INDEPENDENT AUDITOR'S REPORT

I was engaged to audit the accompanying statement of net assets available for benefits (modified cash basis) of Hull Associates 401(k) Savings Plan as of December 31, 2010 and 2009 and the related statement of changes in net assets available for benefits (modified cash basis) for the years then ended and the supplemental schedule of assets held for investment purposes at December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations of Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform any auditing procedures with respect to the information summarized in Note 4, which was certified by the trustee of the Plan, Lincoln National Life Insurance Company at December 31, 2010 and 2009, except for comparing the information with the related information included in the financial statements and the supplemental schedule. The plan administrator has informed me that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

As described in Note 2, these financial statements were prepared on the modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying 2010 and 2009 financial statements and supplemental schedule taken as a whole. The form and content of the information and schedules included in the financial statements, other than that derived from the information certified by the trustee, has been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Hull Associates 401(k) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a participant-directed defined-contribution plan covering all employees of Hull Associates L.L.C., Ameritech Mill Works LP, and S&H Equipment Svs, LP, Keystone Distribution, L.L.C., and Guerra Construction Services, L.L.C. ("Company") who have completed 3 months of service and no minimum age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The original effective date of the Plan was January 1, 2002. The Plan was restated effective January 1, 2009.

Contributions
Each year, participants may make elective contributions of pretax compensation subject to the provisions of Internal Revenue Code Section 401(k) and the provisions of the Plan. If allowed by the plan administrator, any employee of the Company may make voluntary contributions of rollover property to the Plan regardless of whether he or she is a participant in the Plan. The Plan allows the Company to make non-elective and matching contributions in the amount determined by the Company at its discretion. The Company's matching contributions for 2009 were 50% of the participant's salary deferral up to a total salary deferral of 6%.

Participant Accounts
Each participant's account is credited with the participant's contribution and rollover amounts, if any, and an allocation of Plan earnings and the Company's contribution. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings is based on years of continuous service; a participant is 100% vested after five years of credited service.

Payment of Benefits
The benefits to which participants are entitled are the vested portions of their accounts. The Plan's normal form of payment is a lump sum payment.

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms are from one to five years. Loans are secured by the balance in the participant's account and bear interest at a rate of prime plus one. Principal and interest is paid ratably through payroll deductions.

Forfeitures
Forfeited nonvested accounts are used to reduce future employer contributions and plan expenses. Unallocated forfeitures at December 31, 2010 and 2009 were $15,417 and $12,535.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the Untied States of America. Contributions and distributions are recorded on a cash basis. Investments are recorded at fair value and contract value. Purchases and sales of securities are recorded on a trade-date basis.

Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are in a group variable annuity contract by Lincoln National Life Insurance Company (Lincoln) which provides various investment funds. Investments in registered investment companies are maintained by Lincoln in pooled separate accounts. The accounts are credited with actual earnings on the underlying investments and charged for Plan withdrawals and administration expenses from Lincoln. The Plan's investments are stated at fair value based on the quoted market prices of the underlying securities within each fund at December 31, 2010 and 2009.

Prior to December 31, 2009, the Plan had a fully benefit-responsive investment contract with Lincoln National Life Insurance Company. Contributions were maintained in a general account, which was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract was included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Lincoln. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Lincoln was contractually obligated to pay the principal and specified interest rate that was guaranteed to the Plan and reset annually. The average yield was 3.96% in 2009.

Payment of Benefits
Benefits are recorded when paid.

Operating Expenses
Expenses of maintaining the Plan are paid by the Company.

Reclassification of Prior Year Information
In 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-25 that changed the reporting of participant loans from investments to receivables. In 2009, participant loans were reported as investments. Prior year information related to participant loans has been reclassified to conform to current year presentation. Participant loans are classified as investments for purposes of Form 5500.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Subsequent Events

For the year ended December 31, 2010, the Plan has evaluated subsequent events for potential recognition and disclosure through July 11, 2011, the date financial statements were available for issuance.

NOTE 4 – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Lincoln National Life Insurance Company, the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

	12/31/2010	12/31/2009
Investments - Pooled separate accounts, at fair value	$ 1,612,852	$ 1,414,205

Interest income- guaranteed investment contract		189
Interest come – participants loans receivable	1,847	1,870
Total	$ 163,860	$ 167,670

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are 100% vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 6– TAX STATUS

The Internal Revenue Service has determined per a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the internal Revenue Code. The Plan was restated effective January 1, 2009. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical assets or liabilities in inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, and (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 13, 2010 and 2009.

Pooled separate accounts: Valued using a market approach based on the quoted net asset values of the underlying investments in registered investment companies.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$	$ 1,612,852	$	$ 1,612,852
Total assets at fair value		$ 1,612,852		$ 1,612,852

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$	$ 1,414,205	$	$ 1,414,205
Total assets at fair value		$ 1,414,205		$ 1,414,205
