The Plan Administrator
Toledo Molding & Die, Inc.
Salaried Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Toledo Molding & Die, Inc. Salaried Retirement Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009, and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year), as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 3, which was certified by Fifth Third Bank, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Trustee as of and for the years then ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TOLEDO MOLDING & DIE, INC.
SALARIED RETIREMENT PLAN

Notes to Financial Statements
December 31, 2010 and 2009

Note 1 – Description of Plan

The following description of the Toledo Molding & Die, Inc. Salaried Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions. The Plan agreement may be obtained at the administrative offices of Toledo Molding & Die, Inc. (the Company, Plan Sponsor and Plan administrator).

General

The Plan was adopted by the Company effective January 1, 1991 and restated effective January 1, 2002. The Plan is a savings plan covering all salaried employees, as defined by the Plan agreement.

Contributions

Participants may elect to defer up to 50% of annual earnings, as defined by the Plan. The Company may make discretionary matching contributions to the Plan, based on the formula as determined annually by the Company. Effective January 1, 2009, the Company ceased making discretionary matching contributions to the Plan. During 2010, discretionary matching contributions totaling \$.50 for every \$1 of participant contributions not exceeding 6% of compensation per participant were reinstated.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants become fully vested in the total value of their account.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of Plan earnings (losses). The allocation of Plan earnings (losses) is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account. Participants direct the investment of their account balances among the investment funds offered by the Plan.

TOLEDO MOLDING & DIE, INC.
SALARIED RETIREMENT PLAN

Notes to Financial Statements
December 31, 2010 and 2009

Note 1 – Description of Plan (continued)

Vesting

Upon retirement, total and permanent disability before retirement, or death, participants (or their beneficiaries) are entitled to receive the full value of their accounts. Upon termination of employment for any reason other than retirement, total and permanent disability, or death, a participant is entitled to the vested interest in his or her account. Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Vesting of employer contributions is based upon years of continuous service. A participant's account vests ratably, becoming fully vested after five years of credited service.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts may be used to reduce Company contributions.

Administrative Costs

Administrative costs, as rendered by parties-in-interest, are paid by the Company (for audit and other services) and by the Plan (for loan fees).

Notes Receivable from Participants

Participants are permitted loans up to the lesser of \$50,000 or 50% of their vested account balance. Participants should refer to the Plan agreement for a complete description of loan provisions.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Benefit payments to participants are recorded upon distribution.

TOLEDO MOLDING & DIE, INC.
SALARIED RETIREMENT PLAN

Notes to Financial Statements
December 31, 2010 and 2009

Note 2 – Significant Accounting Policies (continued)

Basis of Accounting (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis. This applies even when the investment contracts are not held directly by the plan but are underlying assets in a common/collective trust (CCT) investment held by the plan.

Accounting standards now require participant loans to be segregated from plan investments and measured at their unpaid principal balance plus accrued interest. Accordingly, the Plan's participant loans have been reported as notes receivable from participants in the statements of net assets available for benefits as of December 31, 2010 and 2009, and participant loan interest has been excluded from investment income in the related statements of changes in net assets available for benefits for the years then ended. In addition, participant loans have been excluded from the fair value disclosures at Note 5. Adoption of this standard represents a reclassification within the financial statements and had no impact on net assets available for benefits or changes therein.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's investments are held at Fifth Third Bank, the Plan's Trustee.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value.

Common/collective trust funds represent investments with various investment managers. Units held in CCTs, including stable value funds, are fair valued at the unit value as reported by the investment managers. CCTs are not available in an exchange and active market; however, the fair value is determined based on the underlying investments as traded in an exchange and active market. The Plan holds shares of the Fifth Third Stable Value Fund.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from participants are recorded based on payroll deductions from the Plan participants in the period in which such amounts are withheld. Contributions from the Company are accrued in the period in which they become obligations of the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2010 and 2009, net appreciation (depreciation) in fair value of mutual funds, net gain on CCT, and dividends and interest for the years then ended, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

Note 4 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 5 - Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value, as of December 31, 2010 and 2009. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Note 6 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2008, that the Prototype Non-standardized Profit-Sharing Plan with CODA (the prototype plan of the Trustee upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Note 7 – Subsequent Events

Management has evaluated subsequent events through July 20, 2011, the date the financial statements were issued, and determined that no events have occurred that require additional disclosure.
