#### 1. DESCRIPTION OF PLAN

The following description of the E.T. Horn Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

##### General

The Plan is a defined contribution plan covering substantially all employees of E.T. Horn Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 21 years of age are eligible to participate in the Plan on November 1, February 1, May 1 or August 1 following completion of three months of service.

##### Administration

The Plan is administered by the Company.

##### Contributions

Participants may elect to contribute up to 90% of eligible compensation, not to exceed the limits of the Internal Revenue Code (the IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make matching and/or profit sharing contributions as determined each year by resolution of the Company's Board of Directors. For the year ended October 31, 2010, the Company made matching contributions of 100% of the first 3% of compensation deferred by a participant and an additional 50% of a participant's deferrals in excess of 3% of compensation but not more than 5% of compensation deferred. The Company did not make discretionary profit sharing contributions to the Plan for the year ended October 31, 2010.

##### Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expense. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum amount equal to the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. Management believes the adoption of this guidance will not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits or related disclosures.

In September 2010, the FASB issued guidance which requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. This guidance is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Early adoption is permitted. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits. Participant loans have been reclassified to notes receivable from participants as of October 31, 2009.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses (exclusive of investment related expenses) are generally paid by the Company.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- |                |                                                                                                                                                                 |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <u>Level 1</u> | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| <u>Level 2</u> | Inputs to the valuation methodology include:                                                                                                                    |

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTES TO THE FINANCIAL STATEMENTS

3. FAIR VALUE MEASUREMENTS - (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at October 31, 2010 and 2009.

*Registered investment companies:* These investments are valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is based upon the market value of the underlying investments and observable inputs. The NAV of the registered investment companies is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

*Guaranteed investment contracts:* These investments are valued at fair value which is determined by multiplying the contract value by a market value adjustment factor which takes into account the remaining number of months until maturity, the crediting interest rate, and Treasury bond rates. The asset is classified within level 3 of the valuation hierarchy because the asset value is not based on a quoted active market and is valued based on unobservable inputs. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the guaranteed investment contracts, a market value adjustment would be applied and under certain conditions payment from the investment may be deferred for a period of up to 6 months, or as provided by federal law.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

OCTOBER 31, 2010 AND 2009

5. INVESTMENTS - (Continued)

During the year ended October 31, 2010, the Plan's investment (including investments bought, sold and held during the year) appreciated in value by \$977,131 as follows:

|                                 |                   |
|---------------------------------|-------------------|
| Registered investment companies | \$ 940,060        |
| Guaranteed investment contracts | <u>37,071</u>     |
|                                 | <u>\$ 977,131</u> |

6. INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan has entered into investment contracts with ING. ING maintains the contributions in guaranteed investment contracts. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals. The contract is considered non fully benefit-responsive and included in the financial statements at fair value, as reported to the Plan by ING. In 2010 and 2009, the crediting interest rate was 3%. The crediting interest rates are reset upon the maturity of the contracts.

7. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended and restated to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for fiscal years prior to 2007.

NOTES TO THE FINANCIAL STATEMENTS

OCTOBER 31, 2010 AND 2009

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by ING, the custodian and record-keeper of the Plan. The Plan paid \$825 in contract administration fees to ING during the year ended October 31, 2010. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA.
