A. H. BELO PENSION TRANSITION SUPPLEMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

1. Description of the Plan

The following description of the Pension Transition Supplement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for more complete information.

General. The Plan is a defined contribution plan that is intended to qualify as a profit-sharing plan under Section 401(a) of the Internal Revenue Code, and was adopted by A. H. Belo Corporation (“Plan Sponsor”) and its subsidiaries (collectively, the “Employer,” or “Company”) on February 5, 2008. The Plan covers certain employees of the Plan Sponsor who were affected by the benefit freeze of The G. B. Dealey Retirement Pension Plan (the “GBD Pension Plan”), which became effective March 31, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On February 8, 2008, the Distribution Date (the “Distribution Date”), Belo Corp. (“Belo”) contributed to A. H. Belo all of Belo’s subsidiaries engaged in Belo’s newspaper business and related assets and liabilities. Belo also transferred the vested account balances of A. H. Belo employees and former employees from Belo’s defined contribution plan to a defined contribution plan established and sponsored by A. H. Belo. Effective with this transfer, A. H. Belo assumed and became solely responsible for all liabilities of the defined contribution plan with respect to A. H. Belo’s employees and former employees. Subsequent to the transfer, A. H. Belo and its subsidiaries ceased to be participating employers in the Belo defined contribution plan.

The only employees, as defined by the Plan, who participate in the Plan are (i) each employee who (A) was accruing a retirement benefit under the GBD Pension Plan on March 31, 2007, other than an employee who on that date was receiving disability benefits under a long-term disability plan sponsored by the Company or any participating employer, as defined in the plan document, and (B) was employed by a participating employer on April 1, 2007; or (ii) each employee who was in qualified military service, as defined by the Plan, who was accruing a retirement benefit under the GBD Pension Plan immediately prior to his qualified military service and who returns from such qualified military service to employment with a participating employer within the period in which his reemployment rights are guaranteed by law. Additionally, an employee who after the Distribution Date, and on or before December 31, 2008, transfers employment from A. H. Belo to employment with a participating employer and who, immediately prior to such transfer of employment, was a participant in the A. H. Belo Pension Transition Supplement Plan will be eligible to participate in the Plan.

An employee who terminates employment will not be eligible to participate in the Plan upon his reemployment by a participating employer and will not be eligible for the participating employer contribution described below for the plan year in which he is reemployed or for any future Plan year, unless the employee was transferred to A. H. Belo as of the Distribution Date and transfers back to employment with a participating employer as described above.

Contributions. Participant contributions to the Plan are not permitted. The purpose of the Plan is to replace for each participant a portion of the GBD Pension Plan benefit the Participant would have earned after March 31, 2007, if benefits under the GBD Pension Plan had not been frozen and the Participant had remained an employee after that date until age 65. Each participating employer of the Company will therefore pay to the trustee as a discretionary profit-sharing contribution for each participant who is employed by the participating employer on the last day of each Plan year and who is not excluded from participation in the Plan for such Plan year an amount expressed as a percentage of the participant’s compensation and determined by the participating employer.

In March 2009, the Plan was amended, indefinitely suspending participating employer contributions, effective for the plan year beginning January 1, 2009. The Plan was subsequently amended in March 2011, reinstating the participating employer contributions, effective for the plan year beginning January 1, 2010. Accordingly, no contributions to the Plan were required for 2009 and contributions of \$5,318,150 for 2010 were received by the Plan in March 2011.

A. H. BELO PENSION TRANSITION SUPPLEMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Vesting. Except as provided in the Plan document, each participant will have a 100 percent vested and non-forfeitable interest in his account at all times.

Payment of Benefits. Distribution of a participant vested account balance will be made as soon as practicable following the participant's termination of employment, or if earlier, the date on which the participant becomes eligible to receive benefits under the Social Security Act on account of total and permanent disability.

Distributions will be in the form of a single lump-sum payment unless distributions are delayed until a participant reaches age 70½, then the distributions will be in the form of a single lump-sum payment or as otherwise provided under the minimum required distribution provisions of the Plan.

Participant Loans. Participant loans against their vested account balances are not permitted.

Administration. The Plan is administered by the Benefits Administrative Committee, which consists of a chairman appointed by the employer and additional committee members appointed by the Chairman.

Plan Termination. Although the Plan Sponsor has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles (GAAP). Distributions are recorded when paid.

Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Employer maintains the Plan's assets in the A. H. Belo Corporation Master Trust (the "Master Trust") with Fidelity Management Trust Company ("Fidelity"). The assets of the Master Trust are separately accounted for on a plan-level basis by Fidelity. As such, net investment income for the Master Trust is earned in each plan's account based on the amount of assets within each plan.

Investments included in the Master Trust are valued at fair value. Mutual fund shares are valued at published market prices, which represent the net asset value of shares ("NAV") held by the Plan at year-end. Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar ratings.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Related-Party Transactions. Certain Plan investments in the registered investment companies are managed by Fidelity. Fidelity is a trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Plan Expenses. All expenses incident to the administration of the Plan are paid by the Plan unless the Employer elects to pay for such expenses.

Fair Value Measurements. The Plan applies the provisions of Accounting Standards Codification (“ASC”) 820, Fair Value Measurements, which defines fair value and establishes a framework for measuring fair value. Specifically, ASC 820:

- Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date
- Establishes a three-level hierarchy based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date, as follows:

Level 1 – Unadjusted quoted prices in active markets accessible at the reporting date for identical assets and liabilities.

Level 2 – Quoted prices for similar assets or liabilities in active markets. Quoted prices for identical or similar assets and liabilities in markets that are not considered active or inputs other than quoted prices that are observable, or can be corroborated by observable market data.

Level 3 – Prices or valuations that require inputs that are significant to the valuation and are unobservable.

The following tables present a summary of the investment assets held in the Master Trust measured at fair value as of December 31, 2010 and 2009:

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

3. Interest in Master Trust

Net investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon average monthly balances of the Plan. Investments included in the Master Trust include a common/collective trust, which invests in fully benefit-responsive investment contracts recognized at fair value. The fair value of total

4. Income Tax Status

The Plan has sought a determination letter from the Internal Revenue Service to determine that the Plan is qualified under Section 401(a) of the Internal Revenue Code ("Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plan, as amended and restated, is qualified and the related trust is tax exempt. The Plan has until 2012 to receive this determination.

6. Risks and Uncertainties

The Plan provides for investments in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

December 31, 2010 and 2009

Recent economic conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. Subsequent Events

The Plan has evaluated subsequent events through July 20, 2011, the date the financial statements were issued.
