The Plan Administrator
Catholic Health Initiatives
401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of the Catholic Health Initiatives 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) (modified cash basis) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Great-West Retirement Services, the recordkeeper of the Plan, as agent for Wells Fargo Bank, N.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule (modified cash basis). We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the agent, on behalf of the custodian, as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the agent for the custodian is complete and accurate.

As described in Note 2, the financial statements and supplemental schedule (modified cash basis) referred to above were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule (modified cash basis) taken as a whole. The form and content of the information included in the financial statements and supplemental schedule (modified cash basis), other than that derived from the investment information certified by the agent, on behalf of the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Catholic Health Initiatives 401(k) Plan

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan, effective as of July 1, 1998, is a participant-directed, defined contribution plan covering employees of adopting employers (Employers) of Catholic Health Initiatives' (the Plan Sponsor or CHI) affiliated for-profit entities. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Contributions are limited by the Internal Revenue Code (the Code) annual limit or by plan limits. Matching contributions can be made by the Employers under the Plan that execute a Board of Directors resolution authorizing such contributions on behalf of eligible participants. No matching contributions have been made since the inception of the Plan.

The Plan allows any employee of the Employers, regardless of his or her eligibility, to make elective contributions to the Plan, to transfer directly to the Plan from any eligible retirement plan of a former employer a portion of his or her interest in the distributing plan. Effective March 6, 2007, the Plan was amended to restrict incoming rollovers from other retirement plans to employees who have account balances and who are eligible to make elective contributions to the Plan.

Additionally, based on their employer, certain participants may participate in a self-directed brokerage option.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Catholic Health Initiatives 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Loans

Notes receivable from participants represent participant loans. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest in an amount equal to the prime rate published in *The Wall Street Journal* as of the first day of the month preceding the date the loan was initiated, plus 1%. Principal and interest are paid ratably through payroll deductions. Effective April 1, 2009, any participant who has defaulted on a prior loan is not allowed to take a new loan, unless the first loan has been repaid.

Payment of Benefits

Upon termination of service, retirement, disability, or death, participants (or their beneficiaries) may receive a lump-sum amount equal to the vested value of his or her account.

Plan Expenses

Certain administrative expenses necessary to administer the Plan are paid by CHI. Participants with account balances greater than \$1,500 are charged a \$10 per quarter administrative fee. The fee is waived for participants who also actively participate in another CHI plan.

Plan Termination

Although they have not expressed any intent to do so, the Employers have the right to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting. Under a modified cash basis of accounting, contributions and investment income are recognized when received rather than when earned, and benefit payments are recognized when paid. Accordingly, the accompanying financial statements are not intended to present net assets available for benefits and the changes therein in conformity with generally accepted accounting principles.

Catholic Health Initiatives 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements using the modified cash basis of accounting requires management to make estimates that affect the amounts reported in the financial statements, footnotes, and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. The adoption of ASU 2010-06 did not have a material impact on the Plan's financial statements.

Catholic Health Initiatives 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 amended ASC 962, *Plan Accounting—Defined Contribution Pension Plans*, to require participant loans be classified as notes receivable and that the participant loans be measured at their unpaid principal balance plus accrued interest. ASU 2010-25 further clarified that participant loans are no longer subject to the fair value disclosure requirements of ASC 820 as such loans are no longer measured at fair value. The Plan adopted the provision of ASU 2010-25 for the reporting period ended December 31, 2010. Adoption of ASU 2010-25 did not have a material impact on the Plan's net assets available for benefits or its changes in net assets available for benefits, the carrying value of participant loans receivable approximates fair value.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

The established framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets.
 - Quoted prices for identical or similar assets or liabilities in inactive markets.
 - Inputs other than quoted prices that are observable for the asset or liability.
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Catholic Health Initiatives 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010 and 2009.

Mutual Funds: Mutual funds, including mutual funds invested in self-directed brokerage accounts, are valued at quoted market prices, which represents the net asset value (NAV) of shares held by the Plan at year-end.

Pooled Separate Accounts: Valued at the NAV of shares held by the Plan at year-end as determined by the issuer.

Guaranteed Fixed Fund: Valued at fair value using a formula that considers contract value, the crediting interest rate, and the current interest rate as of December 31. Fair value approximates contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- a. This category includes investments in highly diversified funds designed to offer options based on predetermined degrees of risk. Funds offer a mix of total return, capital appreciation, and preservation of capital, and include options with varying degrees of income targets and risk. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.
- b. Mid-cap investments offer higher potential returns over time, but may expose investors to market downturns. Mid-cap stocks may be more volatile than large-cap stocks but with potentially higher return, and they may be less volatile than small-cap stocks. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.

- c. This fund tracks the total return of the common stocks that comprise the S&P 500 Composite Stock Price Index, by investing in such stocks in approximately the same proportions as they are represented in the S&P 500. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.
- d. This category includes multiple fixed-income investment options, which typically provide more steady income than other investment options. Funds offered include a mix of total return, current income, capital appreciation, preservation of capital, and prudent investment management. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31:

	Guaranteed Fixed Fund	
	2010	2009
Balance, beginning of year	\$ 2,780,327	\$ 2,949,864
Investment and dividends, net of investment expenses	81,176	98,125
Purchases, sales, issuances, and settlements, net	(1,320,112)	(267,662)
Balance, end of year	<u>\$ 1,541,391</u>	<u>\$ 2,780,327</u>

Investment Contract With Insurance Company

The Plan has a Group Annuity Contract (GAC) with Great-West Life and Annuity Insurance Company (GWL). The GAC consists of a guaranteed interest rate account (Guaranteed Fixed Fund) and pooled separate accounts. The Guaranteed Fixed Fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. GWL is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

2. Summary of Significant Accounting Policies (continued)

As described ASC 962, investment contracts held by a defined contribution plan are required to be reported at fair value. ASC 962 defines the circumstances in which an investment contract is considered fully benefit-responsive, and provides certain reporting and disclosure requirements for fully benefit-responsive investment contracts in defined contribution health and welfare and pension plans.

Contract value, as reported to the Plan by GWL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value approximates fair value.

The value of the Guaranteed Fixed Fund is subject to the financial stability of GWL. The GAC does not permit GWL to terminate the agreement prior to the scheduled maturity date. However, the Company may terminate its deposits under the GAC by giving at least 60 days advance notice. If an event of default occurs and is not cured, the non-defaulting party may terminate the GAC. The crediting interest rate is based on a formula agreed upon with GWL, but may not be less than 3.5%. The crediting interest rate is reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with GWL. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is remote.

Average Yields for Guaranteed Fixed Fund	2010	2009
Based on actual earnings	3.50%	3.50%
Based on interest rate credited to participants	3.50	3.38

2. Summary of Significant Accounting Policies (continued)

Concentration of Market and Credit Risk

The Plan's exposure to credit loss in the event of nonperformance of investments managed by Wells Fargo Bank, N.A. (the Custodian) and investments in self-directed brokerage accounts is limited to the carrying value of such instruments. The Plan's concentrations of credit risk and market risk are dictated by the Plan's provisions as well as those of ERISA and the participants' investment preferences. Due to the level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in risks in the near term could materially affect participant account balances and the amounts reported in the financial statements.

Reclassification

Certain 2009 amounts have been reclassified to conform to the 2010 presentation.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

3. Investments

Other than the fair value of the Guaranteed Fixed Fund, all investment information disclosed in the accompanying financial statements, footnotes, and supplemental schedule (modified cash basis), including investments held and notes receivable from participants at December 31, 2010 and 2009, and net appreciation in fair value of investments, interest, dividends and interest from notes receivable from participants for the year ended December 31, 2010, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Great-West Retirement Services, the recordkeeper of the Plan and business unit of GWL, as agent for the Custodian. The contract value of the Guaranteed Fixed Fund was certified as complete and accurate by the recordkeeper of the Plan, as agent for the Custodian.

3. Investments (continued)

During 2010, the Plan's investments (including investments bought, sold, and held during the year) appreciated in fair value as follows:

Pooled separate accounts	\$ 225,946
Mutual fund, including self-directed brokerage	778,487
	<u>\$ 1,004,433</u>

Investments that represent 5% or more of fair value of the Plan's net assets available for benefits are as follows:

	December 31	
	2010	2009
Great-West Guaranteed Fixed Fund	\$ 1,541,391	\$ 2,780,327

Maxim Moderate Profile Portfolio	—	1,404,726
Maxim Moderately Aggressive Profile Portfolio	—	1,492,477

4. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 10, 2002, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits,

to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

5. Subsequent Events

Effective January 1, 2011, the Plan Sponsor approved the merger of the CHI 401(k) Plan and the CHI Defined Contribution Retirement Plan to provide greater administrative efficiency, lower fiduciary oversight responsibility, and simplify transactions for participants. Effective January 1, 2011, the Plan Sponsor approved a change in service organization, which named Fidelity Management Trust Company as the Trustee.

Plan management has evaluated subsequent events for the Plan through July 15, 2011, the date the financial statements were available to be issued.
