All groups of eligible employees, as previously noted, are eligible to make elective deferral contributions, with the exception of Teamsters Local 957 employees at Keystone Foods LLC, Springfield, Ohio. The Plan does not provide for an automatic deferral program.

KEYSTONE FOODS LLC HOURLY 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[3] Employer contributions:

The Plan provides for a nonelective contribution that is both discretionary and payable at the discretion of the Participating Employer. The Plan provides that any nonelective contribution will be allocated first as 5% of eligible compensation up to \$9,800 plus an additional 10% of eligible compensation in excess of \$9,800 to each participant in the following eligible classes of participants:

- Eligible, hourly nonunion employees of Keystone Foods LLC
- Eligible, hourly nonunion employees of M&M Restaurant Supply (MI/OH) LLC
- Eligible employees of Keystone Foods LLC represented by Teamsters Local 957, Springfield, Ohio

Certain Participating Employers will make a matching contribution to each participant based on his or her elective deferral. The matching contribution is calculated as 50% of the first 4% of compensation of each participant's elective deferral contribution for the Plan year. Eligible participants who are not union employees of the following Participating Employers are eligible to receive a matching contribution:

- Equity Group - Georgia Division LLC
- Equity Group - Eufaula Division LLC
- LD Foods LLC
- CS Grain LLC
- Equity Group - Kentucky Division LLC

The Plan also provides this benefit on behalf of Teamsters Local 89 employees at Equity Group - Kentucky Division LLC to the extent provided for in the collective bargaining agreement for such employees.

[4] Plan transfers:

Plan transfers represent transfers to or from the Keystone Foods LLC Salaried 401(k) Profit Sharing Plan.

[5] Participant accounts:

Participants are provided with a selection of mutual funds and a common/collective trust held by Vanguard Fiduciary Trust Company ("Vanguard") in which to invest contributions. Earnings are credited to each participant's account based upon the performance of the respective funds selected by the participant. Each investment account is revalued daily on the basis of fair market value and accounts are adjusted accordingly.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change these investment options at any time.

KEYSTONE FOODS LLC HOURLY 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[6] Vesting:

Participants are vested immediately in their contributions and rollovers and earnings thereon.

Participants become fully vested in the employer nonelective contributions and the earnings or losses thereon once they have completed five years of service with the Company. Termination of employment with the Company prior to five years of service results in no benefits available to the participant.

Participants are vested in the Company matching contributions and the earnings or losses thereon in accordance with the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	None
2 but fewer than 3	20%
3 but fewer than 4	40%
4 but fewer than 5	60%
5 or more	100%

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Each loan is secured by the balance in the participant's account. Interest is charged at a rate established by the Company, on a nondiscriminatory basis, taking into consideration the interest rates being charged on similar loans by independent parties, ranging from 4% to 8.25%. Principal and interest are paid ratably through payroll deductions.

[8] Benefit payments:

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account, except for those benefits attributable to a participant's Pension Transfer Account, as a lump-sum distribution.

A participant may receive the value of the vested interest in his or her participant's Pension Transfer Account as either a joint and survivor annuity, a single life annuity or as a lump-sum distribution.

The normal retirement age is a participant's 65th birthday, 60th birthday, if he or she has at least 10 years of service, or 55th birthday, if he or she has at least 15 years of service.

KEYSTONE FOODS LLC HOURLY 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2010 and 2009

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[9] Forfeitures:

If a participant permanently terminates his or her employment for reasons other than death, disability, or retirement, and the participant is not fully vested, the nonvested balance in his or her account is forfeited as of the earlier of (1) the last day of the Plan year in which the fifth consecutive break in service occurs, or (2) the distribution of the entire vested portion of the participant's account. Forfeitures of terminated participants' nonvested employer contributions are used to reduce future employer contributions to the Plan.

As of December 31, 2010 and 2009, forfeited nonvested accounts available to reduce employer contributions were approximately \$24,000 and \$44,000, respectively. For the Plan year ended December 31, 2010, approximately \$42,000 of forfeited nonvested accounts was used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared under the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

[2] Notes receivable from participants:

In September 2010, the Financial Accounting Standards Board ("FASB") issued new guidance that requires participant loans be classified as notes receivable from participants in the financial statements of a defined-contribution pension plan and measured at the unpaid principal balance plus accrued, but unpaid interest. The Plan adopted the new guidance, which is effective for fiscal years ending after December 15, 2010, and is applied retrospectively, by reclassifying participant loans on the statement of net assets available for benefits for all years presented. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

[3] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[4] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis with gains and losses recorded in net appreciation (depreciation) in fair value of investments. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

[5] Payment of benefits:

Benefits are recorded when paid.

[6] Plan expenses:

Substantially all expenses incurred in connection with the administration of the Plan are paid by the Company.

[7] Subsequent events:

The Plan has evaluated subsequent events through July 25, 2011, the date the financial statements were available to be issued.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard Fiduciary Trust Company, one of the trustees of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants in the accompanying statement of net assets available for benefits as of December 31, 2010 and 2009, the statement of changes in net assets available for benefits for the year ended December 31, 2010 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2010.

NOTE D - INVESTMENTS

The Plan currently provides for participant-directed investment programs among a selection of investment options.

Single investments representing more than 5% of the Plan's net assets as of December 31, 2010 and 2009 are as follows:

	<u>2010</u>	<u>2009</u>
Registered investment companies:		
Vanguard Target Retirement 2025	\$ 7,889,792	\$ 6,920,589
American Funds Growth Fund of America, R-4 Class	1,511,909	1,497,311
Interest in common/collective trust:		
Vanguard Retirement Savings Trust	2,851,507 *	2,630,326 *

* This amount represents contract value for this investment. Fair value was \$2,968,397 in 2010 and \$2,688,445 in 2009.

During 2010, the Plan's investments in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,989,432.

NOTE E - FAIR VALUE MEASUREMENTS

FASB's *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

In January 2010, FASB issued amended guidance on fair value measurements. The Plan has adopted the amended provisions that are effective for interim and annual reporting periods beginning after December 15, 2009 regarding disclosures of significant transfers in and out of Level 1 and Level 2 assets and description of the reasons for the transfers. Additional disclosures that are effective for fiscal years beginning after December 15, 2010 regarding reporting purchases, sales, issuances, and settlements for Level 3 assets on a gross basis should not have a significant impact on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Mutual funds - Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the fund at year-end.

Common/collective trust - The Plan's interest in the common/collective trust is valued based on information reported by the investment advisor using the audited financial statements of the common/collective trust at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Notes to Financial Statements December 31, 2010 and 2009

NOTE F - TAX STATUS

The Plan obtained its latest determination letter on March 14, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain of the Plan's investments are shares of mutual funds and units of a common/collective trust managed by Vanguard. Vanguard is a trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan were approximately \$8,000 for the year ended December 31, 2010.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE I - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.
