RESTAURANTS OF AMERICA RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of Restaurants of America Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on November 1, 1994 as a defined contribution plan covering all eligible employees of Restaurants of America, Inc. and its subsidiaries (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2010, the Plan was amended to change its name from RAM Support Inc. Retirement Plan to Restaurants of America Retirement Plan. The plan also changed trustees of the plan from MG Trust Company, LLC to Principal Trust Company and Principal Life Insurance Company during 2010.

Contributions

Each year, participants may contribute a portion of their compensation, as defined in the Plan, subject to limits set by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make discretionary non-elective contributions, which are allocated to participants according to the participant's eligible compensation. All contributions are subject to certain limitations for "highly compensated employees" as defined by the Internal Revenue Code. No discretionary contributions were made by the Company during 2010.

Participant Accounts

Qualified employees are eligible to participate in the Plan upon attaining age 21 and the completion of one year and 1000 hours of service. Each participant's account is credited with the participant's contribution, an allocation of the Plan's income, and an allocation of the Company's contribution, if any. Each participant's account is charged with an allocation of the Plan's losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Vesting occurs at the rate of 20% per year of vesting service beginning after two years of service. A participant is fully vested after six years of qualified service.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits

On severance of employment or on death or disability, the participant receives an amount equal to the value of the vested interest in his or her account. Distributions are paid either as a lump-sum payment or in installments over a period of time, depending on limitations based on the participant's account balance and the status of the employee. In-service withdrawals and hardship distributions are also allowed under the plan.

Forfeitures

Participants leaving the Company before they are fully vested in their allocation of the Company's contributions forfeit the nonvested portion of their account. The forfeited balances of these accounts are used to reduce future contributions by the Company and Plan expenses. At December 31, 2010, forfeited nonvested accounts totaled $15,877.

Investment Options

Participants direct the investment of their contributions into various mutual funds, pooled separate accounts, or insurance contracts offered by the Custodian of the Plan.

Participant Loans

Participants may borrow from their fund up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the comparable market rates for secured loans. The loans are maintained by the plan administrator as investments of the Plan. Principal and interest are paid ratably through payroll deductions.

Allocation of Plan Earnings

Earnings and losses from the Plan's investments are allocated to participants' accounts based on the account balances at the beginning of the period as further defined in the Plan Document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each participant will become 100% in their accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds and pooled separate accounts are stated at fair value using quoted market prices. The fair value of guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Participant loans receivable are valued at the unpaid principal balance, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

In accordance with SFAS 157, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The level in the fair value hierarchy with which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds – Valued at the net asset value (NAV) of the shares held by the plan.

Pooled Separate Accounts – Value at the unit values of the units held by the plan. Unit values of the Pooled Separate Accounts are value at the market value of the securities held in the account divided by the total number of units of the account.

Insurance Contracts in Insurance Company General Account – The Plan's interest in insurance contracts held in Principal Life's general account are valued at the contract value minus early withdrawal charges.

Loans to Participants – Valued at amortized cost, which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 48,817	$ -	$ -	$ 48,817
Pooled Separate Accounts	-	1,687,417	-	1,687,417
Funds in Insurance Contracts	-	5,560	-	5,560
Loans to Participants	-	-	85,959	85,959
Total Investments at Fair Value	$ 48,817	$1,692,977	$ 85,959	$1,827,753

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The table below summarizes the changes in the fair value of the Plan's Level 3 assets (Loans to Participants) for the year ended December 31, 2010:

Balance at the beginning of the year	$113,991
New loans	66,000
Repayments	(94,032)
Balance at the end of the year	$ 85,959

NOTE 4 – INSURANCE CONTRACTS

The plan has investments in Principal Fixed Income Guaranteed Option (PFIGO. The contract is a benefit-responsive group insurance contract issued by Principal Life Insurance Company. The contract provides for an interest rate adjusted on a semiannual basis with minimum interest rate terms. The interest rate history for the contract during 2010 was as follows:

1/1/10 through 5/31/10	3.25%
6/1/10 through 11/30/10	3.20%
12/1/10 through 12/31/10	2.85%

The Plan's investments in these contracts are reported at fair value on the financial statements and at contract value on Schedule H of the form 5500. An adjustment has been made on the Statement of Net Assets Available for Benefits for the difference between the fair value and contract value of this investment.

NOTE 5 – TAX STATUS

The employer has not received a determination letter from the Internal Revenue Service for the Plan as amended. However, the Plan is a prototype non-standardized profit sharing plan. The Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 - INFORMATION CERTIFIED BY THE CUSTODIAN (Unaudited)

The Plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the custodians of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule.

	2010	2009
