NOTE 1 – DESCRIPTION OF PLAN

The following description of Washington Alder LLC 401(k) (the "Plan") provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General **–** The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Washington Alder LLC, Cascade Hardwood LLC, and Port Angeles Hardwood LLC, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Washington Alder LLC is the Plan's sponsor and serves as Plan administrator.

Effective January 1, 2010, Cascade Hardwood, LLC, Port Angeles Hardwood, LLC, and all eligible employees of said companies are no longer part of the Plan. The participant assets of Cascade Hardwood, LLC and Port Angeles Hardwood, LLC were rolled into legally separate employee benefit plans administered by the respective management of each company. The Washington Alder LLC 401(k) was amended to include only eligible employees of Washington Alder LLC (the "Company"). The amendment to the Plan also included the removal of the safe harbor provisions that had previously been adopted by the Plan. As a result, employer contributions are discretionary rather than mandatory.

Eligibility **–** Employees of the Company are eligible to participate in the Plan upon reaching age 18 and after completing one year of service in which at least 1,000 hours are worked.

Contributions **–** Participants may elect to contribute between 1% and 100% of eligible compensation to the Plan each year. The Company may elect to make discretionary matching contributions to the Plan. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any employer discretionary contributions. No discretionary contributions were made during 2010. Pay is defined under the Plan as wages, tips, and other compensation and excludes safe harbor fringe benefits. Contributions are subject to regulatory limitations.

Participant Accounts **–** Each participant's account is credited with the participant's contribution, allocations of the Company's contribution and actual investment earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting **–** Participants are fully vested immediately in their contributions and in the Company's contributions plus actual earnings thereon. Accordingly, there are no forfeitures.

Loans to Participants **–** Participant loans from the Plan are not permitted.

Payment of Benefits **–** On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account balance, or annual installments. For termination of service for other reasons, a participant may receive the value of his or her account as a lump-sum distribution.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Hardship Withdrawals **–** Under certain conditions, participants, while still employed, are permitted to withdraw the employee contribution portion of their account balance. These conditions include the payment of post secondary education tuition, funeral or burial expenses for parents, spouse, children or dependants, medical expenses that are tax deductible, expenses to repair damage to participant's primary home that would be tax deductible, or to purchase, prevent eviction or foreclosure of the participant's principal residence. A participant's right to contribute to the Plan will be suspended for at least six months after the receipt of a hardship withdrawal.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting **–** The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual method of accounting.

Use of Estimates **–** The preparation of financial statements requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Recent Accounting Pronouncements **–** In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820)—Improving Disclosures about Fair Value Measurements*. The new guidance requires additional disclosures about transfers between levels within the fair value hierarchy and clarifies existing disclosure requirements regarding classes of assets and liabilities measured at fair value. The new guidance requires the Plan to: (a) disclose separately the amounts of significant transfers into and out of each level of the fair value hierarchy and describe the reasons for those transfers, (b) the Plan's policy for determining when transfers between levels of the fair value hierarchy are recognized, and (c) present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The new guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 reconciliation disclosures which are effective for reporting periods beginning after December 15, 2010. The Plan adopted this guidance on January 1, 2010. See Note 4.

Investment Valuation **–** Investments are stated at fair value as certified by the Plan's custodian, Principal Life Insurance Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Authoritative guidance requires the statements of net assets available for benefits present the fair value of the investments, as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Recognition **–** Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of Benefits **–** Benefits are recorded when paid.

Expenses **–** Administrative expenses and certain transaction fees are paid by the Plan.

Subsequent Events **–** Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued.

The Plan has evaluated subsequent events through July 28, 2011, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Investments **–** Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2010	2009
Principal Lifetime 2020	$ 467,576	$ 1,005,299
Principal Government & HQ Bond	333,989	–
Principal Money Market	243,898	535,770
Principal Lifetime 2010	145,818	476,473
Principal Lifetime 2030	139,549	439,902
Principal Small Cap S&P 600 Index	125,810	–

During 2010, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

Pooled separate accounts	$ 191,494
Registered investment companies	50,232
Net investment gain, including net appreciation in fair value of investments	$ 241,726

The above amounts include interest, dividends, and both realized and unrealized gains and losses on investments. The Plan's record keeper does not separately account for the components of investment income.

NOTE 4 – FAIR VALUE MEASUREMENTS

In accordance with authoritative guidance, the Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly;

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Shares of registered investment company funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Units held in pooled separate accounts are valued using the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. The unit value for an observable collective investment funds are classified within level 2 of the valuation hierarchy. The unit value for the unobservable collective investment fund, Principal U.S. Property, is classified within level 3 of the valuation hierarchy.

The fair value of the guaranteed investment contract (GIC) is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. GICs are classified within level 3 of the valuation hierarchy. See Note 5.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The following table discloses by level the fair value hierarchy of the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The following table discloses the summary of changes in the fair value of the Plan's Level 3 investment assets:

	Pooled Separate Account	Investment Contract	Total

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

NOTE 5 – GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

The Plan's Principal Life Insurance Company GICs are fully benefit-responsive and are presented at fair value on the statement of net assets available for benefits. The adjustment from fair value to contract value is based on the contract value as reported by Principal Life Insurance Company (which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses). The contracts are fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Crediting rates on the investment contracts are based on a formula agreed upon with the issuer, but may not be less than 0.77%. Interest rates are reviewed on a quarterly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, may limit the Plan's ability to transact at contract value with the issuer. The Plan administrator does not believe that the occurrence of such events is probable.

Traditional GICs are unsecured, general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract.

NOTE 5 – GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY (Continued)

Accounting standards require that the Plan provide the following disclosures regarding certain investments in guaranteed investment contracts at December 31:

	2010			
	Average Yield	Crediting Interest Rate	Investments at Fair Value	Adjustment to Contract Value
Principal Life Insurance Company				
Guaranteed Investment Contract 2010	4.14 %	0.77 %	$ 25,208	$ –
Guaranteed Investment Contract 2011	4.22	0.77	26,662	–
Guaranteed Investment Contract 2012	3.89	1.10	55,820	–
Guaranteed Investment Contract 2013	1.70	1.49	38,465	–
Guaranteed Investment Contract 2014	1.60	2.01	27,130	434
			$ 173,285	$ 434

	2009			
	Average Yield	Crediting Interest Rate	Investments at Fair Value	Adjustment to Contract Value
Principal Life Insurance Company				
Guaranteed Investment Contract 2009	3.49 %	0.94 %	$ 45,872	$ –

Guaranteed Investment Contract 2013	1.67	2.69	100,417	4,043
			$ 402,665	$ 4,043

The average yield is based upon annualized earnings of the investment, which may differ from the crediting interest rate, which is based upon the annualized earnings credited to participant accounts.

NOTE 6 – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 22, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 8 – INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

	December 31, 2010	December 31, 2009
Statement of Net Assets Available for Plan Benefits		
Investments at fair value:

Transactions with Principal Financial Group qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to Principal Financial Group were $14,625 for the year ended December 31, 2010.

NOTE 10 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
