Independent Auditors' Report

To the Plan Administrator of Tolin 401(k) Plan:

We were engaged to audit the accompanying statements of net assets available for plan benefits of the Tolin 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by CFR 29 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Tolin 401(k) Plan

Notes to Financial Statements

1. PLAN DESCRIPTION

The following description of the Tolin 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan, which was established effective January 1, 1997, and amended and restated effective August 20, 2009, is a contributory defined contribution plan covering substantially all employees of Tolin Mechanical Systems Co. (the “Company”) whose employment is not covered under a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Custodian and Administration of the Plan

The custodian and recordkeeper of the Plan is the Principal Life Insurance Company (“Custodian” or “Principal”). The administrator of the Plan is the Company. The Custodian holds all assets of the Plan in accordance with the provisions of the Savings Plan and Annuity Contract with the Company. All assets of the Plan are in investment plan accounts of Principal.

Eligibility

An individual is eligible to be an active member of the Plan on the earliest of the January 1 or July 1 on which the employee meets the following requirements:

- The individual is an employee and 21 years of age.
- The individual has three months of service, as defined in the Plan document.

1. PLAN DESCRIPTION (CONTINUED)

Contributions and Vesting

Participants may contribute to the Plan on a pre-tax basis up to 100% of their eligible annual compensation, subject to certain Internal Revenue Code ("IRC") limitations (\$16,500 for 2010). The Plan also allows catch-up contributions for participants 50 or over based on IRC limitations (\$5,500 for 2010). Contributions and earnings thereon are nontaxable until withdrawn from the Plan. The Company may make a discretionary matching contribution to the Plan. The Company's matching contribution percentage for the Plan year ended December 31, 2010 was 50% of the participant's pre-tax contribution. No more than 50% of the first 4% of the participant's eligible annual compensation was matched.

The Company may make additional discretionary contributions at its election (including profit sharing contributions), which are allocated to eligible participants with at least 1,000 hours of service during the Plan year and who are employed on the last day of the Plan year. The discretionary profit sharing contribution is allocated to participants based on an integrated formula (integrated with the social security wage base) as allowed by the IRC. The Company has made a discretionary profit sharing contribution of \$290,000 for the Plan year ended December 31, 2010 which was subsequently funded March 1, 2011.

The employee pre-tax contribution is 100% vested at all times. The Company's discretionary matching contributions and profit sharing contributions vest 20% per year beginning after two years of vesting service (1,000 hours per year) and an additional 20% per year thereafter until fully vested after six years of service. Participants are fully vested upon reaching normal retirement (age 65), early retirement (age 55 and six years of service), becoming disabled (as defined in the Plan document), or dies.

Rollovers to the Plan may also be made from other qualified plans if certain criteria are met.

Participants Accounts

Each participant's account is credited with the participant's pre-tax contributions, catch-up contributions, rollover contributions, the Company's discretionary matching and discretionary profit sharing contributions, allocated forfeitures and an allocation of net Plan earnings or losses. Participants may direct the investment of their account balances into various investment options offered by the Plan. Participants can elect to invest in either unallocated insurance contracts or various insurance company pooled separate accounts. Participants may make investment election changes at any time.

Tolin 401(k) Plan

Notes to Financial Statements

1. PLAN DESCRIPTION (CONTINUED)

Distributions to Participants

Upon termination of service due to death, disability, normal retirement (age 65), early retirement (age 55 and six years of service) or separation of service, a participant may elect to receive all or any part of their account balance paid as a lump-sum distribution, an annuity, leave the account in the Plan, or roll over the vested balance to another qualified retirement plan. Immediate lump-sum distributions are to be made to terminated participants if the participant's vested account balance is \$1,000 or less. For terminated participants with vested balances greater than \$1,000, but less than \$5,000, if an election to distribute benefits is not made within 60 days following their termination date their vested balance will be rolled into an Individual Retirement Account ("IRA") with Principal. Certain in-service distributions are allowed at age 59 ½.

Notes Receivable from Participants

A participant may, with the consent of the Plan administrator, borrow a minimum of \$1,000 up to 50% of his or her non-forfeitable balance not to exceed \$50,000. The borrowing is secured by the balance in the participant's account and bears an interest rate based on the rates available for similar borrowings from commercial institutions and is fixed for the term of the note. Interest rates on outstanding borrowings at December 31, 2010 range from 3.25% to 8.00%. The borrowing is repaid ratably through payroll deductions over a period of five years or less. Only one borrowing may be outstanding at a time, and a participant may not originate more than one new borrowing in a twelve month period.

Forfeitures

Forfeitures may be used to reduce administrative expenses paid by the Plan. Any remaining balance is to be allocated as additional contributions to the accounts of eligible participants following the integrated formula and eligibility criteria used for allocating discretionary profit sharing contributions. The forfeited and non-vested funds account had a balance of \$75,228 and \$38,271 at December 31, 2010 and 2009, respectively. For the year ended December 31, 2010, forfeitures in the amount of \$9,058 were used to reduce administrative expenses. Related to the year ended December 31, 2010, forfeitures in the amount of \$75,228 were reallocated to the accounts of eligible participants along with the 2010 profit sharing contribution in March 2011. Related to the year ended December 31, 2009, forfeitures in the amount of \$38,271 were reallocated to the accounts of eligible participants along with the 2009 profit sharing contribution in March 2010.

Tolin 401(k) Plan

Notes to Financial Statements

1. PLAN DESCRIPTION (CONTINUED)

Expenses

Recordkeeper fees with the Custodian of \$11,417 were paid out of the assets of the Plan during 2010 (\$9,058 paid from forfeitures). All other costs of administering the Plan were paid by the Company. Certain other fees and expenses are charged within the pooled separate accounts and are reflected in the net appreciation in fair value of investments.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested and non-forfeitable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments

The Plan's investments in unallocated insurance contracts and insurance company pooled separate accounts, as detailed in the accompanying supplemental schedule of assets (held at end of year), are stated at fair value as further discussed in Note 4 – *Fair Value Measurements and Disclosures*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Tolin 401(k) Plan

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Recognition

Interest is recorded when earned. Net appreciation (depreciation) in the fair value of investments represents any dividend income, capital gain distributions, realized and unrealized gains, and losses on the investments, as well as any fees charged within the pooled separate accounts. Purchases and sales are recorded on a trade-date basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Income Tax Status

On March 31, 2008, the United States Treasury Department advised the Custodian that the form of the Prototype Plan is acceptable under Section 401 IRC and therefore exempt from Federal income taxes. The plan administrator and Company management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date, therefore no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Tolin 401(k) Plan

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Forced liquidation, although not expected at this time, may affect the estimated value of such investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

Payments of Benefits

Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid as of year-end.

Contributions

Participant contributions and related Company discretionary matching contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation. Discretionary profit sharing contributions are recognized in the period which the participant's compensation used in the contribution computation was paid.

New Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board ("FASB") issued guidance clarifying the classification and measurement of participant loans of defined contribution pension plans. The guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest (previously classified as investments and measured at fair value). This guidance is effective for fiscal years ending after December 15, 2010, and must be applied retrospectively with early adoption permitted. The Plan

Tolin 401(k) Plan

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements (continued)

adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of \$142,330 as of December 31, 2009 from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

In January 2010, the FASB issued additional guidance related to fair value measurements to clarify existing disclosure requirements and require additional disclosure about fair value measurements. The guidance clarifies existing fair value disclosures about the level of disaggregation presented and about inputs and valuation techniques used to measure fair value for measurements that fall in either Level 2 or Level 3 of the fair value hierarchy. The additional disclosure requirements include disclosure regarding the amounts and reasons for the significant transfers in and out of Level 1 and Level 2 of the fair value hierarchy and separate presentation of purchases, sales, issuances and settlements of items within Level 3 of the fair value hierarchy. The guidance is effective for periods beginning after December 15, 2009 except for the disclosures about Level 3 activity of purchases, sales, issuances and settlements, which is effective for interim and annual reporting periods beginning after December 15, 2010. Effective January 1, 2010, the Plan adopted the provisions of the additional guidance. These disclosures are required to be provided only on a prospective basis.

Subsequent Events

Management has evaluated subsequent events through July 21, 2011, which is the date the financial statements were available to be issued.

3. INVESTMENTS

During 2010, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value as follows:

<i>Year Ended December 31,</i>	2010
Unallocated insurance contracts	\$ 2,064
Insurance company pooled separate accounts	768,415
Net appreciation in fair value of investments	\$ 770,479

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly (quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable). Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

Insurance Company Pooled Separate Accounts (PSAs): Are valued based on the publicly quoted pricing input which is used in determining the net asset value (“NAV”) of the pooled separate account, which is not publicly quoted. The value of each pooled separate account is determined at the close of each business day based on fair value of the underlying assets, which can consist of a single mutual fund or multiple securities. The value of the account is expressed in units or NAV (“unit value”). The unit value is the dollar value of one unit and is determined at the close of each business day by dividing the fair value of the entire account by the total number of units in the account. Contributions to the account increase the number of units. Withdrawals from the account decrease the number of units. The increase or decrease in number of units is determined by dividing the amount of the contribution or withdrawal by the unit value for the day the transaction is made. The value of the participant’s account on any date is determined by multiplying the number of units held by the unit value at the close of the business day. With the exception of the Principal U.S. Property Account, the PSAs held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. The PSAs have various investment objectives depending on the investment strategy of the accounts as further summarized by category in the following tables and as provided and available to the plan participants through a variety of participant communications.

On September 26, 2008 a contractual limitation was put into place on the Principal U.S. Property Separate Account. The limitation delays the payment of most withdrawal requests and was implemented to protect the interest of all investors in the separate account and to satisfy withdrawal requests over time among all those who request a withdrawal. This limitation remained in effect throughout the 2010 plan year. Timing of pending withdrawal requests is dependent on the economic environment and its impact on the real estate markets. As such, it is not possible to determine a specific date when distributions will be made or when requests will be fully satisfied. Distributions are made on a pro-rata basis to all investors subject to the limitation regardless of when the distribution requests were submitted. The restriction was lifted effective March 24, 2011.

Unallocated Insurance Contracts (Guaranteed Interest Accounts or GIAs): The GIAs are non-benefit responsive contracts and are valued at fair value as determined by Principal based on the amounts participants would receive if they were to withdraw or transfer funds prior to their maturity, market rates and current crediting interest rates, and contractual agreements with Principal. In general, the fair value of the GIAs represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting interest rates. Principal maintains the contributions in a general account which is credited with earnings and charged for withdrawals and administrative

expenses. At December 31, 2010, the contracts had crediting interest rates of 0.77% to 2.01% with maturity dates from December 31, 2010 through December 31, 2014. At December 31, 2009, the contracts had crediting interest rates of 0.94% to 2.69% with maturity dates from December 31, 2009 through December 31, 2013. Early withdrawal fees are charged if the investment contract is not held until maturity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured on a recurring basis as of:

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified the following data included in the accompanying financial statements and supplemental schedule as complete and accurate.

- Investments as shown in the Statements of Net Assets Available for Plan Benefits as of December 31, 2010 and 2009.
- Interest on unallocated insurance contracts, net appreciation in the fair value of investments, as shown in the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2010.
- Investment information included in the Notes to Financial Statements
- All investment information included in the Supplemental Schedule, Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – December 31, 2010, except for notes receivable from participants (loans)

The Plan's independent auditors did not perform any auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. DEMUTUALIZATION COMPENSATION

On October 26, 2001, Principal completed conversion from a mutual insurance holding company to a stock company. As part of this demutualization process, policyholders received compensation in exchange for their membership interests in the form of an interest in a separate account that is primarily invested in Principal Financial Group, Inc. common stock. The compensation was allocated among Plan participants' accounts based on each participant's proportionate share of the total account balance. The participants have the option to allocate these funds to any of the other investment options offered by the Plan or continue investing in the common stock account. However, participants are not permitted to choose the Principal Financial Group, Inc. Stock Account as an investment option. As of December 31, 2010 and 2009, the balance of the Principal Financial Group, Inc. Stock Account was \$13,883 and \$11,057, respectively.

Notes to Financial Statements

7. PARTIES-IN-INTEREST TRANSACTIONS

The Plan invests in units of insurance company pooled separate accounts and unallocated insurance contracts managed by Principal. Principal acts as custodian and recordkeeper for the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. As noted above in Note 6, *Demutualization Compensation*, Principal stock is held in the Principal Financial Group, Inc. Stock Account.

In addition, the Plan has a service agreement with Principal that renews annually unless cancelled by either party with prior written notice. Payments to Principal by the Plan consisted of administrative fees totaling \$11,417 for the plan year ended December 31, 2010. Also, Principal receives amounts from fees charged within the insurance company pooled separate accounts.

8. REFUNDS OF EXCESS CONTRIBUTIONS (CORRECTIVE DISTRIBUTIONS)

The Plan failed to pass certain discrimination testing for the years ended December 31, 2010 and 2009. Excess contributions in the amounts of \$23,669 and \$31,305 are recorded as a liability in the accompanying Statements of Net Assets Available for Plan Benefits at December 31, 2010 and 2009, respectively. The highly compensated employees received refunds of their excess contributions plus investment earnings as required. The excess contribution is recorded in the year in which the excess occurred.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets per the accompanying financial statements to Form 5500:

<i>December 31,</i>	2010	2009
Net assets available for Plan benefits per the financial statements	\$ 6,729,683	\$ 6,662,626
Plus: Corrective distributions payable for excess contributions (Note 8)	23,669	31,305
Net assets available for Plan benefits per the Form 5500 (unaudited)	\$ 6,753,352	\$ 6,693,931

Tolin 401(k) Plan

Notes to Financial Statements

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (CONTINUED)

The following is a reconciliation of corrective distributions per the accompanying financial statements to the Form 5500:

<i>Year Ended December 31,</i>	2010
Refunds of excess contributions (corrective distributions) per the financial statements	\$ 23,669
Less: 2010 corrective distributions for excess contributions recorded by Principal in 2011	(23,669)
Plus: 2009 corrective distributions for excess contributions recorded by Principal in 2010	31,305
Corrective distributions per the Form 5500 (unaudited)	\$ 31,305

Participant loans are reported as notes receivable from participants in the accompanying financial statements as required by current authoritative guidance; however, for Form 5500 purposes and reporting on the supplemental Schedule of Assets (Held at End of Year) they are shown as investments, as required.
