To the Trustees
Double D Express, Inc. Retirement Savings Plan
Peru, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of the Double D Express, Inc. Retirement Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified or provided by Principal Life Insurance Company (Principal), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Notes 3 and 4 that was provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2, the plan adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2010, which clarified how loans to participants should be classified and measured by defined contribution pension plans. This Update was retrospectively applied to December 31, 2009.

Note 1. Plan Description

The following description of the Double D Express, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Double D Express, Inc. (the Company) for the exclusive benefit of its employees and their beneficiaries. The Plan covers employees who have completed one year of service and are age 21 or older. One year of service is defined as having a minimum of 500 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to reduce their salary and have that amount contributed to the Plan. The elective deferral amount may not be more than the lesser of (a) 100% of pretax annual compensation, (b) the maximum dollar limit allowed under the requirements of the Internal Revenue Code ($16,500 for 2010), or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants who have attained age 50 or older during the plan year are eligible to make catch-up contributions (up to an additional $5,500 in 2010). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions). In May 2009, the Plan was amended to eliminate the matching contribution requirement of the Company. Prior to May 2009, the Company matched 50% of participant's contributions up to 6% of the employee's eligible compensation. The Company may elect to make an annual discretionary contribution as determined by the Company. For the plan year ended December 31, 2010, the Company made no discretionary contribution to the Plan. Participants direct the investment of contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, the Company's matching and discretionary contributions, allocations of Plan earnings or losses and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective and, if applicable, rollover contributions and earnings thereon. Vesting in the Company's matching and discretionary contributions, plus earnings thereon, is based on continuous years of service and one year of service is defined as a minimum of 500 hours. The Plan's vesting provisions start after two years of service at 20% and increases ratably until six years of service when participants are 100% vested. Participants, who terminate service because of death, total and permanent disability or attainment of normal retirement age, as defined in the Plan, are automatically 100% vested in their account balances.

Participants' notes receivable: Participants may borrow from their account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms shall not exceed five years, unless for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate determined by the Plan Administrator which is to be comparable to the rate charged by commercial lending institutions for similar loans. Interest rates applicable to outstanding loans ranged from 5.25% to 10.25% as of December 31, 2010. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, retirement or termination of employment, participants may elect to receive either a lump sum amount or installments equal to the value of his or her vested account. Withdrawals other than for termination are permitted under circumstances provided by the Plan.

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are first used to pay administrative expenses of the Plan, and any forfeitures remaining thereafter are added to the Company's discretionary contribution and reallocated to participants. For the year ended December 31, 2010, forfeitures were not used to reduce administrative expenses of the Plan. At December 31, 2010 and 2009, the Plan had $4,058 and none, respectively, of forfeitures that had not been applied. The forfeiture balance at December 31, 2010 was reallocated to participants in 2011 with a December 31, 2010 effective date.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The methods used to estimate the fair value of investments are described in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Recent accounting standards: In January 2010, the FASB issued an amendment to accounting guidance, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting those changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. The adoption of this guidance related to Level 1 and Level 2 measurements in 2010 did not have a significant impact on the Plan's disclosures about fair value measurements. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and had not been adopted as of December 31, 2010. The adoption of this guidance related to Level 3 measurements is not expected to have a material impact on the Plan's disclosures about fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

In September 2010, the FASB issued an amendment to accounting guidance, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment is effective for periods ending after December 15, 2010, with early adoption permitted, and requires retrospective application to all periods presented. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $258,848 and $183,621 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

In May 2011, the FASB issued an amendment to accounting guidance, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures* to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified by Principal Life Insurance Company

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor to not perform any auditing procedures with respect to information in this Note, Note 4, throughout the financial statements and the supplemental schedule related to the following assets.

Note 3. Information Certified by Principal Life Insurance Company (Continued)

The following table presents the Plan's assets as of December 31, 2010 and 2009. Single assets representing more than 5% of the Plan's net assets as of December 31, 2010 and 2009, are separately identified:

	2010	2009
Investments, at fair value:		
Pooled separate accounts with Principal Life Insurance Company:		
Large Cap Blend I	$ 184,506	$ 151,301
Large Cap Stock Index	236,117	205,990

Guaranteed interest accounts:		
Principal Life Insurance Company	-	181,921
Principal Life Insurance Company	241,682	338,883
Principal Life Insurance Company	208,998	226,648
Principal Life Insurance Company	212,325	-
	$ 2,779,224	$ 2,663,232

Principal Life Insurance Company also certified to the completeness and accuracy of $272,786 of net appreciation in fair value of pooled separate accounts, $304 of net appreciation in fair value of guaranteed interest accounts and $13,965 of interest earned on guaranteed interest accounts related to the Plan's investments for the year ended December 31, 2010.

Note 4. Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Pooled separate accounts: Primarily valued at the net asset value per share based on quoted market prices of underlying investments, except as otherwise noted below.

For U.S. Property pooled separate account which invests in real estate, the fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.

Guaranteed interest contracts with insurance company: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Level 1	Level 2	Level 3	Total

Note 4. Fair Value Measurements (Continued)

The tables below set forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2010.

Guaranteed interest accounts:	
Beginning balance	$ 747,452
Unrealized gain related to instruments still held at the reporting date	303
Interest credited	13,967
Purchases, issuances, settlements, net	(98,717)
Ending balance	$ 663,005

Pooled separate accounts:	
Beginning balance	$ 105,595
Unrealized gain related to instruments still held at the reporting date	16,257
Purchases, issuances, settlements, net	(4,510)
Ending balance	$ 117,342

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2010:

Investments	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts:				
Fixed Income (a)	$ 383,629	$ -	Immediate	None
Large U.S. equity (b)	546,089	-	Immediate	None
Small/mid U.S. equity (c)	535,420	-	Immediate	None

Balanced funds (f)	352,695	-	Immediate	None
Common stock (g)	30,055	-	Immediate	None
Total pooled separate accounts	$ 2,116,219			

(a) This group of pooled separate accounts seeks a high level of current income consistent with preservation of principal and maintenance of liquidity. Investments include high quality, short-term money market instruments, public and private corporate bonds, commercial and residential mortgages, asset backed securities and securities issued by the U.S. government.

(b) This group of pooled separate accounts seeks long-term growth of capital and normally invests in common stocks and other equity securities of large capitalization companies similar to those in the S&P 500 and Russell 1000 Growth Index.

(c) This group of pooled separate accounts seeks long-term growth of capital and normally invests in common stocks and other equity securities of small to medium capitalization companies similar to those in the Russell MidCap Index and the Russell 2000 Index.

(d) This group of pooled separate accounts seeks long-term growth of capital and normally invests in stocks and other equity securities of non-U.S. companies.

Note 4. Fair Value Measurements (Continued)

(e) This pooled separate account invests the majority of assets in U.S. commercial real estate holdings including multifamily, office, warehouse, manufacturing and retail properties. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. As of December 31, 2010, this separate account had a temporary withdrawal limitation related to turmoil in the credit markets that resulted in sharp slowdown in the sale of commercial real estate assets. The uncertain environment led to significantly increased requests for withdrawals. To allow for orderly administration and management benefiting all separate account investors, Principal implemented a pre-existing contractual limitation to delay certain withdrawal requests. Currently, certain high need payments such as death, disability, certain eligible retirements, and hardship withdrawals are not subject to the withdrawal limitation. Other withdrawal requests are subject to the limitation until certain liquidity levels are achieved, mainly via proceeds from sales of underlying properties, rents from tenants and new investor contributions. Since the inception of the withdrawal limitation, all sources of cash are first used to satisfy cash requirements at the properties, meet debt maturities, maintain compliance with debt covenants and meet upcoming separate account obligations. Outstanding withdrawal requests will be paid in multiple payments. Except for certain de minims payments, payments will be made proportionately among all other outstanding withdrawal requests, based upon available liquidity. All withdrawals are being transacted at the NAV price at the date of distribution. The withdrawal limitation restriction ended on March 25, 2011.

(f) This group of pooled separate accounts seeks a total return consisting of long-term growth of capital and current income. The funds invest in underlying Principal domestic and foreign equity, hybrid, and fixed income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time.

(g) This pooled separate account invests in Principal Financial Group, Inc. common stock.

Note 5. Reconciliation Between Financial Statements and the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	$ 3,038,072	$ 2,846,853
Differences in:		
Investments	258,848	183,621
Receivables - notes receivable from participants	(258,848)	(183,621)
Net assets available for benefits per the Form 5500	$ 3,038,072	$ 2,846,853

Note 6. Guaranteed Interest Contracts with Insurance Company

The Plan entered into a number of guaranteed interest contracts with Principal. Principal maintains the investments in unallocated insurance general accounts, which are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting contract rates on the GICs ranged from 0.67% to 4.10%, as of December 31, 2010. The average yield for the GICs ranged from 0.70% to 3.45%, for the year ended December 31, 2010. The investments in GICs are not fully benefit responsive as surrender charges may apply to transfers or withdrawals from those contracts prior to maturity.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by Principal. The prototype plan has received an opinion letter dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan has been amended since the date of the determination letter. However, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities for years before 2007.

Note 9. Related-Party Transactions

The Plan invests in shares of pooled separate accounts and guaranteed interest accounts managed by Principal, the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Subsequent Events

The Plan Administrator has evaluated subsequent events through July 25, 2011, the date the financial statements were available to be issued.
