GETTEL AUTOMOTIVE, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

A. Description of the Plan:

The following description of the Gettel Automotive, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Gettel Automotive, Inc. 401(K) Plan is a defined contribution plan covering all eligible employees of the Gettel Automotive Group (the 'Company'). Employees who have at least six months of service and are age eighteen (18) or older are eliable to partcipate. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may elect to contribute a percentage of their pre-tax annual compensation to the Plan up to the IRS maximum of $16,500 for the year ended December 31, 2010. Participants may also elect to make after-tax Roth contributions to the Plan. The Company makes a contribution equal to a percentage of the base compensation that an employee contributes to the plan. The Company matching contribution for 2010 was 25% of salary deferrals up to 4% of participant compensation. Additional amounts may be contributed based on plan provisions at the option of the Company's board of directors. All contributions to the Plan are participant directed. Contributions are subject to certain limitations.

Participant Accounts:

Each participant's account is credited with the participant's contribution and and allocations of (a) the employers' contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions, plus earnings thereon. Vesting in the Employers' matching and discretionary contribution portion of the participants' accounts plus actual earnings thereon is based on years of continuous service. A participant is fully vested after five years of credited service.

Participant Loans:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at Prime plus 1%. Principal and interest is paid ratable through payroll deductions. Participant loans are reported at their unpaid principal balances plus any accrued but unpaid interest.

A. Description of the Plan (continued):

Payment of Benefits:

On termination of service due to death, disability or retirement a participant may receive the value of the vested interest in his or her account as a lump sum distribution, or one of several annual installment or annuity options.

Forfeited Accounts:

At December 31, 2010 and 2009, forfeited accounts totaled $16,718 and $2,970, respectively. Forfeited non-vested accounts are used to pay plan expenses and reduce employer contributions. For the year ended December 31, 2010 $14 of forfeitures were used to pay plan expenses and employer contributions were reduced by $ -0-.

B. Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through July 5, 2011 which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan expenses

Plan expenses are shared by the Plan and the Company.

C. **Fair Value Measurements:**

FASB ASC topic 820 on *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. The hierarchy is measured in three levels based on the reliability of the inputs:

Level 1 Valuations based on unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.

Level 2 Valuations based on inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted prices for similar assets in active or non-active markets.

Level 3 Valuations derived through the use of valuation models or methodologies using significant unobservable inputs. Level 3 valuations incorporate certain assumptions and projections that are not observable in the market and as a result significant professional judgment may be used in determining the fair values.

Mutual funds are valued based on quoted market prices in active markets and are included in the level one category.

Investments in pooled separate accounts and collective investment trusts are not directly traded on active markets but are valued at net asset value ("NAV") as reported by Principal to the plan. The pooled separate accounts have various investment strategies including growth, value, index and lifetime target. The collective investment trust consists entirely of a staple value investment which seeks to maintain principal and provide a constant return. Neither the pooled separate accounts nor the collective investment trusts have any unfunded commitments. Both these investments can be redeemed on a daily basis absent any redemption restrictions. As of December 31, 2010 and 2009 the Principal U.S. Property Separate Account was under a withdrawal restriction, it has not been determined when that restriction will be removed.

C. **Fair Value Measurements (continued):**

D. Investment Contract with Insurance Company:

The plan has a benefit-responsive guaranteed investment contract (Staple Value Fund) with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issue is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit- responsive, contract value is the relevant measurement attributed to that portion of the net assets available for benefits attributed to the guaranteed investment contact. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment contract.

There are no reserves against contract value for credit risk of the contract or otherwise. The fair value of the investment contract was $523,928 and $380,487 at December 31, 2010 and 2009, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events that would cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2010
Based on actual earnings	2.82%
Based on interest rate credited to participants	2.82%

E. **Investments:**

The following presents investments at December 31, 2010 and 2009 that represent 5% or more of the Plan's net assets.

	2010	2009
Stable Value Fund	$ 523,928	$ 380,487
Principal Lifetime 2050	326,074	219,764
Principal Lifetime 2040	363,775	302,393
Principal Lifetime 2010	343,016	414,677
Principal Lifetime 2020	1,080,882	1,049,105
Principal Lifetime 2030	500,867	407,020

F. **Information Certified by the Plan's Custodian:**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly; Principal, the custodian of the plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009 and the related investment activity reflected in the statement of changes in net assets available for benefits for the ended December 31, 2010.

G **Related Party Transactions:**

Certain plan investments are pooled separate accounts and collective investment trusts managed by Principal, the plan custodian, therefore these transactions qualify as party –in-interest transactions. Fees paid by the Plan for the Custodian's contract administrator services amounted to $8,055 for the period ended December 31, 2010.

H. **Plan Termination:**

Although the Company has not expressed any intent to do so, they have the right under the Plan, to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

I. **Tax Status:**

The Internal Revenue Service has determined and informed Principal, the prototype plan provider, by letter dated March 31, 2008, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has been amended since receiving the determination letter, Principal and the plan administrator believe that the prototype plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

I. Tax Status (continued):

Accounting principles in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained by the relevant taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 30, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008. .

J. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants" account balances and the amounts reported in the statement of net assets available for benefits.

K. Reconciliation of Financial Statements to Schedule H of Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to schedule H of Form 5500 for the year ended December 31, 2010:
