NOTE 1 - DESCRIPTION OF PLAN

The following description of the Power Wellness Management, LLC 401(k) Plan ("the Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Power Wellness Management, LLC ("the Company") for the benefit of the eligible employees. The Plan was adopted effective January 1, 2001 for the benefit of the eligible employees. Employees over 18 years of age are eligible to make 401(k) contributions following the completion of three consecutive months of service. Employees over 18 years of age are eligible to receive the company's matching contributions following the completion of six consecutive months of service The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions: The Plan is designed as a qualified cash deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code and provides for the following contributions, which are to be maintained in separate accounts for each participant:

Employees' Elective Deferrals – Deductions from compensation made by the Company at the direction of the employee in amounts between 1% and 90% of the employee's compensation (as defined) and which amounts are deducted from the employee's direct compensation (and are excluded from the employee's reportable wages for the year). The aggregate amount of employee-directed contributions cannot exceed the statutory limit as adjusted from time to time pursuant to Section 402(g)(5) of the Internal Revenue Code.

Employees' Rollover Contributions – Employees may contribute amounts rolled over from other qualified plans.

Employer's Discretionary Matching Contributions – The Company may, at its own discretion, contribute an amount of matching contributions to the Plan. Such matching contributions will be allocated on the basis of each participant's eligible elective deferrals which do not exceed 6% of the employee's compensation (as defined). The employer's discretionary matching contribution for 2010 was $166,900.

Employer's Discretionary Contributions – The Company may, at its own discretion, make additional contributions to the Plan to be allocated to the accounts of eligible participants. The Company declared no such contribution for 2010.

All investments, including employer matching contributions and employee discretionary contributions, are participant-directed.

Participant Accounts: Each participant's account is credited with his or her contributions, the related Company matching contributions (if applicable), allocations of the employer's discretionary contribution, and their share of the Plan's net earnings and losses. The allocations of net earnings and losses and administrative expenses are based on the participants' relative account balances. Participants are able to direct the investment of their account balances using one or more of the investment options offered under the Plan.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Participants are immediately 100% vested in their own contributions and the net earnings thereon. Company discretionary contributions and net earnings thereon vest as follows:

Years of Service	Vested Percentage
1 but less than 2	20%
2 but less than 3	40
3 but less than 4	60
4 but less than 5	80
5 or more	100

Withdrawals and Distributions: Participants may make withdrawals from their accounts upon reaching age 59½ or by determination that a financial hardship, as defined, has been incurred. Payments of benefits are made to participants, or their beneficiaries, upon death, retirement, disability, or termination of employment.

Benefits are payable in a lump sum or by other methods as described in the Plan. At December 31, 2010, no benefits were owed to former participants whose employment had been terminated and who had elected to withdraw from the Plan.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 reduced by the highest outstanding note balance in the participant's account during the prior 12-month period or (b) 50% of their vested account balance. Note terms range from one to five years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator

Rights Upon Plan Termination: Although the Company has not expressed any intention to terminate the Plan, it may do so at any time. Should the Plan be terminated, all participant accounts would become 100% vested.

Forfeitures: Forfeitures are used to reduce the total amount that the employer has committed to contribute to the Plan. Forfeitures amounting to $17,793 were used to reduce employer matching contributions in 2010. The remaining balances of forfeitures available to offset future employer contributions as of December 31, 2010 and 2009 were $0 and $1,082, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of changes therein during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Adoption of New Accounting Standard: In September 2010, the FASB amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and be measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. Early application is permitted. The adoption of this guidance by the Plan resulted in a reclassification from *investments* to *notes receivable from participants* of $60,796 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). The fair values of mutual fund investments are based upon the closing net asset value per share of the mutual fund on the day of the valuation as reflected on a national securities exchange.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Collective trust funds, other than stable value funds: The fair values of participation units held in collective trust funds, other than stable value funds, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs). The investment objectives and underlying investments of the collective trusts vary. The domestic equity fund holds domestic and international equity securities. The life cycle blended funds hold diversified blend of domestic and international equity securities, corporate and government securities and mutual funds. The fixed income fund holds corporate, government and government agency securities. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Stable value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in audited financial statements of the fund (Level 2 inputs). The fund seeks to maintain principal value, protect against market price volatility, obtain consistent income return, and provide liquidity for benefit payments and withdrawals. The fund invests primarily in investment contracts issued by insurance companies, banks and other financial institutions, and other instruments authorized by the Amended and Restated Declaration of Trust of the Charles Schwab Stable Value Fund. Some alternative investment contracts are managed on an evergreen, or constant duration, basis. An evergreen contract has no predetermined maturity, and the asset portfolio is managed to a target duration. The fund provides for daily redemptions by the Plan at reported net asset value per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interest in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for the portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in the Schwab Stable Value Fund Advisor.

Risk and Uncertainties: The Plan provides for investments that, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Benefit Payments: Benefit payments are recorded when paid.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through July, 19, 2011, which is the date the financial statements were available to be issued.

NOTE 3 - INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated September 28, 2010 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.
