STATEMENT OF CHANGES IN NET ASSETS AVAILABLE FOR BENEFITS
Year ended December 31, 2010

NOTE 1 – DESCRIPTION OF PLAN

The following description of Commercial Vehicle Group, Inc. Shadyside Union 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering hourly employees of the Shadyside Plant of Commercial Vehicle Group, Inc. (the “Company”), who are members of the United Steelworkers of America AFL-CIO-CLC Local 9419 and have completed 90 days of service as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions: Each year, participants may contribute a percentage of pre-tax annual compensation, a maximum of 20% as defined by the Plan, up to the maximum annual IRS limitation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct these contributions into various investment options offered by the Plan. Employees who were hired before February 28, 2008 were eligible to receive an employer discretionary contribution equal to 1.5% of eligible compensation. Effective February 28, 2008, the employer discretionary contribution of 1.5% ceased. Effective March 1, 2008, any new employees and those employees who elect not to participate in the Commercial Vehicle Group, Inc. Pension Plan for Shadyside Union Plant Employees are eligible to receive an employer matching contribution of up to 50% of the first 6% of eligible compensation deferred. Company contributions are invested in a manner consistent with the participant’s contributions. Contributions are subject to certain limitations.

Participant Accounts: Each participant’s account is credited with the participant’s own contributions and allocations of (a) the Company’s contribution, if any, and (b) the Plan’s earnings and charged with an allocation of administrative expenses. Allocations are based on participant compensation, contributions or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company’s matching and discretionary contribution portion of their accounts plus actual earnings thereon, if any, is based on years of continuous service. A participant is 100% vested after five years of credited service. Participants are 100% vested in their accounts in cases of death, disability or normal retirement.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one outstanding loan per participant is permitted. The maximum loan term allowed is five years, unless the loan is for the purchase of the participant’s principal residence in which case the loan term may not exceed ten years. The loans are collateralized by the balance in the participant’s account and bear interest at a rate commensurate with local prevailing rates as determined by the trustee and range from 5.5% to 8.5% at December 31, 2010. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: On termination of service, participants or beneficiaries may elect to receive either a single lump-sum payment in an amount equal to the value of the participant’s vested account or in the form of installment payments in substantially equal amounts over a period of time. Benefit payments are recorded when paid.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Administration of Plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses of the Plan are paid by the Company.

Forfeitures: Forfeitures of non-vested Company matching contributions are used first to reduce administrative expenses and then to reduce future Company contributions payable under the Plan. Forfeited non-vested accounts totaled approximately \$800 and \$24,200 at December 31, 2010 and 2009, respectively. Company contributions were reduced by forfeitures of approximately \$17,200 during the year ended December 31, 2010. Administrative fees were reduced by \$7,125 using forfeitures during the year ended December 31, 2010.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Adoption of New Accounting Standard: In September 2010, the FASB amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and be measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from *investments* to *notes receivable from participants* of \$409,833 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investments Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

FASB ASC 820 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FASB ASC 820 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

STATEMENT OF CHANGES IN NET ASSETS AVAILABLE FOR BENEFITS
Year ended December 31, 2010

NOTE 1 – DESCRIPTION OF PLAN

The following description of Commercial Vehicle Group, Inc. Shadyside Union 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering hourly employees of the Shadyside Plant of Commercial Vehicle Group, Inc. (the “Company”), who are members of the United Steelworkers of America AFL-CIO-CLC Local 9419 and have completed 90 days of service as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions: Each year, participants may contribute a percentage of pre-tax annual compensation, a maximum of 20% as defined by the Plan, up to the maximum annual IRS limitation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct these contributions into various investment options offered by the Plan. Employees who were hired before February 28, 2008 were eligible to receive an employer discretionary contribution equal to 1.5% of eligible compensation. Effective February 28, 2008, the employer discretionary contribution of 1.5% ceased. Effective March 1, 2008, any new employees and those employees who elect not to participate in the Commercial Vehicle Group, Inc. Pension Plan for Shadyside Union Plant Employees are eligible to receive an employer matching contribution of up to 50% of the first 6% of eligible compensation deferred. Company contributions are invested in a manner consistent with the participant’s contributions. Contributions are subject to certain limitations.

Participant Accounts: Each participant’s account is credited with the participant’s own contributions and allocations of (a) the Company’s contribution, if any, and (b) the Plan’s earnings and charged with an allocation of administrative expenses. Allocations are based on participant compensation, contributions or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company’s matching and discretionary contribution portion of their accounts plus actual earnings thereon, if any, is based on years of continuous service. A participant is 100% vested after five years of credited service. Participants are 100% vested in their accounts in cases of death, disability or normal retirement.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one outstanding loan per participant is permitted. The maximum loan term allowed is five years, unless the loan is for the purchase of the participant’s principal residence in which case the loan term may not exceed ten years. The loans are collateralized by the balance in the participant’s account and bear interest at a rate commensurate with local prevailing rates as determined by the trustee and range from 5.5% to 8.5% at December 31, 2010. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: On termination of service, participants or beneficiaries may elect to receive either a single lump-sum payment in an amount equal to the value of the participant’s vested account or in the form of installment payments in substantially equal amounts over a period of time. Benefit payments are recorded when paid.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Administration of Plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses of the Plan are paid by the Company.

Forfeitures: Forfeitures of non-vested Company matching contributions are used first to reduce administrative expenses and then to reduce future Company contributions payable under the Plan. Forfeited non-vested accounts totaled approximately \$800 and \$24,200 at December 31, 2010 and 2009, respectively. Company contributions were reduced by forfeitures of approximately \$17,200 during the year ended December 31, 2010. Administrative fees were reduced by \$7,125 using forfeitures during the year ended December 31, 2010.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Adoption of New Accounting Standard: In September 2010, the FASB amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and be measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. The adoption of this guidance by the Plan resulted in a reclassification from *investments* to *notes receivable from participants* of \$409,833 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investments Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

FASB ASC 820 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FASB ASC 820 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:
