Report of Independent Auditors

To the Plan Administrator of the
Premier Research International, LLC 401(k) Plan
Philadelphia, Pennsylvania

We were engaged to audit the financial statements and supplemental schedule of the Premier Research International, LLC 401(k) Plan (the Plan) as of December 31, 2010, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of and for the year ended December 31, 2009 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by John Hancock Life Insurance Company (U.S.A.), the asset custodian of the Plan. Their report, dated July 7, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the asset custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company (U.S.A.), the asset custodian of the Plan, except for comparing the information with the related information included in the 2010 financial statements and supplemental schedule. We have been informed by the Plan Administrator that the asset custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the asset custodian as of and for the year ended December 31, 2010, that the information provided to the Plan Administrator by the asset custodian is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements

Years ended December 31, 2010 and 2009

1. Plan Description

The following description of the Premier Research International, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time U.S. employees of Premier Research International, LLC (the Company) who have completed three months of service and have attained the age of 21. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

John Hancock Life Insurance Company (U.S.A.) is the asset custodian of the Plan.

Contributions

Participants may contribute a percentage of pre-tax annual compensation, subject to Internal Revenue Code (IRC) limitations. In accordance with the IRC, participant voluntary pretax contributions could not exceed \$16,500 in 2010 and 2009, with the exception of certain allowable catch-up contributions for participants over the age of 49. The Plan also allows for automatic enrollment to all new participants at a rate of 4% of their compensation. Participants may change the percent of pre-tax annual compensation at any time. Participants may also opt-out of contributing to the Plan at any time. Participants may elect to contribute funds from other qualified retirement plans (rollover contributions), subject to certain requirements.

The Company may elect to make a discretionary contribution based upon the relationship of an employee's compensation to the total compensation of all participants except for when the Plan is considered top-heavy whereby the discretionary contribution is allocated in accordance with the methodology described in the Plan. The Plan includes various tests required by ERISA, which has the effect of limiting contributions for highly paid employees.

Participant Accounts

A separate account is established for each participant upon enrollment in the Plan. Each participant's account is credited with the participant's contributions, allocations of the Company contributions and Plan earnings, and charged with an allocation of administrative expenses.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

1. Plan Description (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Upon death, disability, or retirement, a participant becomes 100% vested in employer contributions. Otherwise, vesting in employer contributions and earnings thereon, occurs according to the following schedule:

Completed Years of Service	Vesting Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Participants may borrow, from their fund accounts, an aggregate amount up to the lesser of \$50,000 or 50% of the participant's vested account balance. The minimum loan allowed is \$1,000. Loans bear interest at the prime rate of the interest, which was 3.25% as of December 31, 2010, charged by the current commercial bank of the Company as of the date of the loan plus 1.50%. At December 31, 2010, the interest rates on participant loans ranged from 4.75% to 9.00%. Loans are collateralized by the participant's non-forfeitable interest in the Plan and are supported by a promissory note.

Loans must be repaid over a period not to exceed five years unless the loan proceeds are used for the purchase of a primary residence, in which case a longer repayment period is allowed, not to exceed 20 years. Principal and interest is paid through semi-monthly payroll deductions.

Payments of Benefits

The Plan provides for a normal retirement benefit to be paid to participants who have reached the age of 65, or in the case of early retirement, age 55, with at least one year of service. There are also retirement benefits available upon late retirement, disability and death. Distributions are made in lump sum payments, or, in the case of a participant death, extended payments to a beneficiary as permitted by the Plan.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

1. Plan Description (continued)

Forfeited Accounts

When a termination occurs, the non-vested portion of the participant's account represents a forfeiture, as defined by the Plan Agreement. Forfeited balances are used to reduce the Company's contributions and to increase participants' accounts in the Plan. Forfeitures of \$73,846 and \$55,390 were used to reduce the Company's contributions in 2010 and 2009, respectively. Unallocated forfeitures at December 31, 2010 and 2009 were \$108,065 and \$82,328, respectively.

Investment Options

All investment options are fully participant directed. Participants may direct the investment of their contributions and the Company's discretionary contributions, if any, into any of the Plan's available investment options.

2. Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, and are presented on the accrual basis of accounting in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure with ERISA.

Recently Adopted Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU No. 2010-06), which amends Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (ASC 820), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which is effective for fiscal years beginning after December 15, 2010. The adoption of ASU No. 2010-06 did not have a material effect on the Plan's financial statements as of and for the years ended December 31, 2010 and 2009.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Recently Adopted Accounting Pronouncements (continued)

In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU No. 2010-25), which amends ASC 962, *Plan Accounting – Defined Contribution Pension Plans*, requiring that participant loans be classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The adoption of ASU No. 2010-25 did not have a material effect on the Plan's financial statements as of and for the years ended December 31, 2010 and 2009 other than the reclassifications within the statements of net assets available for benefits and Note 4.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Risks and Uncertainties

The Plan provides for various investment options in any combination of shares of a money market fund, mutual funds and a common collective trust with various investment objectives. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Fair Value Measurements

The Plan follows ASC 820 for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value, establishes a fair value hierarchy, and expands disclosures about fair value measurements.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Fair Value Measurements (continued)

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk including the Plan's own credit risk.

In addition to defining fair value, ASC 820 expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in the measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety.

These levels are:

Level 1 – Inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 – Inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest income, including interest on participant loans, is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes realized and unrealized gains and losses.

The assets of the Plan are invested in mutual funds, a money market fund and a common collective trust. Mutual funds and money market funds are stated at fair market value as determined by the asset custodian based on the last reported sales price on the last business day of the Plan year. The Plan's interest in a common collective trust is valued based on information reported by the asset custodian using audited financial statements of the guaranteed investment contract at year end. Gains and losses are recognized as incurred upon sale or maturity of investments or based on market value change during the period.

Guaranteed investment contracts (identified as the common collective trust in the statements of net assets available for benefits) held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed investment contract (JH Guaranteed Interest Accounts (Credited Interest)). As required by ASC 962, the statements of net assets available for benefits present the fair value of the investments. The Plan's investment in the guaranteed investment contract is stated at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrator fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. At December 31, 2010 the contract value of the guaranteed investment contract was \$142,578, and the adjustment from fair value to contract value has been recorded in the financial statements. At December 31, 2009, contract value approximated fair value and no such adjustment was necessary. The average yield and crediting rate was 1.8% and 2.5% for the years ending December 31, 2010 and 2009, respectively.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2010 and 2009. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Most expenses incurred in the administration of the Plan are paid by the Company. The Plan's asset custodian is paid by the Plan for certain fees relating to investment management services.

Plan Termination

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform to the current year financial statement presentation.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2010 and 2009, net appreciation in fair value of investments, interest and dividend income, and administrative expenses for the years ended December 31, 2010 and 2009, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.), the asset custodian of the Plan.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

3. Investments (continued)

Investments representing 5% or more of the Plan's net assets available for benefits were as follows at December 31:

	2010	2009
JH Lifestyle Moderate Portfolio	\$ 871,706	\$ 720,780
JH Lifestyle Balanced Portfolio	3,576,236	3,042,025
JH Lifestyle Growth Portfolio	3,183,896	2,898,284
JH Lifestyle Aggressive Portfolio	1,206,741	939,261
JH Oppenheimer Developing Markets Fund	852,295	*

*Investment balance did not exceed 5% of the Plan's net assets available for benefits.

For the Plan years ended December 31, 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,905,505 and \$2,934,565, respectively. For the years ended December 31, 2010 and 2009, interest on participant loans was \$4,132 and \$4,124, respectively. For the years ended December 31, 2010 and 2009, interest on the common collective trust was \$2,510 and \$2,780, respectively.

4. Fair Value Measurements

The following table summarizes the fair values and levels within the fair value hierarchy in which the fair value measurements fall for assets measured on a recurring basis as of December 31:

Description	Level 1	Level 2	Level 3	Total
2010				
Investments:				
Mutual funds	\$ 14,954,989	\$ -	\$ -	\$ 14,954,989
Money market fund	517,243	-	-	517,243
Common collective trust	-	144,320	-	144,320
Total investments	\$ 15,472,232	\$ 144,320	\$ -	\$ 15,616,552

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Description	Level 1	Level 2	Level 3	Total
2009				
Investments:				
Mutual funds	\$ 12,408,513	\$ -	\$ -	\$ 12,408,513
Money market fund	496,484	-	-	496,484
Common collective trust	-	145,093	-	145,093
Total investments	\$ 12,904,997	\$ 145,093	\$ -	\$ 13,050,090

Investments in mutual funds and money market funds are valued at the net asset value of shares held by the Plan at year end using market prices on active markets (Level 1). Level 1 instrument valuations are obtained from real-time quotes for transactions in active exchange markets involving identical assets. The common collective trust is designated as a Level 2 investment and is valued based on information reported by the asset custodian using the audited financial statements of the common collective trust at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Income Tax Status

Although the Plan has not obtained an Internal Revenue Service (IRS) determination letter, the Plan has received a favorable opinion letter dated March 16, 2010. The Plan has since been amended. However, the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and exempt from taxation.

6. Discrimination Testing

The Plan failed the Actual Deferral Percentage (ADP) testing for the Plan years ended December 31, 2010 and 2009. The nature of the ADP test is to test compliance with the nondiscrimination provisions of the IRC. The test stipulates that salary deferrals made as contributions to the Plan by members of the highly compensated group are limited within a specified range of non-highly compensated deferrals. When deferrals of the highly compensated group exceed the specified range, the excess deferrals must be returned to the highly compensated individuals within 12 months of the Plan year end.

Premier Research International, LLC 401(k) Plan

Notes to Financial Statements (continued)

6. Discrimination Testing (continued)

Accordingly, during 2011 and 2010, the Plan returned \$32,850 and \$5,830, respectively, of excess contributions related to the Plan years ended December 31, 2010 and 2009, respectively. All amounts were refunded within 12 months of the respective Plan year end. These amounts have been recorded as a liability to the Plan's financial statements as of December 31, 2010 and 2009, respectively.

7. Party-in-Interest Transactions

Section 3(14) of ERISA defines party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, loans to participants and transactions with investment funds managed and held by the asset custodian are considered party-in-interest transactions.

8. Reconciliation of Plan Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31, 2010
Net assets available for benefits per the financial statements	\$ 15,858,510
Add: Return of excess contributions	32,850
