NOTE 1 - DESCRIPTION OF PLAN

The following description of the Group Leasing, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions, which is available from the Plan administrator.

General: The Plan was established, effective November 1, 1999, as a defined contribution plan covering all full-time employees of Group Leasing, LLC, AirTek, Inc. and Aristo, Inc. (collectively the "Company") who have 1,000 hours of service (one month for employee deferrals only), are not covered by a collective bargaining agreement, are not a nonresident alien, are not a leased employee, and have reached 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Substantially all administrative costs related to the Plan are absorbed by the Company. Fidelity Management Trust Company is trustee of the Plan.

Contributions: Participants may make tax deferred contributions up to the lesser of the federal statutory limit or 60 percent of the participant's compensation. Additionally, participants who are age 50 by the end of the plan year may make a "catch-up" contribution of $5,500 in 2010. The Company may make a discretionary matching contribution. Employees must complete one year with 1,000 hours of service to be eligible to receive an employer matching contribution. For 2010 and 2009, the Company matched employee contributions at 100 percent of the first six percent of the compensation deferred by each participant. The Company can also make a discretionary employer contribution to the Plan. No such contribution was made in 2010 or 2009.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 50 percent vested after one year of credited service and 100 percent vested after two years of credited service. The nonvested balance is forfeited upon termination of service.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions into any of the investment options offered by the Plan. Participants may change their investment options daily using the internet.

Participant Notes Receivable: Participants may borrow up to 50 percent of their vested account balance up to a maximum of $50,000 subject to rules under the Internal Revenue Code. No loan will be made for less than $1,000, nor will a loan be made if a prior participant loan is currently outstanding. Loan terms range from 1-5 years for all loans except those that are for the purchase of a primary residence, which may be up to 10 years. The loans are collateralized by the balance in the participant's account and bear interest at rates determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits: On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in the Plan or installment payments over a fixed period.

Earnings: Earnings include net asset appreciation/depreciation and interest and dividends earned during the year.

Administrative Expenses: Certain Plan expenses are paid out of forfeited, nonvested accounts. If administrative expenses exceed forfeitures than they will be paid by the Plan sponsor or out of participant accounts.

Forfeited Accounts: For the years ended December 31, 2010 and 2009, forfeited nonvested accounts total $234 and $877, respectively. These accounts may be used to offset future employer contributions or administrative expenses paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant notes receivable are valued at cost which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable: Notes receivable from participants are valued at their unpaid principle balance plus any accrued but unpaid interest.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities in general are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The current economic environment presents employee benefit plans with unprecedented circumstances and challenges, which in some cases have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Reclassifications: Certain prior year amounts have been reclassified to conform to the current year presentation. The reclassifications have no effect changes in net asset available for benefits.

NOTE 3 - ACCOUNTING CHANGE

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivables from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $199,854 for the year ended December 31, 2009, retrospectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

NOTE 4 - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 6 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

(Continued)

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Money market fund: Valued at a NAV of $1 per share, as reported by the trustee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(Continued)

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

	Assets at Fair Value as of December 31, 2010			
Description of Investment	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,894,966	$ -	$ -	$ 2,894,966

	Assets at Fair Value as of December 31, 2009			
Description of Investment	Level 1	Level 2	Level 3	Total

Money market fund	392,089	-	-	392,089
Total assets at fair value	$ 2,725,421	$ -	$ -	$ 2,725,421

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 - INCOME TAX STATUS

The Plan obtained its latest IRS determination letter on October 27, 2003, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(Continued)

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.
