NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2010 and 2009

Note 1 - Description of Plan:

The following description of the Westbrook Service Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General - The Plan was established on October 1, 1990 as a defined contribution plan covering substantially all employees of *Westbrook Service Corporation* (the Company), who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants in the Plan may voluntarily contribute up to 100% of their pre-tax annual compensation, as defined in the Plan, within the limits prescribed by the Internal Revenue Services (IRS). Participants may also roll over amounts representing distributions from other qualified defined-benefit or contribution plans. For both years ended December 31, 2010 and 2009, individual participants' contributions were limited to $16,500 (or $22,000 for both years ended, if over the age of 50).

The Plan provides for Company matching contributions and discretionary matching contributions, both of which are determined annually. For the years ended December 31, 2010 and 2009, the Company matched 25% of a participant's first 6% of match eligible contributions. Plan participants must have been an active participant in the matching portion of the Plan and have completed 1,000 or more hours of service in the Plan year to be eligible for the Company's matching contributions

The Company's discretionary matching contribution to the Plan is a proportional percentage amount based upon a pre-defined formula that takes into consideration each participant's respective amount of annual compensation. To be eligible, an employee must be an active participant in the Plan and have completed 1,000 or more hours of service in the Plan year. There were no discretionary matching contributions approved or made during the years ended December 31, 2010 and 2009.

Participant accounts - Each participant account is credited with the participant's contribution and allocation of: (a) the Company's contribution and discretionary matching contribution (if any) and (b) plan earnings or losses including market value adjustments on Plan investments. Allocations of earnings and losses are based on the proportion of the participant's account balance to the total account balances of all participants, as defined in the Plan document. All participant contributions are participant-directed and may be invested in one fund or allocated among different funds. Participants may change the allocation of contributions among funds pursuant to Plan provisions.

Note 1 - Description of Plan (Continued):

Allocation and vesting of benefits - Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Company's matching contribution and discretionary matching contribution (if any) portion of their accounts, plus any earnings or losses thereon, is based upon the number of years of continuous service. Participant accounts vest at a rate of 20% per year of service and become 100% vested after six years of credited service. Participant accounts become fully vested upon death, disability (as defined by the Plan), attainment of normal and/or early retirement age (defined by the Plan as 65 and 55, respectively), or upon termination of the Plan.

Forfeitures - Any non-vested portion of an account balance after the distribution of terminated participants vested account balance is forfeited. A forfeiture will also occur without a distribution after five consecutive one year breaks in service.

Nonvested Company matching and discretionary matching contributions forfeited by participants are used to reduce certain administrative expenses or reduce Company contributions to the Plan.

Payment of benefits - Distributions of a participant's pre-tax account are made upon retirement from the Company, in cases of financial hardship, termination from service from the Company, death, or permanent or total disability. The normal retirement age, as defined by the Plan, is the date at which participants reach the age of 65. Participants still employed who have reached the age of 59 ½ are eligible to withdraw all or a portion of their vested accounts. If a participant terminates before retirement, the participant will receive either a lump-sum payment of his or her account balance, or if the account exceeds $1,000, the participant may elect any distribution date up to age 70 ½. The period may not extend beyond the life expectancy of the participant or the joint life expectancy of the participant and his or her beneficiary.

Participant notes receivable - Plan participants may borrow from their fund accounts a minimum of $500 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant may not have more than one note outstanding at any time. The notes, which are collateralized by the balance in the participant's account, bear interest at rates ranging from 4.25% to 5.50% for the years ended December 31, 2010 and 2009. Principal and interest are paid ratably through monthly payroll deductions. All loans are required to be repaid within a period of five years.

Plan administration - The Company is the plan sponsor and plan administrator of the Plan, and as such, controls and manages the operation and administration of the Plan. The Plan's assets are maintained by Principal Life Insurance Company (the Custodian and investment manager). Company contributions are held and managed by the Custodian, who invests cash received, interest and dividend income, and makes distributions to participants (subject to the direction of the Company and the participants).

Note 2 - Summary of Significant Accounting Policies:

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition - The Plan's investments in pooled separate accounts are reported at fair value based on the quoted market price, which represents the net asset value of shares held by the Plan at year-end. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar investment with comparable durations.

Interest income is recorded when received. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investment and unrealized appreciation or depreciation is recognized at period end when carrying values of the related investments are adjusted to their fair values. Purchase and sales of investments are recorded on the settlement date.

Earnings on investments, with the exception of participant notes, are allocated on a pro rata basis to individual participant accounts based on the type of investment and the ratio of each participant's individual account balance to the aggregate of participant account balances. The portion of interest included in each loan payment made by a participant is recognized as interest income in the participant's individual account. Participant notes are valued at their outstanding balances, which approximates fair value.

In accordance with the policy of stating investments at market value, the Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Administrative expenses - Administrative expenses include loan fees charged directly to the participant's accounts. The remaining costs are paid directly by the Company and are not reflected in the accompanying financial statements or with forfeited accounts.

Management estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and changes in net assets and disclosures of contingent assets and liabilities. Actual results could differ from those estimates and such differences could be material.

Risks and uncertainties - The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to high level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at lease reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued):

Concentration of credit risk - Financial instruments which potentially subject the Plan to concentrations of credit risk consists of the Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure of any particular investment.

Payment of benefits to withdrawing participants - The plan records benefit payments to withdrawing participants when paid.

Note 3 - Investment Contract with Insurance Company:

The Plan entered into an investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

The guaranteed interest accounts are reported at fair market value. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, the guaranteed interest accounts are not considered benefit responsive.

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962-820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Market price observability is impacted by a number of factors, including the type of asset or liability and the characteristics specific to the asset or liability. Assets and liabilities with readily available active quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Note 4 - Fair Value Measurements (Continued):

Assets and liabilities measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 – Quoted prices are available in active markets of identical investments as of the reporting date. The type of assets and liabilities included in Level 1 includes listed equities and listed debt instruments and derivatives.

Level 2 – Pricing inputs are other than quoted prices in active markets which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models and other valuation methodologies.

Level 3 – Pricing inputs are unobservable for the asset or liability and include situations where there is little, if any market activity. The inputs into the determination of fair value require significant management judgment or estimation. Assets and liabilities which are generally included in this category include venture capital investments in equity or equity-oriented securities of privately held entities.

In certain cases, the inputs used to measure fair value may fall into different levels of fair value hierarchy. In such cases, an asset or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The following table summarizes the Plan's investments reported at fair value based on the valuation methodology applied as of December 31, 2010 and 2009:

	December 31, 2010			
	Level 1:	Level 2:	Level 3:	
Description	Quoted prices in markets for identical assets	Significant other observable inputs	Significant unobservable inputs	Total
Investments, at fair value:				
Pooled separate accounts	$ 2,103,952	$ -	$ -	$ 2,103,952
Guaranteed interest accounts	-	-	368,334	368,334
Total investments, at fair value	$ 2,103,952	$ -	$ 368,334	$ 2,472,286

Note 4 - Fair Value Measurements (Continued):

	December 31, 2009			
	Level 1:	Level 2:	Level 3:	
Description	Quoted prices in markets for identical assets	Significant other observable inputs	Significant unobservable inputs	Total
Investments, at fair value:				
Pooled separate accounts	$ 1,749,215	$ -	$ -	$ 1,749,215
Guaranteed interest accounts	-	-	350,028	350,028
Total investments, at fair value	$ 1,749,215	$ -	$ 350,028	$ 2,099,243

The guaranteed investment contract is not actively traded and significant other observable inputs are not readily available. The fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following is a schedule of Level 3 investment activity for the years ended December 31, 2010 and 2009 measured on a recurring basis using significant unobservable inputs:

	Guaranteed Interest Accounts
Balance - January 1, 2009	$ 424,934

The following are investments that represent five percent or more of the Plan's net assets available for plan benefits as of December 31, 2010 and 2009:

	2010	2009

The Plan's investments (including gains and losses on investments bought and sold, as well as those held during the year) appreciated (depreciated) in value during the years ended December 31, 2010 and 2009 as follows:

	2010	2009

Guaranteed interest accounts	2,495	(3,250)
	$ 274,521	$ 197,817

Note 6 - Summary of Information Certified by the Custodian:

The Plan Administrator has received certification of the financial information and data from the Custodian and investment manager in accordance with Section 2520.103-5 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The data certified by the Custodian and investment manager includes the following financial information reflected in the accompanying financial statements as of and for the years ended December 31, 2010 and 2009:

Note 6 - Summary of Information Certified by the Custodian (Continued):

	2010	2009
Investments:		
Pooled separate accounts	$ 2,103,952	$ 1,749,215
Guaranteed interest accounts	368,334	350,028

Note 7 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status:

The Company has established and intends to maintain the Plan as a qualified plan under Section 401 of the Internal Revenue Code (IRC) which provides for exemptions from federal income taxation. The Plan obtained its latest determination letter on January 31, 2006, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 9 - Party-In-Interest:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are units of pooled separate accounts and guaranteed interest accounts in which the accounts' assets are owned by Principal Life Insurance Company (Principal). Principal is the custodian and investment manager of the Plan and, therefore, is considered a party-in-interest.

Note 10 - Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for plan benefits as shown on Form 5500 at December 31, 2010 with the amount shown in the financial statements:

Net assets available for plan benefits - Form 5500	$ 2,549,240
