O. I. Corporation 401(k) Plan
College Station, Texas

We were engaged to audit the statements of net assets available for benefits of O. I. Corporation 401(k) Plan as of December 31, 2010 and 2009 and the statement of changes in net assets available for benefits and supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held at End of Year) for the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Wells Fargo Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

O.I. Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2010 and 2009

1. Description of Plan

The following description of the O. I. Corporation (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

- (a) *General.* The Plan is a defined contribution plan covering all employees of the Company who have completed 30 days of service and are age twenty-one or older. The service requirement changed from six months to 30 days effective January 1, 2008. Plan entry dates are quarterly. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- (b) *Contributions.* Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, up to limits specified by the Internal Revenue Code as a salary deferral election. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The plan currently offers a money market account and nineteen mutual fund accounts as investment options for participants. Employees can change their investment options at any time. Beginning January 1, 2008, the plan was amended to provide for a fixed matching contribution by the Company equal to 50 percent of the first 6 percent of each participant's contribution. In addition, Company discretionary contributions are not required but are determined annually at the sole discretion of the Company's Board of Directors. Effective May 18, 2009, the Company signed an amendment to the Plan to remove the fixed employer matching contribution discussed above. Contributions are subject to certain limitations.
- (c) *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (i) the Company's matching or discretionary contribution, (ii) Plan investment earnings, (iii) appreciation in the value of investments, and (iv) forfeitures of terminated participants' non-vested accounts. Each participant's account is reduced by participant withdrawals or distributions and allocation of (i) Plan investment losses, (ii) depreciation in the value of investments, and (iii) administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements - Continued
December 31, 2010 and 2009

1. Description of Plan - Continued

- (d) *Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

- (e) *Notes Receivable from Participants.* Participants may borrow from their fund accounts a minimum of \$1,000 to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate as determined by the Plan's Trustee or its affiliate plus 1%. Principal and interest are paid ratably through payroll deductions. Outstanding loans must be paid in full prior to the granting of another loan.
- (f) *Payment of Benefits.* On termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.
- (g) *Forfeited Accounts.* At December 31, 2010 and 2009 forfeited nonvested accounts totaled \$5,245 and \$10,772 respectively. These accounts will be used to reduce future employer contributions.

2. Summary of Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Notes to Financial Statements - Continued
December 31, 2010 and 2009

2. Summary of Accounting Policies - Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits. Benefits are recorded when paid.

Operating Expenses. All expenses of maintaining the Plan are paid by the Company.

Subsequent Events. The plan has evaluated subsequent events through July 25, 2011, the date the financial statements were available to be issued.

3. Information Prepared and Certified By Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Wells Fargo Bank, N.A., the trustee.

During 2010, the Plan's investments (including those bought, sold and held during the year) appreciated in value as follows:

Mutual funds \$ 765,759

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- (a) *Level 1.* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- (b) *Level 2.* Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

O.I. Corporation 401(k) Plan
Notes to Financial Statements - Continued
December 31, 2010 and 2009

5. Fair Value Measurements – Continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- (c) *Level 3.* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

- *Mutual funds.* Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009.

Assets at Fair Value as of December 31, 2010

6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Terminated Participant Account Balances

Vested amounts allocated to accounts of persons who have terminated employment with the Company but have not received distributions totaled \$1,412,240 and \$1,215,458 at December 31, 2010 and 2009, respectively.

8. Plan Termination

In November 2010, ITT Corporation acquired O.I. Corporation and under the terms of the agreement O.I. Corporation became a subsidiary of ITT, doing business as O.I. Analytical. Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank. Wells Fargo Bank is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan.

Administrative expenses, including audit fees and trustee fees, paid directly by the Company on behalf of the Plan were \$14,889 and \$12,796 for the years ended December 31, 2010 and 2009, respectively. These fees were paid to Ingram, Wallis & Company, P.C. and Wells Fargo Bank, N.A.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Reclassification

Financial Accounting Standards Board (FASB) Accounting Standard Update (ASU) No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, was issued in September 2010 and is effective for fiscal years ending after December 15, 2010, to amend generally accepted accounting principles (GAAP) related to how loans to participants should be classified and measured by defined contribution pension benefit plans. Previous guidance required loans to participants to be classified as plan investment which are generally measured at fair value as required by FASB *Accounting Standards Codification* (ASC) 962-325-35-1. ASU No. 2010-25 requires that loans to participants be classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. ASU No. 2010-25 has been applied retrospectively to December 31, 2009.
