INDEPENDENT AUDITOR'S REPORT

Investment Committee of
Spare Time, Inc. 401(k) Plan
Gold River, California

We were engaged to audit the financial statements and supplemental schedule of the Spare Time, Inc. 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 which was certified by Principal Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SPARE TIME, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

---

1. DESCRIPTION OF THE PLAN

The following description of the Spare Time, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering the employees of Spare Time, Inc. (the Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration – The Sponsor is the administrator of the Plan and, as such, carries out the duties imposed under ERISA. The Sponsor has delegated certain responsibilities for the operation and administration of the Plan. Administrative and recordkeeping services are provided by Principal Life Insurance Company.

Eligibility – An employee who has completed one year (1,000 hours by their anniversary date) of service, is not part of a union or a non-resident alien earning U.S. income and is age twenty-one or older is eligible to begin participating in the Plan in the year in which these requirements are satisfied.

Contributions – Participants may contribute up to 100% of eligible compensation, subject to IRS limitations, through salary deferrals. The Plan does not allow for matching contributions. The Sponsor may make an annual profit-sharing contribution based on each employee's salary as a percentage of the total. During 2010 there were no annual profit sharing contributions. Eligible compensation is defined as gross compensation before deferral of employee contributions, plus any taxable life insurance premiums. Contributions are subject to certain limitations.

Investment options – Upon enrollment in the Plan, a participant may direct contributions in any of twenty-five investment alternatives offered through the Principal Life Insurance Company.

Participant accounts – Individual accounts are maintained for each Plan participant to reflect the participant's contributions and related matching contribution. Employee and matching contributions are credited to participants' accounts following each pay period. Income and loss is allocated to the participants' accounts based on the ratio of the account balance of the individual participant to the aggregate of all account balances of all participants in the fund within the Plan. The vested balance in a participant's account is the benefit to which the participant would be entitled upon termination or retirement.

Vesting – Participants are immediately vested in their contributions and the matching contributions, plus actual earnings thereon. Vesting of profit sharing contributions is based on years of service in which the participant has completed at least 1,000 hours or service. The following table is the vesting schedule based on years of service:

Years of Vesting Service	Percentage of Vesting
Less than 3	0%
3 or more	100%

Payment of benefits – Upon termination of employment, a participant may elect to receive their distribution by a lump-sum payment, or by installment payments. On a lump-sum payment, the participant may elect to roll the balance to an individual retirement account or to another qualified plan.

Forfeitures – Upon termination of employment, non-vested portions of participant accounts are forfeited and used to reduce future employer contributions. At December 31, 2010 and 2009 there were no forfeitures.

Costs of administration – The Sponsor pays some administrative costs for the Plan. These costs were $13,200 and $12,000 in 2010 and 2009, respectively.

Participant loans – Under the terms of the Plan, participants may borrow from their accounts up to $50,000 or 50% of their vested account balance, whichever is less. Loans are not allowed for less than $1,000. The loans are secured by the balance in the participants' accounts and bear interest at a determined rate by taking the average rate used for similar personal loans transactions used by several commercial banks in the general geographic area of the Plan. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition – The Plan's interest bearing cash and pooled separate accounts are stated at fair value as certified by the Plan trustee. The unallocated contracts are stated at contract value by the Plan trustee, which approximates fair value. Since most of the investments are with registered investment companies, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income and gains are recorded on the accrual basis. Dividends and capital gain distributions are recorded on ex-dividend dates.

Payment of benefits – Benefits are recorded when paid.

Income taxes – The Plan is based on the Prototype Non-standardized Profit Sharing Plan with CODA and trust plan document of Principal Life Insurance Co. which received a determination letter from the IRS dated March 31, 2008 stating that the prototype plan was designed in accordance with the provisions of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan adopted the accounting principles related to accounting for uncertainty in income taxes (as described under Accounting Standards Codification (ASC) 740-10) as of January 1, 2009 and has determined that there is no material impact on the financial statements for December 31, 2010. With some exceptions, the Plan is no longer subject to U.S. federal and California income tax examinations by tax authorities for years prior to 2006.

Use of estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

As described in ASC 946-210 and ASC 925-325, *Reporting of Fully benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the ACIPA Investment Company Guide* and *Defined-Contributions Health and Welfare and Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. There were no fully benefit-responsive investment contracts as of December 31, 2010 and 2009.

Fair value measurements – Assets and liabilities measured at fair value are recorded in accordance with ASC 820, *Fair Value Measurements*, which clarifies that fair value is an exit price representing the amount that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such fair market value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability.

Risks and uncertainties – Investments are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Related-party transactions – Certain Plan investments are in pooled separate accounts managed by the Trustee's affiliate. Consequently, these transactions qualify as party-in-interest transactions (see supplemental schedule).

Subsequent events have been evaluated through July 28, 2011, the date the financial statements were available to be issued.

Recent accounting pronouncements – In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. The guidance requires new disclosures about significant transfers in and out of Levels 1 and 2 fair value measurements and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 fair value measurements. The new guidance also clarifies existing disclosure requirements regarding inputs and valuation techniques, as well as the level of disaggregation for each class of assets and liabilities for which separate fair value measurements should be disclosed. Other than requiring additional disclosures, adoption of this update will not have a material effect on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. The guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and are measured at their unpaid principal balance plus any accrued but unpaid interest. Other than requiring reclassification on the participant loan balance from investments to receivables, adoption of this update will not have a material effect on the Plan's financial statements.

Reclassification – Certain 2009 amounts have been reclassified to conform with the 2010 financial statement presentation.

3. INFORMATION CERTIFIED BY THE TRUSTEES (UNAUDITED)

The Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly as permitted under such election, the following information was certified by the Principal Life Insurance Company (the Trustee) and was not subject to any auditing procedures.

Interest and dividends as reported by the Trustee for the year ended December 31, 2010, was $16,254. Unrealized and realized gain as reported by the Trustee for the year ended December 31, 2010, was $577,874.

Total investments as reported by the Trustee were $4,248,395 and $3,598,285 as of December 31, 2010 and 2009, respectively.

4. INVESTMENTS

The fair value of investments that represent 5 percent or more of the Plan's net assets as of December 31, are summarized as follows:

	2010	2009
Principal Large Cap Stock Index Separate Account	$ 772,088	$ 654,072
Principal Bond & Mortgage Separate Account	422,271	354,237
Goldman Sachs/LA Capital Management Mid-Cap Value I Separate Account	406,487	269,188
Turner Mid-Cap Growth Separate Account	381,500	320,125
Principal Diversified International Separate Account	318,629	334,086
American Century Large Cap Growth II Separate Account	232,758	309,143
Dimensional Small Cap Value II Separate Account	231,076	
Principal US Property Separate Account		225,798
Principal Money Market Separate Account		215,772

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in the active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observed for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued based on the market value of the accounts underlying investments. The net asset value is not a publicly-quoted price in an active market.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

Investment type	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Small/Mid US Equity		$ 1,403,057		$ 1,403,057
Large US Equity		1,181,559		1,181,559

Total assets at fair value	$ 143,268	$ 3,832,698	$ 272,429	$ 4,248,395

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

Investment type	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Small/Mid US Equity		$ 1,025,939		$ 1,025,939
Large US Equity		1,070,438		1,070,438
