INDEPENDENT AUDITORS' REPORT

Plan Administrator
LaBella Associates, P.C.
Profit Sharing and 401(k) Plan

We have audited the accompanying statements of net assets available for benefits – Modified Cash Basis of LaBella Associates, P.C. Profit Sharing and 401(k) Plan as of October 31, 2010 and 2009, and the related statements of changes in net assets available for benefits – Modified Cash Basis for the years then ended. These financial statements are the responsibility of the Plan's Administrator. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note B, these financial statements and supplemental schedules were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of October 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended, in conformity with the modified cash basis of accounting described in Note B.

WE VALUE YOUR FUTURE

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental Schedule of Delinquent Participant Contributions – October 31, 2010 and Schedule of Assets Held for Investment Purposes At End of Year – October 31, 2010 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the 2010 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules are fairly stated in all material respects in relation to the 2010 financial statements taken as a whole.

NOTE A: DESCRIPTION OF THE PLAN

The following description of LaBella Associates, P.C. Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of LaBella Associates, P.C. (the "Company"). The minimum age requirement is 18 years for entrance into the Plan. New employees are eligible to participate in the Plan at the beginning of the next plan year quarter following the date they meet the hours of service requirement. The hours of service requirement is met when the employee has six consecutive months of service and at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible participants are entitled to defer up to the maximum amount or percentage allowed of their annual compensation, as defined in the Plan, as a qualified pre-tax contribution subject to maximum annual dollar contribution restrictions of ERISA and the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make a matching contribution of a discretionary percentage of the participant's salary provided that the participant is actively employed on the last day of the plan year and has completed at least 1,000 hours of service during the plan year. The Company also has the option of making annual discretionary profit sharing contributions to the Plan.

Participants direct the investment of contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's match, (b) the Company's discretionary contribution, and (c) plan earnings. Allocations of the Company's discretionary contributions are based on individual participants' deferrals for the year in relation to total deferrals of all participants for the year. Allocations of plan earnings are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant loans

Participants are permitted to borrow up to 50% of the vested balance in their plan accounts to a maximum of $50,000. The loans are payable over terms up to five years (longer if for the purchase of a principal residence) and bear interest at a fixed rate. The fixed interest rate is derived from the prime rate of interest plus 1% at origination. Principal and interest payments on the loans are redeposited into the participants' accounts based on their current investment allocation elections.

NOTE A: DESCRIPTION OF THE PLAN, Cont'd

Payment of benefits
Distribution of a participant's vested account balance is permitted upon retirement or prior to retirement in the event of death, disability, termination of employment, or immediate financial hardship.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Participants become fully vested in Company contributions plus actual earnings thereon after three years of service. A participant receives credit for a year of service if they complete at least 1,000 hours of service during the plan year.

Forfeited accounts
Any forfeitures arising under the Plan are applied against the Company's matching and profit sharing contributions. There were $3,308 and $3,200 in forfeitures applied during the years ended October 31, 2010 and 2009, respectively.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The accompanying financial statements and supplemental schedules have been prepared on the modified cash basis of accounting which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Generally, contributions and investment earnings are recorded as received and benefits and administrative fees are recorded as paid.

Use of estimates
The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Cash and cash equivalents
Cash and cash equivalents include money market funds and all highly liquid debt instruments with original maturities of three months or less. The Plan maintains cash and cash equivalents which periodically may exceed federally insured amounts.

Investment valuation and income recognition
The Plan's investments are stated at fair value. Mutual funds are valued at the net asset value multiplied by the number of shares held by the Plan at year end. The net asset value is determined using quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the modified cash basis. Both dividend income, which is recorded on the ex-dividend date, and capital gain distributions are included in net appreciation in fair value of investments.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Cont'd

New accounting pronouncement

In September 2010, the FASB issued ASU 2010-25, Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Previously, loans were classified as investments. ASU 2010-25 is effective retrospectively for fiscal years ending after December 15, 2010, with early adoption permitted. The Plan elected the early adoption of ASU 2010-25 as of October 31, 2010. Upon adoption, there was no material impact to the Plan.

Administrative expenses

Substantially all costs of administering the Plan are paid by the Company.

Payment of benefits

Benefits are recorded when paid.

Reclassifications

Certain 2009 amounts have been reclassified to conform with the 2010 presentation.

Subsequent events

The Company has conducted an evaluation of potential subsequent events occurring after the statement of net assets available for benefits date through August 11, 2011, which is the date the financial statements are available to be issued. No subsequent events requiring disclosure were noted.

NOTE C: INVESTMENTS

The following table presents the fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits:

	October 31,	
	2010	2009
American Funds:

During fiscal 2010 and 2009, the Plan's investments including gains and losses on investments bought and sold as well as held during the year appreciated in value by $1,106,412 and $1,296,194, respectively.

NOTE D: FAIR VALUE MEASUREMENTS

FASB ASC 820-10 requires enhanced disclosures about investments that are measured and reported at fair value. FASB ASC 820-10 establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observance used in measuring investments at fair value. Market price observability is affected by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following categories.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D: FAIR VALUE MEASUREMENTS, Cont'd

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2010 and 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2010 and 2009:

	Assets at Fair Value

NOTE E: TAX STATUS

The Plan obtained a determination letter on its prototype plan on May 28, 2002, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to October 31, 2007.

NOTE F: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would immediately become 100% vested in their accounts.

NOTE G: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H: PARTY-IN-INTEREST

Capital Bank and Trust Company was the trustee of the Plan until May 22, 2010 at which time Frontier Trust Company became the trustee. Since Capital Bank and Trust Company performed services for the Plan, investments sponsored by related organizations are considered party-in-interest transactions, which are exempt from prohibited transaction rules.

NOTE I: DELINQUENT PARTICIPANT CONTRIBUTIONS

As required by DOL Regulation 2510.3-102, the Company is required to segregate employee contributions to the Plan from its general assets as soon as practicable, but in no event more than 15 business days following the end of the month in which amounts are withheld from wages.

During the period from November 1, 2006 to October 31, 2010, the Company failed to remit employee deferrals and loan repayments to the Plan in a timely manner according to DOL regulations. During fiscal years 2009 and 2008, the Company made payments of approximately $1,200 and $2,500, respectively, to compensate the Plan and affected participants' accounts for lost investment earnings related to employee deferrals and loan repayments totaling $564,310 and $544,797 withheld from wages during fiscal years 2008 and 2007, respectively. The Company made a payment of approximately $100 in fiscal year 2010 on fiscal 2009 late remittances totaling $79,172. The Company will make an additional payment of approximately $800 in fiscal year 2011 on additional fiscal year 2009 and fiscal year 2010 late remittances totaling $1,182,602.
