To the Participants and Trustees of
Pension Plan for Employees of Ahlstrom West Carrollton LLC

We were engaged to audit the accompanying statements of net assets available for benefits of the Pension Plan for Employees of Ahlstrom West Carrollton LLC as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules of assets (held at end year) and reportable transactions as of December 31, 2010. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D and supplementary information, which was certified by SEI Private Trust Company as of December 31, 2010, and Mainstay New York Life Investment Management, LLC, as of December 31, 2009, the investment trustees of the Plan, except for comparing such information with the related information included in the financial statement and the supplemental schedules. We have been informed by the Plan Administrator that SEI Private Trust Company holds the Plan's investment assets and execute investment transactions at December 31, 2010. The Plan Administrator has obtained certifications from SEI Private Trust Company and Mainstay New York Life Investment Management, LLC, as of December 31, 2010 and 2009, respectively, and for the years ended December 31, 2010 and 2009, respectively, that the information provided to the Plan Administrator by SEI Private Trust Company and Mainstay New York Life Investment Management, LLC, is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to and do not express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by SEI Private Trust Company as of December 31, 2010, and Mainstay New York Life Investment Management, LLC, as of December 31, 2009, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of management.

NOTE A - DESCRIPTION OF THE PLAN

The Plan is a non-contributory defined benefit pension plan established to provide benefits to eligible employees at retirement and is sponsored by Ahlstrom West Carrollton LLC. An eligible employee is an hourly employee of Ahlstrom West Carrollton LLC who has worked at least one year and has been credited with at least one thousand hours of service during that year and is represented by the PACE International Union, AFL-CIO Local Union No. 5-0781, but only to the extent that their eligibility to participate in the Plan has been agreed upon by the Employer and the Union. An eligible employee shall become a participant on the first day of the calendar month that coincides with or next follows the date on which eligibility requirements are met. At the later of age 62 or the date on which the participant completes five years of Plan participation, a participant is entitled to his accrued retirement benefit, as defined in the Plan. A participant whose employment continues after age 62 may elect to defer payment of benefits to the date of termination. A participant qualifies for early retirement when he has completed ten years of service and attains age 55. A participant becomes fully vested upon completion of five years of service. A participant may receive disability payments when he has completed 15 years of service. A participant's beneficiary may be eligible to receive death benefits as defined in the Plan.

The Company's funding policy is to fund pension costs that at a minimum would satisfy the minimum requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and would be deductible under Section 404 of the Internal Revenue Code. Contributions are intended to fund the Plan's normal cost on a current basis. The Plan has met ERISA's minimum funding requirements.

Upon termination, the Plan's assets would be allocated among the participants in the order prescribed by ERISA. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation if the Plan terminates. The Plan is administrated by certain members of the Company's management approved by the Board of Directors of the Company.

A Summary Plan Description is available to provide greater detail to participants concerning Plan provisions.

Amendments

The Plan was amended to change the eligibility requirements. No eligible employee whose employment begins on or after January 1, 2008, will be eligible to participate in the Plan. Also, a participant in the Plan who was employed prior to August 1, 2006, may elect to terminate his participation in the Plan and enroll in the 401(k) plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

Amendments (Continued)

The legal plan name was changed from Pension Plan for Employees of West Carrollton Parchment Company to Pension Plan for Employees of Ahlstrom West Carrollton, Inc., to reflect the acquisition of the West Carrollton Parchment Company by Ahlstrom USA Inc. during February 2008. Effective January 1, 2010, the legal plan name has been changed from Pension Plan for Employees of Ahlstrom West Carrollton, Inc., to Pension Plan for Employees of Ahlstrom West Carrollton LLC.

During 2009, the Plan was amended to reflect the provisions of the Pension Protection Act of 2006; the Worker, Retiree, and Employer Recovery Act; and certain other provisions of applicable law and the applicable regulations that are generally effective after December 31, 2006.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements using the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE C - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments including lump sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated participants or their beneficiaries, (2) beneficiaries of participants who have died, and (3) active participants or their beneficiaries. Benefits under the Plan are calculated based on the number of years during which a participant completed one thousand hours of service with Ahlstrom West Carrollton LLC.

The actuarial present value of accumulated benefits is determined by an actuary from Milliman USA and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2011 and 2010, include (1) mortality of participants determined using the 2011 and 2010 Group Annuity Mortality Tables, respectively; and (2) discount rate of 7%.

The most recent actuarial valuation of the Plan was made as of January 1, 2011. The actuarial present value of accumulated plan benefits at January 1, 2011 and 2010, are as follows:

	<u>2011</u>	<u>2010</u>
Actuarial present value of accumulated plan benefits vested:		
Participants currently receiving benefits	\$ 824,087	\$ 869,754
Other participants	<u>2,092,872</u>	<u>1,926,183</u>

Non-vested	<u>67,032</u>	<u>57,386</u>
	<u>\$ 2,983,991</u>	<u>\$ 2,853,323</u>

The changes in the actuarial present value of accumulated plan benefits of January 1, 2011, is as follows:

	<u>2011</u>
Accumulated plan benefits, beginning of year	\$ 2,853,323
Reduction in discount period	195,162
Benefits paid on accrual basis	(133,032)

NOTE E - FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820-10, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Mainstay New York Life Investment Management, LLC. Mainstay New York Life Investment Management, LLC, is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest. During 2010, the Plan changed trustees to SEI Private Trust Company. Certain Plan investments are shares of mutual funds managed by SEI Private Trust Company. SEI Private Trust Company, is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest.

AHLSTROM WEST CARROLLTON LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 and 2009**

NOTE G - INCOME TAX STATUS

The Plan obtained a favorable tax determination letter on September 19, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan Sponsor believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Therefore, no income taxes have been provided for in the financial statements. Subsequent to year end, the Plan obtained a favorable tax determination letter dated July 14, 2011.

NOTE H - RISKS AND UNCERTAINTIES

Contributions to the Plan and the Actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

NOTE I - SUBSEQUENT EVENT

The Company has evaluated subsequent events through July 25, 2011, the date which the financial statements were available to be issued.

Description of the Actuarial Cost Method

The true cost of a pension plan will ultimately be determined by the excess of benefits actually paid and the expenses incurred in its administration over investment income earned on monies set aside for its funding. Thus, the ultimate cost of a plan cannot be known until the last payment has been made to its last participant. The actuarial cost method is the technique adopted by the actuary for establishing the amount and incidence of annual actuarial costs. The actuarial cost method determines the portion of the ultimate cost of a pension plan which should be allocated to each plan year (known as the normal cost). The cost method is thus a budgeting tool which helps to ensure that the pension plan will be adequately and systematically funded.

The annual costs for a pension plan can be determined using any one of several actuarial cost methods. The methods differ in how much of the ultimate cost of the plan is assigned to each prior year, the current year and to each future year. Although the ultimate cost for a pension plan will be determined not by the cost method, but by the benefits and expenses which become payable and the earnings which are obtained on the investments of the plan, the pattern of annual contributions from year to year and the rate of funding for the benefits will vary with the choice of actuarial cost method. In addition, the choice of actuarial assumptions for a given actuarial cost method will affect the current level of contributions and pattern of future contributions.

The actuarial cost method used in the valuation of this Plan is known as the projected unit credit cost method. Under this cost method a projected retirement benefit at assumed retirement age is computed for each participant using anticipated future pay increases. The normal cost for each participant is computed as the present value of the pro-rata portion of the participant's projected benefit which is accrued or earned during the plan year being valued. The normal cost for the plan is the total of the individually computed normal costs for all participants including the costs for any death or disability benefits under the plan.

The accrued liability at any point in time for an active participant is the present value of that portion of the projected benefit which has been accrued up to the valuation date. For persons receiving benefits or entitled to a deferred vested retirement income, the accrued liability is equal to the present value of their future benefit payments. The accrued liability for the plan is the total of the individually computed accrued liability amounts for all participants. The unfunded liability for the plan is the excess of the accrued liability over the assets which have been accumulated for the plan. This unfunded accrued liability may be liquidated over a period of between five and thirty years (forty years for plans in existence on January 1, 1974) at the convenience of the employer with fixed or variable payments, subject to certain minimum payments on a cumulative basis needed to satisfy the minimum contribution requirements for the plan.

Appendix A (*Continued*)

Description of the Actuarial Cost Method

It should be noted that under this cost method the accrued liability as of any date may not equal the actuarially computed value of accrued or accumulated plan benefits as of that date. The accrued liability is the present value of the pro-rata accrued portion of the projected benefit at normal retirement, where the projected benefit is based on future service and the earnings progression assumption for future pay increases. The actuarially computed value of accrued or accumulated plan benefits is the present value of retirement benefits which have been accrued or earned to date based only upon service and earnings to date.

The funding cost of the Plan is derived by making certain specific assumptions as to rates of interest, mortality, turnover, etc. which are assumed to hold for many years into the future. Since actual experience may differ somewhat from the assumptions, the costs determined by the valuation must be regarded as estimates of the true costs of the Plan.

For purposes of applying the actuarial cost method, plan assets are valued at market value with appropriate adjustments for receivable contributions.

Summary of Plan Provisions

1. Definitions

Accrued Benefit

The Accrued Benefit for each Participant is determined using the same formula which is used to compute such Participant's Normal Retirement Benefit, taking into account the Participant's Years of Benefit Service through the date of determination.

Actuarial Equivalent

Actuarial Equivalent means a form of benefit differing in time, period and/or manner of payment from another form of benefit but having the same value when computed based upon the following interest and mortality assumptions:

Interest: 7.00%

Mortality: 1983 Group Annuity Mortality Table for Males

Effective Date

The Effective Date of the Plan is January 1, 1959.

The Plan was last amended effective August 1, 2006.

Eligible Employee Classification

An Eligible Employee Classification is a classification of Employees, the members of which are eligible to participate in the Plan. The only classification which is an Eligible Employee Classification is employees represented by the Paper, Allied-Industrial, Chemical and Energy Workers International AFL-CIO, CLC (Local 5-781) hired prior to August 1, 2006.

Entry Date

Entry Date means the first day of the month which coincides with or next follows the date that the eligibility requirements are met.

Fiscal Year

Fiscal Year means the taxable year of the Employer. The Fiscal Year of the Employer is the 12-month period beginning January 1 and ending December 31.

Summary of Plan Provisions

Normal Retirement Age

A Participant's Normal Retirement Age is his attained age on the date which he satisfies the following requirements:

- a. Attainment of age 65, and
- b. Attainment of the fifth anniversary of the time the Participant commenced participation in the Plan.

Normal Retirement Date

A Participant's Normal Retirement Date is the first day of the month which next follows the date on which the Participant attains Normal Retirement Age.

Plan Year

The Plan Year is the 12-month period beginning January 1 and ending December 31.

Vested Accrued Benefit

A Participant's Vested Accrued Benefit as of a given date is equal to the product of his Accrued Benefit multiplied by his Vested Percentage as of that same date.

Vesting Schedule

A Participant's Vested Percentage will be 100% upon the completion of 5 Years of Vesting Service. Prior to the completion of 5 Years of Vesting Service, a Participant's Vested Percentage is zero.

Year of Service

- For Eligibility Purposes

Years of Service for purposes of eligibility to participate in the Plan are referred to as Years of Eligibility Service and are determined using the Hours of Service Method.

A Year of Eligibility Service is credited for each Computation Period during which an Employee is credited with at least 1,000 Hours of Service. The Computation Period is the 12 consecutive month period beginning with the Employee's Employment Commencement Date and anniversaries thereof.

5. Late Retirement

An active Participant who continues his employment with the Employer beyond his Normal Retirement Date may begin to receive his Late Retirement Benefit to which he is entitled as of his Late Retirement Date.

a. Late Retirement Date

A Participant's Late Retirement Date is the first day of the month coincident with or next following the date he retires and requests the commencement of his Late Retirement Benefit after he has continued in the employ of the Employer beyond his Normal Retirement Date.

b. Late Retirement Benefit

An Participant's Late Retirement Benefit is equal to an amount which is the greater of (1) the Actuarial Equivalent of his Normal Retirement Benefit at his Normal Retirement date, determined as of his Late Retirement Date or (2) the monthly benefit which is based on the Normal Retirement Benefit formula using the Participant's Years of Benefit Service through his Late Retirement Date.

6. Disability Retirement

a. Disability Retirement Date

A Participant's Disability Retirement Date is the first day of the month coincident with or next following the date of termination of his employment due to disability.

An Active Participant will be eligible for a Disability Retirement Benefit under the Plan upon the occurrence of permanent disability coincident with or following the Participant's completion of 15 Years of Vesting Service.

b. Disability Retirement Benefit

An eligible Participant's Disability Retirement Benefit is equal to the Participant's Accrued Benefit as of his Disability Retirement Date reduced by 1/3 of 1% for each month that his Disability Retirement Date precedes his Normal Retirement Date. The minimum monthly disability benefit will be \$75.

7. Pre Retirement Death Benefit

If a Married Participant dies on or before the Earliest Retirement Age, the Participant's Surviving Spouse will receive the same Benefit that would be payable if the Participant had:

- i. separated from service on the date of death;
- ii. survived to the Earliest Retirement Age;
- iii. retired with an immediate Joint and 50% Survivor Annuity at the Earliest Retirement Age; and
- iv. died on the day after the Earliest Retirement Age.

If a Married Participant dies after the Earliest Retirement Age, the Participant's Spouse will receive the same benefit that would be payable if the Participant had retired with an immediate Joint and 50% Survivor Annuity on the day before the Participant's date of death.

A Joint and 50% Survivor Annuity provides a monthly benefit payable for the lifetime of the Participant and, upon the Participant's death, the Surviving Spouse (if any) will receive a monthly benefit equal to 50% of the monthly benefit which was payable during the Participant's lifetime.

8. Termination Benefit

In the event of the termination of a Participant's employment for any reason other than death, disability or retirement, the Participant will become entitled to receive a monthly pension benefit commencing on his Normal Retirement Date equal to his Vested Accrued Benefit.
