Independent Auditor's Report

To the Employee Pension and Savings Plans Committee and Participants of
The Employee Pension Plan of Applied Biosystems, Inc.

We were engaged to audit the accompanying statements of net assets available for benefits and of accumulated plan benefits of The Employee Pension Plan of Applied Biosystems (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2010, and the six months ended December 31, 2009, and the supplemental schedules. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Northern Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2010, and as of and for the six months ended December 31, 2009, and as of June 30, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Asset methods

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Variable benefit valuation

As a result of the July 1, 2008 plan amendment to include a floor benefit for participants with a variable benefits equal to the value of the benefit they would have received had they elected the fixed benefit throughout their career, the unit value is projected as follows:

- Prior to reflecting the impact of mortality gains and losses, the Unit Value is assumed to grow at the segment rates.
- The Unit Value is also expected to be impacted by future mortality gains and losses. Expected mortality losses due to the mortality used to determine the Variable Benefit (A49 Mortality Tables) compared to PPA Mortality are included in the projection of Variable Benefits.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount".

Schedule SB, Part V — Summary of Plan Provisions

Effective date and plan year	<p>Original plan: July 31, 1953, as amended effective December 31, 2009.</p> <p>Plan year: The Plan Year is the calendar year. Prior to January 1, 2010, the plan year was the 12-month period beginning on each July 1. There was an 11-month Plan Year from August 1, 1992 through June 30, 1993. From August 1, 1988 through July 31, 1992 the Plan Year was August 1 through July 31. Prior to August 1, 1988, the Plan Year was July 31 to July 30.</p>
Status of the plan	The participation in the plan and benefit accruals were frozen as of June 30, 2004.
Significant events that occurred during the year	None
Eligibility	Employees hired after July 1999 are not covered by the Plan. Effective August 1, 1991 each employee of the company becomes a participant on the first admission date (i.e., the first day of any payroll period) coinciding with or next following the date on which he is hired.
Employee Contributions	<p>The plan does not require participant contributions.</p> <p>Prior to July 31, 1984 each participant contributed 2% of compensation to the plan. If the employee elected to participate in the variable annuity portion of the plan, $\frac{1}{2}$ of the contribution was allocated to the Fixed Benefit fund and $\frac{1}{2}$ to the Variable Annuity fund. Otherwise, the total contribution was allocated to the Fixed Benefit fund.</p> <p>Fixed Benefit fund contributions are credited with interest at 5 $\frac{1}{4}$ % per annum from August 1, 1972 and are credited with interest at 120% of Applicable Federal Midterm Rates from August 1, 1988.</p>
Continuous Service to September 30, 1995	Continuous Service to September 30, 1995 is measured in elapsed time from the period of employment since the last day of hire, but not before July 31, 1984 for employees who participate on or after July 31, 1984.
Continuous Service since October 1, 1995	<p>Continuous service from (a) October 1, 1995, for an employee employed on that date or (b) the first day of the month coincident with or next following an employee's hire date for an employee not employed on October 1, 1995, and ending on the first day of the month coincident with or next following the employee's termination date.</p> <p>For purposes of benefit service, measurement ends at the earlier of the employee's termination date and June 30, 2004.</p>
Vesting Service	Continuous service plus any period of severance of a duration of less than twelve months.
Years of Service	Sum of continuous service to September 30, 1995 and continuous service on or after October 1, 1995.

Schedule SB, Part V — Summary of Plan Provisions

Final Average Monthly Compensation	Highest average monthly compensation over 36 months after September 30, 1995 out of the last 120 months. If the participant has less than 36 months after September 30, 1995, the average is taken over all months after September 30, 1995 prior to the earlier of the termination of employment and June 30, 2004.
Covered Compensation	Average of the taxable wage bases in effect for the Plan Year in which the participant terminates during the 35-year period ending in the year which the participant attains social security retirement age.
Qualified Compensation	Payments accrued for a Fiscal year paid from the Contingent Compensation and Incentive Compensation Plan.
Final Average Qualified Compensation	Highest average Qualified Compensation over 3 consecutive Fiscal Years commencing after June 30, 1995 out of the 10 Fiscal years prior to the earlier of termination of employment and June 30, 2004.
Qualified Years of Service	Continuous service from the later of July 1, 1995 or the first day of a Fiscal Year in which an employee participates in the Contingent Compensation or Incentive Compensation Plan until the first day of the month coincident with or next following the earlier of termination of employment and June 30, 2004.
Normal Retirement	
Eligibility	<p>Attainment of age 65 and completion of 5 years of continuous service.</p> <p>A participant who was employed prior to August 1, 1989, is eligible to retire and receive normal retirement benefit on or after attainment of age 65, regardless of service.</p>

Schedule SB, Part V — Summary of Plan Provisions**Normal Retirement (continued)**

Benefit

The Plan was amended effective June 30, 1999 to freeze benefit accruals effective June 30, 2004.

The annual retirement benefit is equal to the sum (1) and (2) where:

- (1) For service on or after October 1, 1995; the sum of (a), (b) and (c) where:
 - (a) 1.4% of final average monthly compensation,

plus

0.5% of final average monthly compensation in excess of monthly covered compensation.

The sum multiplied by Years of service at earlier of termination date and June 30, 2004 not greater than 35, minus any years of service not in excess of 35 included in (2) below.
 - (b) 1.7% of final average monthly compensation multiplied by years of service at earlier of termination date and June 30, 2004 in excess of 35 not including years of service in excess of 35 included in (2) below.
 - (c) 1.5% of final average qualified compensation multiplied by qualified years of service at earlier of termination date and June 30, 2004.
 - (2) For service prior to October 1, 1995; the sum of the benefit accrued to July 31, 1989 under the prior formula plus, with respect to each year of service after July 31, 1989, a benefit provided by (a), (b), (c) or (d) below.
 - (a) If an employee participated in the Fixed Benefit only and had less than 35 years vesting service:

1.4% of compensation

plus

0.5% of compensation in excess of covered compensation
 - (b) If an employee participated in the Fixed Benefit only and had over 35 years of vesting service:

1.7% of compensation
 - (c) If an employee participated in the Variable Annuity:

The Fixed Benefit accrual is one half of what would have been the accrual if the employee participated in the Fixed Benefit only.

Schedule SB, Part V — Summary of Plan Provisions

Normal Retirement (continued)

Benefit (continued)	<p>The Variable Annuity portion is the benefit based upon the value at termination of the accumulated company and employee Variable Annuity units accrued at September 30, 1995. The annual Variable Annuity units credited on behalf of the participant is the amount necessary to provide an annual benefit at age 65 equal to the Fixed Benefit accrual assuming that the Variable Annuity unit value increases at 3 ½% per annum to retirement. The Variable Annuity benefit is determined by multiplying the number of Variable Annuity benefit units credited to the participant at retirement by the Variable Annuity unit value as of the most recent valuation date preceding the date of retirement. Effective July 1, 2008, the Variable Benefit paid to a retiree will not be less than the benefit the participant would have received as a Fixed Benefit had they not elected to participate in the Variable Benefit.</p> <p>(d) Applied Biosystems employees became plan participants on July 1, 1993. A past service benefit equal to 0.75% of an employee's pay rate at the participation date times the completed years and months of service to participation date was granted under the Fixed Benefit fund.</p>
---------------------	---

Early Retirement

Eligibility	<p>Attainment of age 55 and completion of 5 years of continuous service.</p> <p>A participant who was employed prior to August 1, 1989 is eligible to retire and receive an early retirement benefit on or after attainment of age 60 with no service requirement.</p>
Benefit	<p>Accrued benefit as of the earlier of June 30, 2004 and the participant's early retirement date, reduced by ¼ of 1% for each month early retirement precedes normal retirement for participants who worked at least 1 hour on or after July 1, 1999, otherwise reduced by ¼ of 1% for the first 60 months and ½ of 1% for each additional month by which early retirement precedes normal retirement.</p>
Postponed Retirement	<p>A participant who continued active employment with the company beyond normal retirement date is eligible for postponed retirement benefits. The benefit is the amount the participant accrues under the terms of the plan to his actual retirement date based on compensation and service to that date, no later than June 30, 2004.</p>
Disability Retirement	
Eligibility	<p>A participant is eligible for disability retirement benefits if he is totally and permanently disabled so as to be unable thereby to engage in any employment.</p>

Schedule SB, Part V — Summary of Plan Provisions

Disability Retirement (continued)

Benefit	<p>Immediate benefit equal to the accrued retirement benefit reduced as provided in early retirement for the months between ages 55 and 65 and further reduced on an actuarial basis for the period in excess of 120 months by which disability benefits commencement precedes normal retirement.</p> <p>In lieu of an immediate benefit the participant, at his option, may continue to accrue future benefits under the plan based on his salary at date of disability to his normal retirement date, at which time he would be entitled to receive the then accrued normal retirement benefit. Benefit accruals cease after June 30, 2004.</p>
Vested Benefit	
Eligibility	Completion of 5 years of continuous service.
Benefit	Accrued benefit at earlier of date of termination of employment and June 30, 2004, payable at age 65. A terminated vested participant may elect to have monthly benefits commence on the first day of any month following attainment of age 55. The vested retirement benefit, for a participant electing early commencement of benefits, will be reduced based on <i>true actuarial reduction factors</i> to adjust for the early commencement of benefits.
Termination of Employment	A participant who terminates employment prior to 5 years of continuous service is not eligible for a plan benefit other than a return of his contributions to the Fixed Benefit fund with interest, plus the value of the Variable Annuity units arising from his contributions to the Variable Annuity fund, if applicable.
Death Benefit	
Eligibility	Death of a participant after completing 5 years of continuous service. Benefit payable to surviving spouse.

Schedule SB, Part V — Summary of Plan Provisions**Death Benefit (continued)**

Benefit	<p>If the participant's death occurs after qualifying for an early retirement pension, the surviving spouse is entitled to a pension benefit equal to 50% of the pension the participant would have received if he had received if he had retired on the day before his death and elected a 50% joint and survivor option.</p> <p>If the participant's death occurs before qualifying for an early retirement pension, the surviving spouse is entitled to a pension benefit equal to 50% of the participant's vested pension as of the date of death reduced for early commencement to the earliest retirement age at which the participant is eligible for benefits and reduced to the election of a 50% joint and survivor option. In this event the benefit payable to the surviving spouse will commence on the date the participant would have attained age 55.</p> <p>An active participant who is eligible for early retirement benefits may elect to provide the surviving spouse death benefit coverage under a 100% joint and survivor benefit option. If this increase in coverage is elected all benefits payable under the plan are reduced by 0.03% for each month the increased surviving spouse death coverage is in effect.</p> <p>In no event will the death benefit paid be less than the participant's contribution to the Fixed Benefit fund with interest, plus the value of the Variable Annuity units arising from the participant's contributions to the Variable Annuity fund.</p> <p>In the event of death after retirement, unless an optional form of benefit is in effect to the contrary, any excess of the participant's contributions over the retirement benefits paid is payable.</p>
Normal Form of Benefit Payment	<p>Life Annuity.</p> <p>A married participant will be deemed to have elected to receive benefits under the 50% joint and survivor option, with his spouse as contingent annuitant, unless an alternative election is made.</p>
Optional Benefits	<p>Optional benefits may be elected as follows:</p> <ul style="list-style-type: none"> (a) Joint and survivor options with 100%, 75%, 66-2/3%, 50% or 33-1/3% of reduced annual retirement benefit being paid to the contingent annuitant; (b) 5 or 10-year certain with life options, (c) Social Security Adjustment option excluding benefits attributable to the participant's Accumulated Variable Annuity Units. <p>Any form of benefit payment other than a qualified joint and survivor annuity must be approved by the participant's spouse and the spouse's approval must be notarized.</p>

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

- The plan was amended to comply with PPA requirements.
- The plan year was changed from a July 1 plan year to a calendar year plan year beginning with the January 1, 2010 plan year.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as amended effective December 31, 2009 are included in this valuation.

- **Most recent plan amendments included:** The amendment effective December 31, 2009 is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued including the late retirement increase.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Significant events

To the best of our knowledge, no events occurred during the year that would significantly affect the valuation results.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- The form of payment elected by active and vested terminated participants was changed from 100% assumed to elect payment in the form of a single life annuity to 40% assumed to elect payment in the form of a single life annuity, 40% in the form of a 50% joint and survivor annuity and 20% in the form of a 100% joint and survivor annuity to reflect actual historical experience and expectations of future plan experience.

Schedule SB, Line 25 — Change in Method

The asset valuation method changed from the average of the market value of assets as of the valuation date and the prior two years (adjusted for cash flow and expected earnings to the end of the year) to the fair market value. This change qualifies for automatic IRS approval.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Asset methods

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Variable benefit valuation

As a result of the July 1, 2008 plan amendment to include a floor benefit for participants with a variable benefits equal to the value of the benefit they would have received had they elected the fixed benefit throughout their career, the unit value is projected as follows:

- Prior to reflecting the impact of mortality gains and losses, the Unit Value is assumed to grow at the segment rates.
- The Unit Value is also expected to be impacted by future mortality gains and losses. Expected mortality losses due to the mortality used to determine the Variable Benefit (A49 Mortality Tables) compared to PPA Mortality are included in the projection of Variable Benefits.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount".

Schedule SB, Part V — Summary of Plan Provisions

Effective date and plan year	<p>Original plan: July 31, 1953, as amended effective December 31, 2009.</p> <p>Plan year: The Plan Year is the calendar year. Prior to January 1, 2010, the plan year was the 12-month period beginning on each July 1. There was an 11-month Plan Year from August 1, 1992 through June 30, 1993. From August 1, 1988 through July 31, 1992 the Plan Year was August 1 through July 31. Prior to August 1, 1988, the Plan Year was July 31 to July 30.</p>
Status of the plan	The participation in the plan and benefit accruals were frozen as of June 30, 2004.
Significant events that occurred during the year	None
Eligibility	Employees hired after July 1999 are not covered by the Plan. Effective August 1, 1991 each employee of the company becomes a participant on the first admission date (i.e., the first day of any payroll period) coinciding with or next following the date on which he is hired.
Employee Contributions	<p>The plan does not require participant contributions.</p> <p>Prior to July 31, 1984 each participant contributed 2% of compensation to the plan. If the employee elected to participate in the variable annuity portion of the plan, $\frac{1}{2}$ of the contribution was allocated to the Fixed Benefit fund and $\frac{1}{2}$ to the Variable Annuity fund. Otherwise, the total contribution was allocated to the Fixed Benefit fund.</p> <p>Fixed Benefit fund contributions are credited with interest at $\frac{1}{4}$ % per annum from August 1, 1972 and are credited with interest at 120% of Applicable Federal Midterm Rates from August 1, 1988.</p>
Continuous Service to September 30, 1995	Continuous Service to September 30, 1995 is measured in elapsed time from the period of employment since the last day of hire, but not before July 31, 1984 for employees who participate on or after July 31, 1984.
Continuous Service since October 1, 1995	<p>Continuous service from (a) October 1, 1995, for an employee employed on that date or (b) the first day of the month coincident with or next following an employee's hire date for an employee not employed on October 1, 1995, and ending on the first day of the month coincident with or next following the employee's termination date.</p> <p>For purposes of benefit service, measurement ends at the earlier of the employee's termination date and June 30, 2004.</p>
Vesting Service	Continuous service plus any period of severance of a duration of less than twelve months.
Years of Service	Sum of continuous service to September 30, 1995 and continuous service on or after October 1, 1995.

Schedule SB, Part V — Summary of Plan Provisions

Final Average Monthly Compensation	Highest average monthly compensation over 36 months after September 30, 1995 out of the last 120 months. If the participant has less than 36 months after September 30, 1995, the average is taken over all months after September 30, 1995 prior to the earlier of the termination of employment and June 30, 2004.
Covered Compensation	Average of the taxable wage bases in effect for the Plan Year in which the participant terminates during the 35-year period ending in the year which the participant attains social security retirement age.
Qualified Compensation	Payments accrued for a Fiscal year paid from the Contingent Compensation and Incentive Compensation Plan.
Final Average Qualified Compensation	Highest average Qualified Compensation over 3 consecutive Fiscal Years commencing after June 30, 1995 out of the 10 Fiscal years prior to the earlier of termination of employment and June 30, 2004.
Qualified Years of Service	Continuous service from the later of July 1, 1995 or the first day of a Fiscal Year in which an employee participates in the Contingent Compensation or Incentive Compensation Plan until the first day of the month coincident with or next following the earlier of termination of employment and June 30, 2004.
Normal Retirement	
Eligibility	<p>Attainment of age 65 and completion of 5 years of continuous service.</p> <p>A participant who was employed prior to August 1, 1989, is eligible to retire and receive normal retirement benefit on or after attainment of age 65, regardless of service.</p>

Schedule SB, Part V — Summary of Plan Provisions**Normal Retirement (continued)****Benefit**

The Plan was amended effective June 30, 1999 to freeze benefit accruals effective June 30, 2004.

The annual retirement benefit is equal to the sum (1) and (2) where:

- (1) For service on or after October 1, 1995; the sum of (a), (b) and (c) where:

- (a) 1.4% of final average monthly compensation,
plus

0.5% of final average monthly compensation in excess of monthly covered compensation.

The sum multiplied by Years of service at earlier of termination date and June 30, 2004 not greater than 35, minus any years of service not in excess of 35 included in (2) below.

- (b) 1.7% of final average monthly compensation multiplied by years of service at earlier of termination date and June 30, 2004 in excess of 35 not including years of service in excess of 35 included in (2) below.

- (c) 1.5% of final average qualified compensation multiplied by qualified years of service at earlier of termination date and June 30, 2004.

- (2) For service prior to October 1, 1995; the sum of the benefit accrued to July 31, 1989 under the prior formula plus, with respect to each year of service after July 31, 1989, a benefit provided by (a), (b), (c) or (d) below.

- (a) If an employee participated in the Fixed Benefit only and had less than 35 years vesting service:

1.4% of compensation

plus

0.5% of compensation in excess of covered compensation

- (b) If an employee participated in the Fixed Benefit only and had over 35 years of vesting service:

1.7% of compensation

- (c) If an employee participated in the Variable Annuity:

The Fixed Benefit accrual is one half of what would have been the accrual if the employee participated in the Fixed Benefit only.

Schedule SB, Part V — Summary of Plan Provisions**Normal Retirement (continued)**

Benefit (continued)	<p>The Variable Annuity portion is the benefit based upon the value at termination of the accumulated company and employee Variable Annuity units accrued at September 30, 1995. The annual Variable Annuity units credited on behalf of the participant is the amount necessary to provide an annual benefit at age 65 equal to the Fixed Benefit accrual assuming that the Variable Annuity unit value increases at 3 ½% per annum to retirement. The Variable Annuity benefit is determined by multiplying the number of Variable Annuity benefit units credited to the participant at retirement by the Variable Annuity unit value as of the most recent valuation date preceding the date of retirement. Effective July 1, 2008, the Variable Benefit paid to a retiree will not be less than the benefit the participant would have received as a Fixed Benefit had they not elected to participate in the Variable Benefit.</p> <p>(d) Applied Biosystems employees became plan participants on July 1, 1993. A past service benefit equal to 0.75% of an employee's pay rate at the participation date times the completed years and months of service to participation date was granted under the Fixed Benefit fund.</p>
---------------------	---

Early Retirement

Eligibility	<p>Attainment of age 55 and completion of 5 years of continuous service.</p> <p>A participant who was employed prior to August 1, 1989 is eligible to retire and receive an early retirement benefit on or after attainment of age 60 with no service requirement.</p>
Benefit	<p>Accrued benefit as of the earlier of June 30, 2004 and the participant's early retirement date, reduced by ¼ of 1% for each month early retirement precedes normal retirement for participants who worked at least 1 hour on or after July 1, 1999, otherwise reduced by ¼ of 1% for the first 60 months and ½ of 1% for each additional month by which early retirement precedes normal retirement.</p>

Postponed Retirement

	<p>A participant who continued active employment with the company beyond normal retirement date is eligible for postponed retirement benefits. The benefit is the amount the participant accrues under the terms of the plan to his actual retirement date based on compensation and service to that date, no later than June 30, 2004.</p>
--	---

Disability Retirement

Eligibility	<p>A participant is eligible for disability retirement benefits if he is totally and permanently disabled so as to be unable thereby to engage in any employment.</p>
-------------	---

Schedule SB, Part V — Summary of Plan Provisions**Disability Retirement (continued)**

Benefit	<p>Immediate benefit equal to the accrued retirement benefit reduced as provided in early retirement for the months between ages 55 and 65 and further reduced on an actuarial basis for the period in excess of 120 months by which disability benefits commencement precedes normal retirement.</p> <p>In lieu of an immediate benefit the participant, at his option, may continue to accrue future benefits under the plan based on his salary at date of disability to his normal retirement date, at which time he would be entitled to receive the then accrued normal retirement benefit. Benefit accruals cease after June 30, 2004.</p>
Vested Benefit	
Eligibility	Completion of 5 years of continuous service.
Benefit	Accrued benefit at earlier of date of termination of employment and June 30, 2004, payable at age 65. A terminated vested participant may elect to have monthly benefits commence on the first day of any month following attainment of age 55. The vested retirement benefit, for a participant electing early commencement of benefits, will be reduced based on <i>true actuarial reduction factors</i> to adjust for the early commencement of benefits.
Termination of Employment	A participant who terminates employment prior to 5 years of continuous service is not eligible for a plan benefit other than a return of his contributions to the Fixed Benefit fund with interest, plus the value of the Variable Annuity units arising from his contributions to the Variable Annuity fund, if applicable.
Death Benefit	
Eligibility	Death of a participant after completing 5 years of continuous service. Benefit payable to surviving spouse.

Schedule SB, Part V — Summary of Plan Provisions**Death Benefit (continued)**

Benefit	<p>If the participant's death occurs after qualifying for an early retirement pension, the surviving spouse is entitled to a pension benefit equal to 50% of the pension the participant would have received if he had received if he had retired on the day before his death and elected a 50% joint and survivor option.</p> <p>If the participant's death occurs before qualifying for an early retirement pension, the surviving spouse is entitled to a pension benefit equal to 50% of the participant's vested pension as of the date of death reduced for early commencement to the earliest retirement age at which the participant is eligible for benefits and reduced to the election of a 50% joint and survivor option. In this event the benefit payable to the surviving spouse will commence on the date the participant would have attained age 55.</p> <p>An active participant who is eligible for early retirement benefits may elect to provide the surviving spouse death benefit coverage under a 100% joint and survivor benefit option. If this increase in coverage is elected all benefits payable under the plan are reduced by 0.03% for each month the increased surviving spouse death coverage is in effect.</p> <p>In no event will the death benefit paid be less than the participant's contribution to the Fixed Benefit fund with interest, plus the value of the Variable Annuity units arising from the participant's contributions to the Variable Annuity fund.</p> <p>In the event of death after retirement, unless an optional form of benefit is in effect to the contrary, any excess of the participant's contributions over the retirement benefits paid is payable.</p>
Normal Form of Benefit Payment	<p>Life Annuity.</p> <p>A married participant will be deemed to have elected to receive benefits under the 50% joint and survivor option, with his spouse as contingent annuitant, unless an alternative election is made.</p>
Optional Benefits	<p>Optional benefits may be elected as follows:</p> <ul style="list-style-type: none"> (a) Joint and survivor options with 100%, 75%, 66-2/3%, 50% or 33-1/3% of reduced annual retirement benefit being paid to the contingent annuitant; (b) 5 or 10-year certain with life options, (c) Social Security Adjustment option excluding benefits attributable to the participant's Accumulated Variable Annuity Units. <p>Any form of benefit payment other than a qualified joint and survivor annuity must be approved by the participant's spouse and the spouse's approval must be notarized.</p>

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

- The plan was amended to comply with PPA requirements.
- The plan year was changed from a July 1 plan year to a calendar year plan year beginning with the January 1, 2010 plan year.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as amended effective December 31, 2009 are included in this valuation.

- **Most recent plan amendments included:** The amendment effective December 31, 2009 is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued including the late retirement increase.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Significant events

To the best of our knowledge, no events occurred during the year that would significantly affect the valuation results.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- The form of payment elected by active and vested terminated participants was changed from 100% assumed to elect payment in the form of a single life annuity to 40% assumed to elect payment in the form of a single life annuity, 40% in the form of a 50% joint and survivor annuity and 20% in the form of a 100% joint and survivor annuity to reflect actual historical experience and expectations of future plan experience.

Schedule SB, Line 25 — Change in Method

The asset valuation method changed from the average of the market value of assets as of the valuation date and the prior two years (adjusted for cash flow and expected earnings to the end of the year) to the fair market value. This change qualifies for automatic IRS approval.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN:

General:

The following description of The Employee Pension Plan of Applied Biosystems, Inc. (the “Plan”) provides only general information. Prior to July 1, 2008, Applera Corporation (“Applera”) consisted of two operating groups; the Applied Biosystems group and the Celera group. Effective July 1, 2008, Applera separated its Celera group from its remaining business. Also on July 1, 2008, following the Celera group separation, Celera group became Celera Corporation, an independent publicly traded company. In connection with the Celera separation, Applera changed its name to Applied Biosystems Inc. (“ABI”). Accordingly, the Plan name was also changed to The Employee Pension Plan of Applied Biosystems Inc. Participants should refer to the Plan document for a more complete description of the Plan’s provisions. On November 21, 2008, Applied Biosystems, Inc. was merged with Invitrogen Corporation, a predecessor company to Life Technologies, to form a new company called Life Technologies Corporation.

The Plan is a defined benefit plan established by Applied Biosystems, Inc. and its subsidiaries (the “Company”) and subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Northern Trust Company (“Northern Trust”) is the trustee of the Plan and the Company served as the recordkeeper through December 31, 2009. Effective January 1, 2010, Mercer became the Plan recordkeeper. Benefit accruals under the Plan were frozen effective as of July 1, 2004.

Effective January 1, 2010, the Plan year was changed to the twelve month period commencing on January 1 of each year, with the short plan year beginning July 1, 2009 and ending December 31, 2009 prior to the effective date.

Administration:

Effective July 20, 2009, the Benefits Administration Committee (the “Committee”), a committee comprised of at least three persons appointed by the board of directors of the Company and serving without compensation, is responsible for the general administration of the Plan and makes the final determination on all questions arising in connection with the interpretation, application and administration of the Plan. The Committee is authorized to amend the Plan without the approval of the board of directors of the Company if such amendment does not materially change the benefits provided by the Plan.

Participation:

Prior to July 1, 1999, employees of the Company became participants in the Plan as of their first day of employment, except for employees of PerSeptive Biosystems, Inc., the Celera group, and Molecular Informatics, Inc. Employees of PerSeptive Biosystems, Inc. and the Celera group who participated in the Plan prior to their employment with those entities also participate in the Plan. Employees of the Company hired after June 30, 1999 were not eligible to participate in the Plan.

NOTES TO THE FINANCIAL STATEMENTS

Retirement benefits:

Benefits are calculated under the terms of the Plan document, a brief description of which is provided below. The Plan was amended in June 1999 to freeze benefit accruals as of July 1, 2004. Any benefits earned from October 1, 1995, through June 30, 2004, are paid entirely under a fixed benefit final average salary formula. For benefits accrued prior to October 1, 1995, participants had the option to have benefits paid entirely under a fixed benefit formula or under fixed and variable benefit formulas with the variable portion being based on investment fund performance and mortality.

The annual retirement benefit is equal to the sum of the benefits accrued through September 30, 1995, under prior formulas (see below) plus the benefits calculated under the following method with respect to each year of service completed from October 1, 1995, through June 30, 2004:

Fixed Benefit - The fixed benefit accrual for service from October 1, 1995 is equal to 1.4% of the three-year Final Average Salary ("FAS") plus 0.5% of FAS in excess of covered compensation (35-year average of social security taxable wage base), multiplied by years of service from October 1, 1995. If a participant has over 35 years of vesting service, the benefit accrual is equal to 1.7% of FAS times years of service in excess of 35 years.

Participants awarded Incentive Compensation Income ("ICI") receive an additional benefit of 1.5% of the three-year average of ICI payments times years of service from July 1, 1995.

For retirement benefits earned between August 1, 1989 and October 1, 1995, the benefit accrual was 1.4% of annual compensation plus 0.5% of annual compensation in excess of covered compensation. For retirement benefits earned prior to August 1, 1989, the benefit accrual was 1.25% of annual compensation plus 0.75% of annual compensation in excess of the Federal Social Security Integration Base.

Fixed and Variable Annuity Benefit - Effective October 1, 1995, the variable annuity option election was no longer available and variable annuity benefit accruals were frozen.

Participants who previously elected the variable annuity option received or will receive one-half of their benefits based on the pre-October 1, 1995 fixed benefit accruals described above, plus one-half of their benefits expressed in variable annuity units, attributable to the period during which they elected to participate in the variable benefit. At retirement, the accumulated variable annuity units are converted to a monthly annuity based on the variable annuity unit value at that time. Each year thereafter, the variable annuity portion of the retiree's benefit is adjusted to reflect changes in the variable annuity unit value.

THE EMPLOYEE PENSION PLAN OF APPLIED BIOSYSTEMS, INC.

NOTES TO THE FINANCIAL STATEMENTS

8

Effective July 1, 2008, the Plan was amended to include a minimum benefit that a Participant in the variable annuity will receive. If in any Plan Year, the value of a Participant's variable annuity pension decreases to a level that is lower than the benefit the Participant would have received had the Participant not elected the variable annuity and instead elected the fixed benefit, then for that Plan Year, the Participant will receive the value of the fixed benefit.

The Plan provides for the payment of lesser benefits if an employee elects early retirement. Employees are eligible for early retirement after attaining age 55 with five years of continuous service. Participants who continue active employment with the Company beyond their normal retirement date are eligible for deferred retirement benefits. The deferred retirement benefit includes an actuarial increase to account for the deferral of receipt beyond normal retirement date.

A participant is eligible for disability retirement benefits if the participant is totally and permanently disabled so as to be unable, thereby, to engage in any employment for which the employee is or could become qualified by training, education or experience. The disability benefit is an immediate benefit equal to the accrued retirement benefit reduced for early retirement for the months between ages 55 and 65, and further reduced on an actuarial basis for the period in excess of 120 months by which the disability benefit commencement precedes normal retirement. Prior to June 30, 2004, in lieu of an immediate benefit, participants, at their option, could elect to continue to accrue future benefits under the Plan based on their salary at the date of disability up to their normal retirement date, at which time they would be entitled to receive the then accrued normal retirement benefit. However, all accruals ceased as of June 30, 2004, and any accrued benefits were frozen as of that date.

Contributions and actuarial method:

Since August 1, 1984, all contributions to the Plan have been made entirely by the Company. Prior to that date, employees were allowed to contribute to the Plan. Active employees' accumulated contributions to the fixed dollar benefit fund totaled \$66,248 at December 31, 2010, \$137,427 at December 31, 2009, and \$134,075 at June 30, 2009, including interest credited at an annual rate of 120% of the Federal Mid Term Rate in effect at the beginning of the plan year. The value of active employees' accumulated contributions in the variable annuity fund totaled \$100,692 at December 31, 2010, \$177,736 at December 31, 2009 and \$156,526 at June 30, 2009.

The Company contributes to the Plan an amount sufficient to provide for the expected costs of retirement benefits as determined by an independent actuary. The Company was not required to make any contributions to the Plan for the fiscal year ended December 31, 2010 and the six month period ended December 31, 2009; however, discretionary employer contributions of \$10,000,000 and \$1,500,000 were made to the Plan for the fiscal year ended December 31, 2010 and the six month period ended December 31, 2009, respectively.

NOTES TO THE FINANCIAL STATEMENTS

9

Contributions to the plan are determined according to the Pension Protection Act of 2006. A funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

Actuarial present value of accumulated plan benefits:

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service which employees have rendered to the Company through the valuation date.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits as of the Plan's fiscal year end are based on employee census data as of the last day of the Plan fiscal year. Benefits payable upon retirement, death, disability or withdrawal are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The assumptions used to determine the actuarial present values of accumulated plan benefits were as follows:

- a. **Interest** is at the assumed rate of 8.0% for the fixed benefit fund, compounded annually, for the year ending December 31, 2010 and the six months ended December 31 2009, and 8.0% for the variable annuity fund, compounded annually, for the year ended December 31, 2010 and the six months ended December 31, 2009.
- b. **Average retirement age** for participants is age 62.
- c. **Rate of mortality** is based on the RP-2000 mortality table, projected to 2020 combined for employees and annuitants, for males and females and white collar adjustment.
- d. **Rate of withdrawal** will vary with attained age and service.
- e. **Marital status** included in the valuation is based on the records provided by the Company.
- f. **Employees in the determination of plan costs** include all participants as of the end of the plan year.
- g. **Valuation of plan assets** is as described in Note 2.

THE EMPLOYEE PENSION PLAN OF APPLIED BIOSYSTEMS, INC.

NOTES TO THE FINANCIAL STATEMENTS

10

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other facts might be applicable in determining the actuarial present value of accumulated plan benefits.

Vesting:

A participant who completed 5 years of continuous service was fully vested and was eligible for a vested benefit payable at age 65. The vested benefit at age 65 was equal to the participant's accrued benefit at the date of termination of employment or earned through June 30, 2004, whichever is earlier. A terminated vested participant may elect to have monthly benefits commence on the first day of any month following attainment of age 55. The vested retirement benefit for a participant electing early commencement of benefits will be reduced to reflect a longer anticipated payment period. At any time prior to benefit commencement, participants may elect to withdraw their own accumulated contributions from the Plan (the Plan was contributory until July 31, 1984). If actively employed by the Company, a participant may later repurchase the benefits previously withdrawn if the employee remains eligible for plan participation and fulfills certain other time requirements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting:

In accordance with accounting and disclosure guidance for Employee Benefit Plans published by the American Institute of Certified Public Accountants, the accompanying financial statements have been prepared on the accrual basis of accounting other than for benefit obligations.

Accordingly, the benefit obligation for withdrawal requests and terminations processed but not paid as of the Plan year end would not be reflected as a deduction in the Statements of Changes in Net Assets Available for Benefits or as a liability in the Statements of Net Assets Available for Benefits. There were no such obligations at December 31, 2010 or 2009 or June 30, 2009.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

THE EMPLOYEE PENSION PLAN OF APPLIED BIOSYSTEMS, INC.

NOTES TO THE FINANCIAL STATEMENTS

11

Receivables and payables for investments:

Receivables from investments sold and payables from investments purchased represent transactions executed prior to the Plan year end, which settled subsequent to the Plan year end.

Administrative expenses:

Investment advisory and administrative expenses are paid by the Plan. Certain other administrative fees are paid by the Company.

Use of estimates:

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Risks and uncertainties:

The Plan invests in corporate bonds, registered investment companies, common and preferred stocks, common/collective trusts, and other investment securities. These investments are exposed to various risks, such as interest rate, market and credit. Additionally, the actuarial present value of accumulated plan benefits is calculated based on certain assumptions pertaining to interest and mortality rates, inflation rates, and employee demographics, each of which is subject to change. Due to the level of risk associated with some investment securities and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of some investments and these estimates and assumptions will occur in the near term and that such changes could materially affect amounts reported in the financial statements.

Recently issued accounting pronouncements:

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements (ASU 2010-06)* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance was effective for the Plan in 2010, except for the guidance related to Level 3 measurements, which is effective for periods beginning on or after December 15, 2010.

THE EMPLOYEE PENSION PLAN OF

NOTES TO THE FINANCIAL STATEMENTS

12

In May 2011, the FASB issued Accounting Standards Update 2011- 04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011- 04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011- 04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011- 04 will have on the Plan's financial statements.

NOTE 3 – INFORMATION CERTIFIED AND PROVIDED BY NORTHERN TRUST COMPANY:

The following is a summary of the investment information as of December 31, 2010 and 2009 and June 30, 2009, and for the year ended December 31, 2010 and the six months ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee, Northern Trust Company, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following investments:

NOTE 4 – FAIR VALUE MEASUREMENTS:

The FASB Codification, Topic 820, *Fair Value Measurements and Disclosures* defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This topic also emphasizes that fair value is a market-based measurement under three categories which are as follows:

- Level 1** Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2** Quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability;
- Level 3** Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009 and June 30, 2009.

Interest bearing cash and cash equivalents: Fair value approximates the cash balance held by the Plan at end of year plus accrued interest.

Corporate bonds: Certain corporate bonds are valued at the closing price reported on the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available in comparable securities of issuers with similar credit ratings.

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trusts: Valued at net asset value ("NAV") based in information reported by the investment advisor.

THE EMPLOYEE PENSION PLAN OF APPLIED BIOSYSTEMS, INC.

NOTES TO THE FINANCIAL STATEMENTS

14

Registered investment companies: Investments in registered investment companies (mutual funds) are valued using the NAV provided by the administrator of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

U.S. and foreign government securities: Valued at the closing price reported in the active market in which the individual security is traded.

Other: Investment in Cambridge Industries, Inc. Liquidation Trust and Polish Zloty are valued based on information reported by the investment advisor.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2010 and 2009 and June 30, 2009.

- (a) The Fund invests in equity securities of companies from the world's developed and emerging capital markets, excluding the United States. The Fund's investments in equity securities may include dividend-paying securities, common and preferred stock of companies of any size as well as American, European, and Global Depository Receipts.
- (b) The Fund invests in U.S. dollar-denominated, investment grade bonds, including government securities, corporate bonds, and mortgage and asset-backed securities, among others. The Fund also may invest a significant portion of its assets in any combination of non-investment grade bonds, non-U.S. dollar denominated bonds, and bonds issued by issuers in emerging capital markets.
- (c) The Fund invests primarily in common stocks of large U.S. and multinational companies that offer the potential for long-term capital appreciation and appear to be undervalued based on the stocks' intrinsic values relative to their current market prices.
- (d) The Fund invests primarily in U.S. dollar-denominated investment grade bonds, including government securities, corporate bonds, and mortgage and asset backed securities, among others. The Fund's duration will typically fall between one and three years. Duration measures the potential price sensitivity of a bond with respect to change in interest rates.
- (e) The Fund invests primarily in common stocks of small and medium-sized U.S. companies that offer the potential for long-term capital appreciation and that appear to be undervalued at the time of purchase based on the stocks' intrinsic values relative to their current market prices.
- (f) The Fund invests in a diversified portfolio of small and medium sized U.S. companies that a subadvisor believes possess superior potential for long-term capital appreciation.
- (g) The Fund invests primarily in U.S. issued bonds, U.S. common stock and cash, and carries no redemption restriction.

NOTE 5 - TAX STATUS:

The Plan has received a determination letter from the Internal Revenue Service dated March 23, 2011, stating that the Plan is qualified under section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, is qualified and the related trust is tax exempt.

NOTE 6 - PLAN TERMINATION:

In the event of Plan termination, participants would become 100% vested.

In the event of termination of the Plan, the Plan's net assets shall be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

THE EMPLOYEE PENSION PLAN OF APPLIED BIOSYSTEMS, INC.

NOTES TO THE FINANCIAL STATEMENTS

17

- a. To provide for the refund of accumulated employee contributions to the participants.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. governmental agency, subject to the applicable limitations as discussed below.
- d. All other vested benefits not insured by the PBGC.
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminated. Generally, the PBGC guarantees most vested normal age retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protections is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2010 and 2009, that ceiling, which is adjusted periodically, was \$4,500 per month. That ceiling applies to those pensioners who elected to receive their benefits in the form of a single-life annuity; the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS:

Some Plan investments are assets managed by Northern Trust. Northern Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Northern Trust for the years ended December 31, 2010 and 2009 and the
