Notes to Financial Statements

Note 1. Plan Description

The following description of the R. J. O'Brien & Associates, LLC Profit Sharing and Savings Plan (the Plan) provides only general information. The Plan is designed as a qualified cash or deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code. The Plan's current trustee and custodian is State Street Bank and Trust Company. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of R.J. O'Brien & Associates, LLC and affiliates (collectively, the Company) who have completed 30 days of employment and have attained age 21. Eligible employees may begin participating as of the first day of the following month, subsequent to meeting eligibility requirements. There are Class A and Class B participants with Class B participants who are paid on a commission-only basis and Class A participants being all other employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute between 1% and 50% of their annual compensation, as defined by the Plan, as a pretax contribution, Roth contribution or a combination of both. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants age 50 or older before the end of the plan year may also contribute catch-up contributions to the Plan. The Company may make matching contributions to Class A participants of the Plan equal to a percentage of the elective contributions made by the participants to the Plan. The Company may also make a discretionary additional matching contribution to Class A participants eligible to make catch-up contributions to the Plan at the end of the plan year. Company matching contributions were 50 percent of the participants' pretax, including catch-up, and Roth contributions, not to exceed 6% of compensation. Effective April 1, 2009, the Company suspended the match contribution. No additional employer discretionary contributions were made to the Plan for the year ended December 31, 2010. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company matching contribution, (b) the Company's discretionary contribution, if any, and (c) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation, earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct the investment of their account in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service, with no vesting prior thereto. Participants who attain normal retirement age of 65, or who terminate employment due to death or disability are 100 percent vested in their account balances.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. No more than one loan may be made by a participant in any single year and not more than one loan may be outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 9.75 percent, which is commensurate with local prevailing commercial rates as determined by the Plan Administrator at loan origination. Participants are charged a one-time origination fee and an annual administrative fee. Principal and interest are paid ratably through semi-monthly/monthly payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, or for any other reason, a participant will receive the value of the participant's vested interest in his or her account as a lump sum.

Forfeited accounts: At December 31, 2010 and 2009, forfeited non-vested accounts totaled $63,421 and $35,605, respectively. Forfeitures can be used to reduce future Company matching and discretionary contributions or to pay administrative expenses of the Plan. During the year ended December 31, 2010, the Company used forfeitures of $48,721 to pay certain administrative expenses.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts, through its investment in a common/collective trust. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment, where applicable, of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. See Note 5 for a detailed discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 2. Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Operating expenses: Investment management and administrative expenses of the Plan are paid by the Plan as provided in the Plan Document. Certain other administrative expenses are paid by the Company on behalf of the Plan, without reimbursement.

Income taxes: The Financial Accounting Standards Board (FASB) issued guidance on accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Recent accounting pronouncements: In January 2010, the FASB issued an amendment on *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements,* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. See Note 5 for impact of adoption. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. Management of the Plan is currently evaluating the impact of the guidance related to Level 3 measurements on the Plan disclosures.

In September 2010, the FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $328,557 and $344,691 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 15, 2011, the date the financial statements were available to be issued.

Note 4. Information Certified or Provided by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate, to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2010	2009
Investments at fair value:		
Cash, interest bearing	$ 63,421	$ 35,605
Registered investment companies	16,098,669	13,886,021
Common/collective trust, contract value	1,216,189	1,241,375
Notes receivable from participants	328,557	344,691

State Street Bank and Trust Company also certified to the completeness and accuracy of $1,595,217 of net appreciation in fair value of investments, $257,631 of interest and dividends related to the aforementioned investments, and $17,291 of interest related to the notes receivable from participants for the year ended December 31, 2010, to the best of their knowledge and belief.

Note 5. Fair Value Measurements

FASB guidance on *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 5. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Shares of registered investment companies: Valued based on quoted market prices of shares held by the Plan at year-end.

Shares of common/collective trust: Valued at the net asset value of shares held by the Plan at year-end based on the fair value of the common/collective trust's underlying investments as reported by the investment advisor using the audited financial statements of the common/collective trust at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

The Wells Fargo Stable Return Fund G invests primarily in investment contracts, including traditional guaranteed investment contracts and security-backed contracts issued by insurance companies and other financial institutions.

* Participants can redeem at the stated unit value as of the close of business on any business day.

Note 6. Related Party Transactions

Certain Plan investments are shares of registered investment companies managed by Diversified Investors and Transamerica Partners, affiliates of Diversified Investment Advisors, Inc., the Plan's recordkeeper. Therefore, these transactions qualify as party-in-interest.

Certain administrative services, principally the maintenance of the Plan's accounting records, are performed by the employees of the Company at no charge to the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 18, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently operating in compliance with applicable requirements of the IRC.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

Note 11. Plan Administrator Corrections

As a result of IRS compliance testing failures for the plan year 2010, it was noted that various participants deferred in excess of the IRS limitations in the amount of $9,876. During 2011, excess deferrals were distributed in accordance with IRS guidelines.
