THE SECULAR TRUST OF THE GENTIVA HEALTH SERVICES, INC. 2005 NONQUALIFIED RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Note 1 - Description of plan:

The following description of The Gentiva Health Services, Inc. 2005 Nonqualified Retirement Plan (the Plan) provides only general information. Plan assets are arranged into two separate trusts. The Rabbi Trust, whereby pre-tax participant contributions and employer contributions are made, and the Secular Trust, which consists of after-tax participant contributions. These financial statements include only the activity of the Secular Trust. The Secular Trust is a grantor trust, which is designated to hold the participants after-tax contributions and earnings thereon.

General

The Plan is a defined contribution plan established to provide certain employees of Gentiva Health Services, Inc. (the Company) with retirement benefits. The Plan is a non-qualified retirement plan.

Contributions

Each year, participants may contribute from 1% to 30% of after-tax compensation and/or up to 75% of their bonus and incentive compensation, as defined in the Plan Document.

All participants making contributions to the Plan are eligible for discretionary matching contributions as well as discretionary annual profit sharing contributions from the Company. All Company contributions are made to the Rabbi Trust of The Gentiva Health Services, Inc. 2005 Nonqualified Retirement Plan, which is a separate component of the Plan as described above.

Participant accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, and an allocation of the Plan's earnings and is charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of plan - continued:

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. All company contributions are made to the Rabbi Trust of the Gentiva Health Services, Inc. 2005 Nonqualified Retirement Plan, which is a separate component of the Plan as described above.

Participants become vested in company matching and profit sharing contributions in accordance with the following schedule:

<u>Completed Years of Service</u>	<u>Percentage Matching and Profit Sharing Contributions Vested</u>
1	0%
2	25%
3	50%
4	75%
5 or more	100%

Payment of benefits

A participant is entitled to receive a lump-sum distribution or annual installment paid in substantially equal payments not to exceed a period of ten years in an amount equal to the vested value of his or her account upon termination of service, retirement, disability or death. A participant may request a withdrawal from the Rabbi Trust portion of the Plan while still under the employment of the Company for reasons of financial hardship, but the withdrawal is limited to the amount of the participant's pre-tax contributions and earnings thereon.

Notes receivable from participants

The Plan does not allow notes receivable from participants.

Notes to Financial Statements - Continued

Note 1 - Description of plan - continued:

Administrative expenses

The Company pays most of the Plan's administrative expenses, including audit fees. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Participants who invest in certain funds may be charged a short-term redemption fee if they do not keep their investment in that fund for at least 90 days. These fees are paid by the participant.

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification). The Codification is the single source of authoritative generally accepted accounting principles in the United States (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

Basis of accounting

The financial statements of the Secular Trust portion of the Plan are prepared using the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (U.S. GAAP).

Investment valuation and income recognition

The Secular Trust's investments are valued at fair value based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Secular Trust has the ability to access. |
|---------|--|

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2010 and 2009.

- Mutual funds are valued at the net asset value of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.
- Units of participation in the guaranteed investment contract value is determined by using the formula as described in the applicable group annuity contract using unobservable inputs.
- Interest bearing cash is valued at quoted market prices.

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Secular Trust believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Secular Trust's assets at fair value by major categorization for debt and equity securities on the basis of nature and risk of the investments as of December 31, 2010 and 2009:

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates.

Note 2 - Summary of significant accounting policies - continued:

Risks and uncertainties

The Plan, through the Secular Trust, invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

New accounting pronouncements

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures*, (ASU No. 2010-06) which amended ASC Topic 820, *Fair Value Measurements and Disclosures*, (ASC Topic 820) by requiring disclosure of significant transfers between Levels 1 and 2 and transfers into and out of Level 3 of the fair value hierarchy and the reasons for those transfers. In addition, ASU No. 2010-06 amends the reconciliation of the beginning and ending balances of Level 3 recurring fair value measurements to present information about purchases, sales, issuances, and settlements on a gross basis rather than as a net number. Finally, ASU No. 2010-06 requires fair value disclosures for each class of assets and liabilities and changes the guidance for employers' disclosure about pension and other postretirement benefit plan assets to require that they be made for classes of assets instead of major categories. ASU No. 2010-06 was effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which is effective for fiscal years beginning after December 15, 2010. The plan only adopts what was effective for periods beginning after December 15, 2009. The plan did not yet adopt changes for fiscal years beginning after December 15, 2010.

Benefit payments

Benefit payments are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events that would affect the Secular Trust through July 22, 2011, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2010, have been incorporated into these financial statements.

Note 3 - Investments and information certified by the trustee:

Prudential Retirement Insurance and Annuity Company (Prudential) is the trustee for the Plan. Prudential holds the Plan's investment assets and executes transactions. The Plan administrator has obtained a certification from Prudential that investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2010, net appreciation in fair value of investments, and interest and dividend income as of December 31, 2010, and for the year then ended, is complete and accurate.

The following is a summary of investments, at fair value, that represent 5% or more of the Secular Trust's net assets at December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Allianz NFJ Small Capital Admin Fund	\$ 268,179	\$ 168,682
American Funds Balanced Fund	536,440	463,088
American Funds Euro Pacific Growth Fund	288,366	249,100
American Funds Growth Fund of America	797,110	589,259
Eaton Vance Large Cap Value Fund A	695,922	583,662
PIMCO Total Return Bond Admin Fund	392,753	302,451
Prudential Stock Index Fund I	390,166	334,470
Prudential Guaranteed Investment Contract	609,823	444,605

During 2010, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$385,528.

THE SECULAR TRUST OF THE GENTIVA HEALTH SERVICES, INC. 2005 NONQUALIFIED RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 4 - Related-party transactions:

Certain Plan investments are shares of mutual funds or units of guaranteed interest contracts managed by Prudential. Prudential is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 5 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - Tax status:

The Internal Revenue Service has determined and informed the Company by a letter dated February 10, 2005, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. However, the Plan has been amended since receiving the determination letter. The Company and Plan management believe that the Plan, as amended, is currently designed and operated in accordance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Company has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2007.

THE SECULAR TRUST OF THE GENTIVA HEALTH SERVICES, INC. 2005 NONQUALIFIED RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2010 and 2009

Note 7 - Investment contract with insurance company:

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contracts plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the guaranteed interest account. The statements of net assets available for benefits present the fair value of the investment in the insurance company general account. Fair value approximated contract value and no adjustment from fair value to contract value for the Plan's proportionate share of fully benefit-responsive investment contracts within the insurance company general account was recorded.

The fair value of the contract at December 31, 2010 and 2009, was \$609,823 and \$444,605, respectively. There are no reserves against contract value for credit risk of the contract or otherwise. The average yield and crediting interest rates were approximately 3.0% for the year ended December 31, 2010. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with the Plan participants is not probable.

Generally, indirect compensation is reported on a calendar year basis. Fees are disclosed in basis points ("bps") and are expressed as annual fee rates on the amount invested. Unless otherwise noted, for plans with non-calendar fiscal years, fee schedules are for the calendar year ending within your plan year. Note for Short Plan Years - The information in this report is based on the prior calendar year. For more current information, please refer to your account documentation or contact your Prudential Client Service Representative.

Any negative dollar amounts in this report represent fee waivers, rebates, or reimbursements.

This report lists as payees the individual names of any plan sponsor employees that received potentially reportable non-monetary compensation (e.g., gifts, meals, or other entertainment) from us, because we do not have the information necessary to determine whether those employees are reportable on the plan's Schedule C. For those entries, if any, we listed the plan sponsor's name in the EIN or address column.

We allocated non-monetary compensation provided or received in connection with your plan in three different ways: (1) if the compensation related specifically to your plan, the specific amount was allocated to the plan; (2) if the compensation related to a commingled investment account in which your plan invests, and your plan was invested in the account on December 31st, your plan was allocated a pro rata portion of the compensation attributable to the account based on the assets invested in the account by your plan and other plans as of December 31st, and/or (3) if the compensation related to a business relationship encompassing other clients, then your plan's share of the total, based on the percentage your plan represents of the total book of business, was allocated to your plan.

With the exception of slippage/breakage, any negative dollar amounts in this report represent fee waivers, rebates, or reimbursements.

Securities lending fees, if any, summarize the fees received for the entire investment fund and not your individual plan.

If your report includes slippage/breakage, it is because in certain circumstances (such as trading errors or delays), market trades may occur at times when the security's share price or account's unit value related to the trade is not the price assured to the plan and participants. At the investment fund level, Prudential will net any pricing differences that occur along with other small differences and will either make-up any net loss (reported in this section as a negative number) or retain any net gain that results over the course of the year. The amount reported in this report as slippage/breakage, if any, represents the slippage/breakage incurred for the entire investment fund and not for your individual plan.

soft dollar research on the Plan Sponsor website furnished by Prudential for your plan. For plans with IncomeFlex funds, please note that the fees described above include both investment management fees and guarantee fees.

Prudential Retirement Insurance and Annuity Company sub-advised separate accounts use the State Street Bank and Trust Company ("SSB&T"), Short Term Investment Fund ("STIF") for cash management purposes. The income earned by the cash invested in the SSB&T STIF, is net of SSB&T's management fee for the STIF, which is 0.10% on the first \$100M, 0.08% on the next \$400M, and 0.05% thereafter. To determine the daily effective fee rate, this fee schedule is applied to the aggregate STIF cash balance of all participating Prudential Retirement Insurance and Annuity Company separate accounts. The determined daily fee rate is then netted against the daily investment factor, which is then applied to each fund's respective STIF holding position.

For clients invested in the Prudential Trust Company Collective Trust, please refer to the audited financial statements for information on fees collected with respect to underlying mutual fund holdings.

In "fund-of-funds" arrangements, one "fund-of-funds" separate account invests in other "investment" separate accounts. In some cases, an "investment" separate account invests in mutual fund shares. We report mutual fund management fees, sub-transfer agency fees, 12b-1 fees, securities lending fees, slippage/breakage, and any soft dollar compensation as attributable to the "investment" separate account and not to the "fund-of-funds" separate account.

For plans with an Individually Directed Account ("IDA"), the Variable Rate Savings Account ("VRSA") balance equals the amount of the IDA deposited in the VRSA, calculated on the basis of the average daily balances for the period. Assumed VRSA Spread is the periodic equivalent of the Federal Funds Rate calculated on the basis of the average daily rate in effect for the period, minus the interest rate credited under the VRSA product, calculated on the basis of the average daily rate in effect for the period.
