INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the Codale Electric Supply, Inc. Salary Deferral Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Codale Electric Supply, Inc. Salary Deferral Plan (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 9, which was certified by Principal Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan Administrator by the Trustee is complete and accurate. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CODALE ELECTRIC SUPPLY, INC. SALARY DEFERRAL PLAN

Notes to Financial Statements

- 1. Description of the Plan** The following description of the Codale Electric Supply, Inc. (the Plan Sponsor, Company, or Employer) Salary Deferral Plan (the Plan) provides only general information. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

In July 2010, the Plan restated its plan document to become a multiple employer plan as described in Internal Revenue Code (IRC) Section 413(c). The Plan Sponsor remained the primary employer in the Plan, and its subsidiary, Codale Energy Services and Supply, LLC, was added as an adopting employer. The key provisions of the Plan did not change significantly in the restatement.

General

The Plan is a defined contribution plan which covers full-time employees who have completed 12 consecutive months of service with the Company and are age 18 or older. The Plan was established effective April 1, 1987, is intended to be a qualified retirement plan under the IRC, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Contributions are made to the Plan by both employees and the Plan Sponsor. Participating employees may contribute up to 20% of their annual eligible compensation, not to exceed the dollar limit set by the Internal Revenue Code (IRC). Participants may also make contributions by rollover of distributions from other qualified retirement plans. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions of \$5,500 for 2010. Participants direct the investment of their contributions and related Employer matching contributions into various investment options offered by the Plan.

The Plan Sponsor may make discretionary matching contributions to the Plan for the benefit of each eligible participant at the option of the Plan Sponsor's Board of Directors. During the year ended December 31, 2010, the Plan Sponsor elected to make a discretionary matching contribution to each eligible participant in an amount equal to \$0.50 for each dollar of employee contributions. Additionally, the Plan may make other discretionary contributions to non-highly compensated employees that are allocated proportionally based on those employees' compensation in relationship to total compensation. No other discretionary contributions were made during the year ended December 31, 2010.

1. Description of *Participant Accounts*

the Plan

Continued

Each participant's account is credited with the participant's contributions, the Employer's contributions, and an allocation of the Plan's actual earnings or losses and administrative expenses specifically identified with the participant's investment account. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Employer contributions plus the earnings thereon is based on years of service. Participants vest in Employer contributions as follows:

Years of Service	Vested Interest
Less than 1	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

Forfeitures of nonvested participant account balances are used to offset future Employer contributions or to pay administrative expenses. The forfeitures balance was \$131 and \$3,641 at December 31, 2010 and 2009, respectively. Forfeited balances of \$2,269 plus investment earnings of \$200 were offset against \$3,275 of forfeitures used to fund employer contributions and \$2,704 used to pay administrative expenses, decreasing the overall balance during 2010.

Payment of Benefits

Upon a participant's death, disability, retirement, or termination of employment, a participant or his/her beneficiaries may receive either a lump-sum amount equal to the vested benefits in his/her account, or annual installments over the expected life of the participant or the participant's surviving spouse or other beneficiaries. Under certain circumstances, including financial hardship, participants may withdraw their contributions prior to the occurrence of these events. The Plan Administrator makes determinations related to hardship withdrawals.

Administrative Expenses

Plan administrative expenses are paid by the Plan Sponsor or through the application of forfeitures, or they may be charged to the Plan and deducted from participants' individual accounts. During the year ended December 31, 2010, \$47,498 of administrative expenses were paid by the Plan.

Notes Receivable from Participants
Notes receivable from participants were previously allowed by the Plan. However, the Plan has been amended to disallow any new notes. One note receivable remained outstanding as of December 31, 2010 and 2009, which note is scheduled to be paid in full by 2014. The balance of the note receivable as of December 31, 2010 and 2009 was \$9,126 and \$11,431, respectively.
- 2. Summary of Significant Accounting Policies**

Basis of Accounting
The accompanying financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Financial accounting standards require the Plan to report investment contracts at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Therefore, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

2. Summary of Significant Accounting Policies *Continued*

Investment Valuation and Income Recognition

The Plan holds investments in pooled separate accounts of Principal Life Insurance Company (Principal). The pooled separate accounts and the investment in the common/collective trust are stated at fair value based on their net asset values. Principal determines the net asset unit values by dividing the pooled separate accounts' and common/collective trust's net assets at fair value by their units outstanding at the valuation date. Mutual funds, common stocks and preferred stocks are valued at fair value based on quoted market prices.

In general, these securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Net appreciation (depreciation) in the fair value of investments includes realized and unrealized gains (losses) on investments, and is recognized in income currently. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Dividends and interest are reinvested as earned.

Note Receivable from Participant

Note receivable from participant is measured at its unpaid principal balance plus any accrued but unpaid interest, and is secured by the participant's account balance. Interest income is recognized over the terms of the note at the rate specified in the loan document. Fees related to the note receivable from participant are recorded as administrative expenses when they are incurred. If a participant defaults, the carrying amount of the note receivable from the participant is eliminated and a benefit payment is recorded at the time the participant has a distributable event. Only one note receivable was outstanding as of December 31, 2010 and 2009. The note matures in 2014. As of December 31, 2010 and 2009, the note receivable from participant was \$9,126 and \$11,431, respectively.

Payments of Benefits

Benefits are recorded when paid by the Plan.

Subsequent Events

The Plan Administrator has evaluated events occurring subsequent to year end through the audit report date, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued by unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2010 and 2009.

3. Plan Investments *Continued*

The fair values of the Plan's investments in pooled separate accounts managed by Principal have been estimated using the net asset value per unit of the investments. Major categories of pooled separate accounts in which the fund holds investments are as follows:

Balanced / Asset Allocation Separate Accounts

These accounts invest in portfolios of the Principal Investors Fund, Inc., with the intent to give the accounts broad exposure to the domestic and foreign equity and fixed income markets.

Bond and Mortgage Separate Account

This separate account invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and US government and agency-backed securities. Value is added primarily through sector allocation and security selection. It may enter into reverse repurchase agreements to attempt to enhance portfolio return and income.

U.S. Property Separate Account

This separate account invests the majority of assets in commercial real estate holdings. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. The property holdings usually contain real estate from the multi-family, office, warehouse, manufacturing, and retail sectors.

Large Cap Separate Accounts

These accounts invest primarily in equity securities of large, established corporations located within the United States, and to a limited extent, similar foreign companies. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than Principal.

Small Cap Separate Accounts

These accounts invest primarily in equity securities of companies with small market capitalizations. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than Principal.

CODALE ELECTRIC SUPPLY, INC. SALARY DEFERRAL PLAN

Notes to Financial Statements

3. Plan Investments *Continued*

Mid Cap Separate Accounts

These accounts invest primarily in equity securities of companies with medium market capitalizations, and mutual funds invested in common stocks of such companies. Investments in these accounts may also include stock index futures, commercial paper, over the counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than Principal.

In general, transfers and payments from a pooled separate investment account will be made within seven business days after the first valuation date following receipt of a written request. However, Principal reserves the right, under certain circumstances, to defer such transfers and payments up to 270 days, except for investments in accounts invested in real estate (such as the Principal U.S. Property Separate Account), for which requested transfers and payments may, under certain circumstances, be deferred up to three years. Such limitations on redemption do not apply to the payments to a beneficiary of a participant due to the participant's death or payments to a participant due to disability or retirement under the Plan. Principal will provide written notification in the event of a deferment in excess of 30 days. As of December 31, 2010, Plan management has not received notice of any such deferments.

4. Fair Value Measurements

Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, the fair value hierarchy prioritizes observable and unobservable inputs used to measure fair value into three broad levels. These levels, in order of highest priority to lowest priority, are described as follows:

Level 1 – Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities.

Level 2 – Observable prices other than level 1 that are based on inputs quoted in less active markets or other observable inputs that can be corroborated by observable market data.

Level 3 – Unobservable inputs supported by little or no market data for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

4. **Fair Value Measurements**
Continued
- The following table sets forth information summarizing the changes in fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Pooled Separate Accounts
Beginning balance as of January 1, 2010	\$ 227,391
Principal repayments	-
Gains	25,682
Purchases, Issuances, Settlements	<u>(130,613)</u>
Ending balance as of December 31, 2010	<u>\$ 122,460</u>

5. **Plan Termination**
- Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. **Income Tax Status**
- The Plan has adopted a non-standardized prototype plan which has obtained a favorable tax opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the non-standardized prototype plan is qualified under the appropriate sections of the IRC. The Plan Sponsor believes the Plan continues to operate in accordance with the requirements to qualify for tax-exempt status. Accordingly, no provision for income taxes is included in the accompanying financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

7. Party-in-Interest Transactions

Plan investments include units of pooled separate accounts and a common/collective trust totaling \$5,124,704 and \$4,431,011 as of December 31, 2010 and 2009, respectively, managed by Principal Trust Company, the Trustee of the Plan. These investments and transactions are exempt party-in-interest transactions. The note receivable from participant is also a party-in-interest transaction.

8. Common/Collective Trust

The Gartmore Morley Stable Value Fund (the Fund) offers a diversified group of investments with competitive levels of yield consistent with a stable fixed-income methodology and a prudent assumption of investment risk. The Fund provides stability of returns, liquidity to pay plan benefits and a high credit quality by investing in conventional, synthetic and separate account investment contracts (collective contracts) issued by life insurance companies, banks and other financial institutions. These contracts allow for their principal value to remain stable regardless of the volatility of the financial markets. The trustee is authorized to employ the services of an investment advisor for the Fund, which is Morley Capital Management Inc., a wholly owned subsidiary of the Principal Financial Group.

Investments held by a collective investment trust are required to be reported at fair value. The statements of assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. As of December 31, 2010, the Fund's contract value was \$871,424 with a fair value of \$889,222. As of December 31, 2009, the Fund's contract value was \$870,333 with a fair value of \$876,214. The Plan's interest in the assets of the stable value fund was less than 0.01 percent as of December 31, 2010.

The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Below is a summary of the average contract yield in the aggregate for all contracts as of December 31:

Average Yields	2010	2009
Based on actual earnings	2.00%	2.00%
Based on interest rate credited to participants	2.81%	2.21%

**8. Common/
Collective
Trust**

The Fund's contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestiture or spin-off of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA). The Plan Administrator does not believe that the occurrence of any event which would limit the Plan's ability to transact at contract value with participants is probable.

The Fund may terminate the investment contract with the Plan by providing 12 months advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by federal law, failure to render performance necessary to comply with the terms of the contract, Plan disqualification and failure to adopt the Plan in a reasonable period of time. Upon termination by the Fund, a market value adjustment may apply.

**9. Trustee
Certification**

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under that election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Trust Company, the Trustee of the Plan, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and the supplemental schedule:

- The investment assets of the Plan.
- The recording of Plan investment transactions, including investment earnings (losses).
