HPS MECHANICAL, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the HPS Mechanical, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of HPS Mechanical, Inc. (the Company). For purposes of wage rate contributions, an employee becomes eligible if they have rendered one hour of service on a prevailing wage contract job. For purposes of discretionary contributions, an employee becomes eligible if they are over 18 years of age and have completed 60 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may make salary deferral contributions in any percentage from 1% to 15% of pretax annual compensation, as defined in the Plan. For purposes of the prevailing wage employees, the Plan's provisions stipulate that the employer will contribute to the Plan on an hourly contribution rate for the classification of employees. The Company may also make discretionary matching contributions and discretionary profit sharing contributions. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferral contributions and wage rate contributions plus actual earnings thereon. The portion of the participants' accounts attributable to the Company's discretionary contributions become 20% vested after two years of credited service as defined and continues to vest at the rate of 20% for each successive year of service until 100% vested after six years of service.

Payment of Benefits: Upon termination of service, a participant may elect to receive lump-sum payment or an annuity equal to the value of his or her account, or to have that amount rolled over into another retirement account.

Forfeitures: Forfeitures may be used first to pay administrative expenses and then to reduce employer-matching contributions and Company discretionary contributions. At June 30, 2009 there were no forfeited amounts.

Administrative Expenses: Expenses of the Plan, to the extent that the Company does not pay such expenses, may be paid out of the net assets of the Plan provided that such payment is consistent with ERISA.

NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a collective trust. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Note 3. Information Certified by the Plan's Custodians

The following is a summary of the investment information as of June 30, 2009 and December 31, 2008, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that the information provided to the Plan Administrator by the custodians related to the following investments are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following investments. Single investments representing more than 5% of the Plan's net assets as of June 30, 2009 and December 31, 2008 are separately identified.

	2009	2008
Investments at fair value:		
LifeTime 2030 fund	$ 843,285	$ 770,783
U.S. property fund	691,617	826,150
Other investments	5,380,925	5,336,870
Principal stable value fund	5,658,988	5,192,000
	$ 12,574,815	$ 12,125,803

Principal Life Insurance Company and Union Bond and Trust Company, the custodians, also certified to the completeness and accuracy of $102,533 of net appreciation in fair value of investments and $7,127 of interest income related to the aforementioned investments for the six months ended June 30, 2009.

Note 4. Fair Value Measurements

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB No. 157 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2009 or December 31, 2008.

Mutual funds: Valued at the net asset value ('NAV") of shares held by the Plan at year end.

Collective investment trust: Net asset value is based on the market value of its underlying investments. This fund contains synthetic investment contracts comprised of both underlying investment and contractual components, including quoted prices for similar assets in active or non-active markets

Pooled separate accounts: Separate accounts that invest exclusively in mutual funds are valued at the net asset value ('NAV") of the underlying mutual fund. Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

Investment contract: Fair value is the amount plan participants or plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2009 and December 31, 2008:

Note 5. Investment Contracts with Insurance Company

The Plan had entered into investment contracts with Principal. Principal maintained the contributions in guaranteed interest accounts. The contracts are included in the financial statements at fair value, because they are not fully benefit responsive. There are no reserves against the contracts' value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2008 was $111,516. The average yield was approximately 2.94% for 2008. The crediting interest rates were guaranteed through December 31, 2008 and ranged from 2.81% to 2.83%.

NOTES TO FINANCIAL STATEMENTS

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated November 15, 2005, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code.
