schedule H of Form 5500	\$10,355,332	\$8,325,863
Adjustment for accrued but unpaid interest on notes receivable from participants	(1,339)	-
Adjustment for contributions receivable	<u>(269,369)</u>	<u>-</u>
Net assets available for benefits per the financial statements	<u>\$10,084,624</u>	<u>\$8,325,863</u>
