ELEMENT K 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND DECEMBER 31, 2009

NOTE A: DESCRIPTION OF PLAN

The following description of the Element K 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

1. General

The Plan is a participant – directed defined contribution plan available to all employees meeting eligibility requirements as defined below. The Plan was established by Element K Online LLC ("Element K Online") effective February 11, 2000. On February 1, 2004, the Plan updated its name from Element K Online LLC to Element K LLC (the "Company") and merged all entities into one Plan.

Effective as of January 24, 2005, the Company amended the maximum deferral percentage for highly compensated employees to 7% of the gross salary per payroll period. Within the same amendment the Company adopted an automatic enrollment process to the Plan effective April 1, 2005. Pursuant to this amendment, the default deferral percentage contribution is set at 2% per pay period unless a participant affirmatively elects a different percentage or elects not to contribute.

Effective as of March 28, 2005, the Company changed the benefits payments policy relating to an involuntary cash out that exceeds $1,000 up to $5,000. If the participant does not elect to receive payment of his/her benefit or to roll the benefits over to an eligible retirement plan, the benefit will be transferred in a direct rollover to an individual retirement account or annuity in the participant's name with a financial institution designated by the Plan Administrator. After this transfer, the participant will have the rights provided to account holders under the terms of the individual retirement account or annuity.

In May 2005, the Company sold the division of Element K Press LLC ("Journals"). The participants from Journals were terminated and, where applicable, balances were distributed to participants.

Effective as of October 1, 2006, the Company reinstated the 401(k) match to the Plan.

On August 2, 2006, Element K LLC was purchased along with all other Element K related entities by NIIT (USA), Inc. As a result of this purchase, a plan of reorganization was implemented and Element K LLC was merged into Element K Corp. on December 20, 2006.

NOTE A: DESCRIPTION OF PLAN – (continued)

As a result of the merger on December 20, 2006, the Plan updated its name on January 1, 2007 from Element K LLC to Element K Corporation.

Effective as of January 1, 2008, the Plan allows catch up contributions for participants who have attained age 50 and non highly compensated employees are allowed to contribute up to a maximum of 50% of their salary.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Eligibility

Under the provisions of the Plan, all employees of the Company become eligible to participate in the Plan on the first day of the month following the date of hire and after attainment of age 18. To be eligible for the Company's discretionary contributions, participants must also complete 1,000 hours of service during the Plan year and be a participant on the last day of the Plan year, or retire, die, or become disabled during the Plan year.

3. Participant Accounts

Individual accounts are maintained for each participant. Each participant account is credited with participant contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Plan earnings are allocated daily to participant accounts based on investment balance.

4. Contributions

Each participant is eligible to contribute up to a maximum of 50% of their salary, except that a highly compensated employee may only contribute 7% of his/her salary. The contribution amounts were also subject to the 2010 and 2009 limitations of $16,500 in accordance with Internal Revenue Code regulations. All participant contributions are immediately 100% vested. Catch up contributions for participants who have attained age 50 are allowed. The Company makes a matching contribution of 25% of the first 4% of base compensation a participant contributes to the Plan. There is no Company match for catch up contributions.

NOTE A: DESCRIPTION OF PLAN – (continued)

4. Contributions – (continued)

The Company has the option to make a discretionary profit sharing contribution. During 2010 and 2009, there were no discretionary contributions made by the Company. In 2010 and 2009, the matching contributions made by the Company were $199,764 and $201,933 respectively.

5. Vesting

Participants are immediately vested in their voluntary contributions play actual earnings thereon. Any Company matching contribution, plus actual earnings thereon, is immediately vested, while vesting of Company discretionary contributions occurs over a period of five years at a rate of 25% for each year of service, commencing with the second year of service. Vested funds are paid to participants in cash on or after the attainment of age 59 ½ or upon retirement.

6. Investment Options

Participants may direct the investment of the elective contributions and may change their investment options daily.

7. Loans to Participants

In addition to withdrawals, the Plan permits participants to borrow from their individual accounts. A participant may borrow the lesser of $50,000 or 50% of his or her vested account balance with a minimum loan amount of $1,000. Loans are repayable through bi-weekly/weekly payroll deductions according to the terms of the promissory note. The interest rate charged on the loan will be 1% plus the prime rate as of the date of the loan request. The amount of the loan will be treated as an investment choice and the interest paid on the loan is credited to the participant's account. Loans must be repaid over a period not to exceed 5 years unless used to purchase the participant's primary residence, in which case the loan must be repaid over a period not to exceed 10 years. As of December 31, 2010 and 2009, the interest rates on the outstanding loans ranged between 4.25% and 9.25%.

NOTE A: DESCRIPTION OF PLAN – (continued)

8. Administrative Expenses

Plan participants pay transaction fees (loan processing, etc.) The Company pays for audit fees of the Plan. Employees of the Company provide services to the Plan. Neither these individuals nor the Company receive compensation from the Plan.

9. Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant will receive an amount equal to the value of the participant's vested interest in his or her account balance. Hardship withdrawals of elective contributions and rollover contributions are permitted if certain criteria are met. Also, eligible Plan participants may make in-service withdrawals.

10. Forfeited Accounts

Forfeitures from employer matching accounts can be applied to pay administrative expenses of the plan or applied as a credit against employer contributions.

NOTE B: SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements are prepared using the accrual basis of accounting.

2. Note Receivables from Participants

Loans to participants are reported at their unpaid balance plus any accrued but unpaid interest.

3. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

NOTE B: SIGNIFICANT ACCOUNTING POLICIES – (continued)

3. Investment Valuation and Income Recognition – (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

4. Common Collective Trust

The Stable Value Fund and the stick fund are common collective trusts, which have entered into fully benefit-responsive investment contracts to provide preservation of principal, maintain a stable interest rate, and provide liquidity at contract value for participant withdrawals and transfers. For purposes of the Statement of Net Assets Available for Benefits, these investments are stated at fair value, rather than contract value, to the extent they are fully benefit-responsive. The fair value of these investments is determined using the market price of the underlying securities and the value of the investment contract.

The common collective trust, which is a stable value fund, has an investment objective to maintain a constant net asset value while generating a slightly higher yield than the money market fund. Generally, there are no restrictions on a participant's ability to redeem their investment in the common collective trust at the investment's net asset value (NAV). However, withdrawals prompted by certain events (e.g., termination of the managed income portfolio, changes in laws or regulations) may restrict a participant's ability to redeem the investment at its NAV.

The plan's investment interest in the net assets of the DWS Stable Value Fund which seeks to achieve stability by pursuing principal and accumulated earnings similar to a money market fund at December 31, 2010 and 2009 were .9% and .8% respectively.

The plan's investments in the net assets of DWS stock index fund, which seeks to duplicate the Standard & Poor's 500 Indy Fund, as December 31, 2010 and 2009 were 1.8%.

NOTE B: SIGNIFICANT ACCOUNTING POLICIES – (continued)

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

7. Federal Income Taxes

Under applicable provisions of the Internal Revenue Code, all income, including capital gains or losses, is exempt from Federal income taxation.

8. Payment of Benefits

Benefits are recorded when paid.

9. Subsequent Events

The plan has evaluated subsequent events through July 14, 2011, the date the financial statements were available to be issued.

NOTE C: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were used to measure the common/collective fund. No investments have Level 3 inputs.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

The fair value of common/collective funds is based on the closing net asset value per unit/share.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. All investment information disclosed for the years ended December 31, 2010 and 2009 was obtained or derived form information supplied to the Plan Administrator and certified as complete by DWS Investments, Trustee and Custodian.

NOTE E: FEDERAL INCOME TAX STATUS

The Plan has received an opinion letter form the Internal Revenue Service dated December 10, 2001, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal revenue Code (the "Code"), and that the employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the code. Therefore, the related Plan is exempt from taxation. Subsequent to the issuance of this opinion letter, the Plan has been amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code, and therefore believes that the Plan is qualified and the related trust is tax-exempt.

NOTE F: PARTY-IN-INTEREST TRANSACTIONS

Transactions involving employer securities, funds administered by DWS Investments, the current trustee of the Plan, funds administered by ADP Retirement Services, the record keeper of the Plan, and participant loans are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

NOTE G: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in the unvested portion of the employer's discretionary contribution in their accounts.

NOTE H: CERTIFICATION BY CUSTODIAN

DWS Investments, as Trustee and Custodian, has certified to the completeness and accuracy of the assets of the Plan held by them as of December 31, 2010 and 2009 and the related investment income (including interest, dividends and net appreciation or (depreciation) in quoted market value of investments) of the Plan for the years ended December 31, 2010 and 2009.
