NOTES TO FINANCIAL STATEMENTS

December 31, 2010 and 2009

Note 1 – Description of Plan

Automobile Club of Oklahoma (the Company or Employer) sponsors the AAA Oklahoma Thrift & Retirement Plan (the Plan). The following description is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the Company's employees, except for independent contractors. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the Code) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Company. PNC Bank, N.A. (the Trustee) serves as the Trustee of the Plan.

Eligibility

Nonexcluded employees who are 21 years of age are eligible to participate in the Plan. Participants are automatically enrolled in the Plan on the first day of the quarter after satisfying eligibility requirements.

Contributions

Eligible employees may contribute 2% to 50% of pretax compensation, subject to limitations under the Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Eligible employees are automatically enrolled in the Plan with a 3% deduction. Eligible employees who do not want to make a contribution may elect to opt out of automatic enrollment. Employees may also elect a different contribution percentage. Their contribution rate then increases by 1% after a full year of participation and annually thereafter until a contribution rate of 6% is reached.

The Plan also provides for Safe Harbor Employer matching contributions, subject to limitations under the Code. The Company provided Safe Harbor matching contributions equal to 100% of the first 1% of eligible compensation and 50% of the participant's contributions greater than 1%, not to exceed 6% of the participant's eligible compensation. The Plan also provides for discretionary Employer matching contributions, but none were contributed for the year ended December 31, 2010.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and Employer contributions plus any earnings thereon.

Notes receivable from participants

Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance during a 12-month period, or 50% of their vested account balance. Only two loans may be outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% on the date of origination. As of December 31, 2010, the interest rates range from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Upon retirement age of 59½ or the fifth anniversary of the first day of the first Plan year in which the participant commenced participation in the Plan, termination, disability or death, a participant may elect to receive a lump-sum amount equal to the vested value of his or her account. Additionally, participants may take an in-service withdrawal as a rollover or transfer upon completion of five years of service. Upon employee termination, mandatory distributions are required for balances of less than \$5,000. Mandatory distributions above \$1,000 made without the participant's consent are rolled into an individual retirement account designated by the Trustee. For inactive employees who have reached age 70½, certain minimum distributions are required.

The Plan allows hardship withdrawals subject to account balance limits and applicable laws.

Administrative expenses

The Plan allows administrative expenses to be paid from the Plan's assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The statements of net assets available for benefits present the common collective trust fund at fair value, which approximates contract value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reported as distributions.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year end that were not paid.

New accounting pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued new guidance, improving disclosures and fair value measurements to add new requirements for disclosures about transfers into and out of Levels 1 and 2 and separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements. The new guidance also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The new guidance is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The new guidance was adopted for the year ended December 31, 2010, except for the Level 3 reconciliation disclosures, which is required in 2011. The adoption in 2010 did not materially affect, and the future adoption is not expected to materially affect, the Plan's financial statements.

In September 2010, the FASB issued new guidance, reporting loans to participants by defined contribution pension plans effective for periods ending after December 15, 2010. The new guidance requires that participant loans be classified as notes receivable rather than a plan investment and measured at unpaid principal balance plus accrued but unpaid interest. The new guidance was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the reclassification of participant loans. There was no change in net assets as of December 31, 2010 and 2009, as a result of the adoption.

Subsequent events

The Plan Administrator has evaluated subsequent events through July 25, 2011, the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009.
- Investment activity and participant loan interest, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010.
- The Schedule of Assets (Held at End of Year) as of December 31, 2010.
- The fair value of investments reported in the notes to the financial statements.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Investments

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

Investment	2010	2009
American Balanced Fund	\$ 4,146,608	\$ 4,148,908
Growth Fund of America	1,556,146	1,557,965
PNC Investment Contract Fund	2,315,460	2,815,521
T. Rowe Price Retirement 2010	899,290	-
T. Rowe Price Retirement 2020	1,243,197	-

For the year ended December 31, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,528,792 as follows:

Mutual funds	\$ 1,485,492
Common collective trust fund	43,300
	<u>\$ 1,528,792</u>

Note 5 – Fair Value Measurements

Accounting guidance establishes a consistent framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These inputs used to value the different levels of the fair value hierarchy are described below:

Level 1	Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or inputs other than quoted prices that are observable.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize that use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Mutual funds – Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Common collective trust fund – The PNC Investment Contract Fund (the Trust) is a common collective trust fund that is considered to be a stable value fund with underlying investments in benefit-responsive investment contracts. The fair value of the stable value fund is the net asset value of its underlying investments. There are no restrictions on redemptions for participant transactions from the common collective trust fund, and there are no unfunded commitments as of December 31, 2010.

Participants do not have beneficial ownership in the specific underlying securities or other assets in the fund, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participant's accounts are charged or credited with the number of units properly attributable to each participant.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the stable value fund at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The Trust imposes certain restrictions on the Plan, and the Trust itself may be subject to circumstances that affect its ability to transact at contract value. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable. The Plan may only withdraw from the common collective trust fund invested in stable value funds upon 12 months advance written notice to the Trustee.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

Investments at Fair Value as of December 31, 2010				
	Level 1	Level 2	Level 3	Total

Total investments at fair value	\$ 11,979,048	\$ 2,815,521	\$ -	\$ 14,794,569

Note 6 – Related Party Transactions

Certain administrative expenses, totaling approximately \$6,000, were paid by the Company on behalf of the Plan for the year ended December 31, 2010. The Company does not expect reimbursement from the Plan for the payment of these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

The common collective trust fund is managed by the Trustee. Transactions with such fund qualify as party-in-interest transactions.

Note 7 – Tax Status

The Company adopted a nonstandardized prototype plan (the Prototype Plan) sponsored by PNC Bank, N.A. The Internal Revenue Service (IRS) has determined and informed the Trustee by an opinion letter dated March 31, 2008, that the Prototype Plan is designed in accordance with the applicable sections of

the Code. The Prototype Plan's opinion letter is being relied on by the Plan. Although the Plan has been amended since receiving the opinion letter, the Plan's management believes the Plan is designed and is being operated in compliance with the applicable sections of the Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the United States Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 8 – Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate participation in the Plan subject to the provisions of ERISA.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Reconciling of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009, to Form 5500:

Net assets available for benefits per the financial statements	\$ 15,901,834
Benefits payable	<u>(58,032)</u>
Net assets available for benefits per the Form 5500	<u>\$ 15,843,802</u>

The following is a reconciliation of benefit payments to participants per the financial statements for the year ended December 31, 2010, to Form 5500:

Benefits paid per the financial statements	\$ 1,387,109
Prior year benefits payable	<u>(58,032)</u>
Benefit payments per the Form 5500	<u>\$ 1,329,077</u>
