1. Description of the Plan

Method Products, Inc. (the Company) established the People Against Dirty 401(k) Plan (the Plan), effective September 30, 2005, to provide participants with a means to fund their retirement on a tax-deferred basis. The Plan was amended and restated effective June 1, 2009 and further amended on December 31, 2009 and November 23, 2010. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan under Section 401(a) and 401(k) and related provisions of the Internal Revenue Code (the Code). Company employees may participate in the Plan starting the first day of the month coinciding with or following their first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is the Plan sponsor and Plan administrator. Select employees of the Company serve as the Plan trustees, help administer the Plan and are responsible for selecting the investment options offered under the Plan and monitoring investment performance. Standard Insurance Company (The Standard) serves as the Plan's investment custodian. The Standard holds, invests and reinvests Plan assets in the interest of and at the direction of the participants and their beneficiaries. Participants may choose to invest their account balances in a variety of investment choices offered by the Plan that are designed to provide a full range of investment options. A participant may change his or her choice of investment at any time.

Contributions:

Participants may contribute a percentage of their pre-tax annual compensation, as defined under the Plan. Participants that have reached the age of 50 may also elect to withhold additional catch-up contributions under the Code. The Plan allows participants to make additional after-tax contributions to the Plan. Participants may also contribute amounts representing distributions from other tax-qualified plans (rollovers). The Company may make discretionary employer matching contributions as determined by the Company's Board of Directors. Effective May 1, 2009, the Company temporarily suspended its matching contributions.

Contributions are subject to certain limitations under the Code.

1. Description of the Plan (continued)

Participant Accounts:

Participant accounts are credited with participant contributions, Company matching contributions, rollovers and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, in accordance with Plan provisions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions are participant directed.

Certain maintenance and loan fees are charged to the Plan and allocated to participant accounts. Participants should refer to the Plan documents for further information on these fees.

Vesting:

Participants are fully vested (100%) in their account balances.

Notes Receivable from Participants:

In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-25, *Plan Accounting – Defined Contribution Pension Plans* (ASU 2010-25) that requires defined contribution pension plans to report participant loans as notes receivable from participants and classify the notes outside of investments on a plan's statement of net assets available for benefits. The change is effective for all Plan years ending after December 15, 2010 and will apply retrospectively to all periods presented. The Plan adopted ASU 2010-25, effective January 1, 2010, and has applied it retrospectively to the statement of net assets available for benefits as of December 31, 2009.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement. Note receivable transactions with participants qualify as party-in-interest transactions.

1. Description of the Plan (continued)

Notes Receivable from Participants: (continued)

Participants may borrow a minimum of $1,000, up to one-half of his or her vested account balance, not to exceed $50,000, for a period not to exceed five years, except for notes used to purchase a primary residence for which terms of up to ten years are permitted. Participant notes are evidenced by a written note, secured by the balance in the participant's account, and bear interest at rates that are commensurate with local prevailing rates, as determined by the Plan administrator under the loan policy. All notes receivable at December 31, 2010 have interest rates of 3.25%. Repayment of principal and interest is generally made through payroll deductions.

Payment of Benefits:

On termination of service, benefits are paid in a lump-sum cash distribution equal to the value of the participant's interest in his or her account or in regular cash installment payments of his or her choice. Upon termination, the Plan may immediately elect to distribute a participant's account balance if the balance is less than $1,000. Benefits are recorded when paid.

Administrative Expenses:

Expenses to administer the Plan are generally paid by the Company and are not reflected in the Plan's financial statements.

Risks and Uncertainties:

Participants may invest their account balances in a variety of investment options offered by the Plan. Investments are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment options offered by the Plan, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, at any time, subject to the provisions of ERISA. In the event of Plan termination, participants would remain fully vested in their accounts and distributions will be made to participants as described in the Plan agreement.

2. Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition:

Plan investments held by The Standard are comprised of a general fund and pooled separate accounts as follows:

General Fund Account: The guaranteed income account is a part of The Standard's general fund account. Investments held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for that portion of the Plan assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through this guaranteed income account. As a result, the Plan presents the fair value of the guaranteed income account and then reflects the adjustment of its fair value to contract value on the statements of net assets available for benefits. The statement of changes in net assets available for benefits is presented at contract value.

Pooled Separate Accounts: These accounts are separate from The Standard's general fund account and consist of shares in various mutual funds. The investment in each separate account is expressed in 'units.' The value of each separate account is recorded at the close of each business day at fair value based on 'unit value' reported by The Standard. The unit value is calculated by dividing the value of the entire account by the total number of units in the account. The value of each separate account on any date is determined by multiplying the number of units held by the unit value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold or held during the year.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events:

Subsequent events have been evaluated through the date of the independent auditors' report, which is the date the financial statements were approved by the Plan and available to be issued.

3. Information Prepared and Certified by The Standard

The Standard, as the Plan's investment custodian, has certified the current value of the following assets held at December 31, 2010 and 2009, and income earned during the year ended December 31, 2010, that were used in the preparation of the accompanying financial statements and supplemental schedule. The following table presents the fair value of investments, except for the guaranteed income account reported at contract value, and separately reflects investments that represent 5% or more of the Plan's net assets, at December 31:

	2010	2009
Stable Asset Fund II	$ 725,858	$ 671,465
Vanguard 500 Index Fund Separate Account	572,975	473,255

Other funds individually less than 5% of net assets	710,246	575,187
Net assets held for investment purposes	$ 4,293,629	$ 3,455,317

3. Information Prepared and Certified by The Standard (continued)

The Plan's investments (including investments bought, sold and held during the year) appreciated as follows for the year ended December 31, 2010:

Pooled separate accounts	$ 488,120
Guaranteed income account	11,758
Total	$ 499,878

4. Fair Value Measurements

The Plan uses a three-level hierarchy that prioritizes the inputs used in valuation techniques for determining fair value of investments and making disclosures about fair value measurements. The Plan defines fair value as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date.

The three-level hierarchy for fair value measurement is defined as follows:

Level 1: Quoted prices in active markets that are accessible at the measurement date for identical investments, unrestricted assets or liabilities.

Level 2: Quoted prices in active markets that are accessible at the measurement date for similar investments, quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Level 3: Significant unobservable inputs, including the Plan's own assumptions, are used in determining the fair value of investments.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. If available, quoted market prices are used to value investments.

4. Fair Value Measurements (continued)

In January 2010, FASB issued ASU No. 2010-06, *Improving Disclosures about Fair Value Measurements and Disclosures* (ASU 2010-06) to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. The Plan adopted ASU 2010-06 on January 1, 2010.

Investments at fair value at December 31, 2010 are as follows:

Investments	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Bond accounts	$ -	$ 112,575	$ -	$ 112,575
Growth accounts	-	1,509,347	-	1,509,347
Blend accounts	-	1,121,505	-	1,121,505
Value accounts	-	824,344	-	824,344
Total separate accounts	$ -	$ 3,567,771	$ -	$ 3,567,771

Investments at fair value at December 31, 2009 are as follows:

Investments	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Bond accounts	$ -	$ 82,207	$ -	$ 82,207
Growth accounts	-	1,136,983	-	1,136,983
Blend accounts	-	932,470	-	932,470
Value accounts	-	632,192	-	632,192
Total separate accounts	$ -	$ 2,783,852	$ -	$ 2,783,852

5. Income Tax Status

The Plan is a prototype plan offered by The Standard, which has obtained an opinion letter from the Internal Revenue Service stating that the plan submitted for review qualifies under applicable provisions of the Code. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal and state income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administer believes the Plan is no longer subject to income tax examinations for the years prior to 2007.

6. Investment Contract with Insurance Company

The Plan entered into a fully benefit-responsive investment contract with The Standard. The Standard maintains the guaranteed interest account in its general fund. Assets in the account are invested primarily in investment-grade securities and commercial mortgages. The account is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value based on the contractual terms of the underlying assets. The adjustment from fair value to contract value is based on the contract value as reported to the Plan by The Standard. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Standard may terminate the contract with a 30 day advance written notice for reasonable cause, as defined in the contract.

6. Investment Contract with Insurance Company (continued)

Certain events limit the Plan's ability to fully collect the contract value. Such events include the following: (a) termination of the contract; (b) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (c) liberalization of Plan withdrawal or transfer rules; (d) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (e) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $747,634 and $670,190, respectively.

The average yield earned on the guaranteed interest account was 1.60% in 2010.
