INDEPENDENT AUDITORS' REPORT

Administrative Committee
First Co Bancorp, Inc. 401(k) Plan
Collinsville, Illinois

We have audited the accompanying statements of net assets available for benefits of First Co Bancorp, Inc. 401(k) Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of First Co Bancorp, Inc. 401(k) Plan as of December 31, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H line 4i – Schedule of Assets (Held at End of Year) referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

1. Description of plan

The following description of the First Co Bancorp, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. **General** - The Plan is a defined contribution plan covering all full-time employees of First Co Bancorp, Inc. and Subsidiaries (Company) who have one hour of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. **Contributions** - Each year, participants may contribute any percentage of pretax annual compensation, as defined in the Plan. Effective June 1, 2009, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a stable value fund as investment options for participants. The Company contributes 50 percent of the first 6 percent of total compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

C. **Participant accounts** - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. **Vesting** - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of credited service. To receive credit for one year of vesting, a participant must have completed at least 1,000 hours of service in a calendar year. A participant is 100 percent vested after six years of credited service.

E. **Payment of benefits** - On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, hardship distributions are permitted if certain criteria are met.

F. **Forfeited accounts** - At December 31, 2010 and 2009, forfeited nonvested accounts totaled $3,629 and $2,033, respectively. These accounts will be used to reduce future employer contributions. Also, in 2010 and 2009, employer contributions were reduced by $7,100 and $10,893, respectively, from forfeited nonvested accounts.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Reclassifications

Certain amounts in the 2009 financial statements have been reclassified to conform with the 2010 presentation. Such reclassifications had no effect on net income.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits

Benefits are recorded when paid.

Refunds of excess contributions

At December 31, 2010 and 2009, refunds of excess contributions totaled $17,673 and $11,315, respectively. These amounts came from excess contributions from highly compensated employees. The corrective refunds were distributed after year-end in order to pass discrimination tests.

2. Summary of significant accounting policies (continued)

Administrative expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net assets available for benefits as administrative expenses. The Company pays the annual audit fee and any fees for plan amendments.

Subsequent events

Subsequent events were evaluated through August 8, 2011, which is the date the financial statements were available to be issued.

3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2010	December 31, 2009
American 2040 Targ Date Ret - R3	$ 1,234,418	N/A

American Growth Fund - R3	N/A	660,703
American Fundamental Investors - R3	N/A	800,887
American World Growth & Income - R3	N/A	666,243

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $652,891 and $1,228,748, respectively, as follows:

	December 31, 2010	December 31, 2009
Mutual funds	$ 627,455	$ 1,196,808
Guaranteed investment contract	25,436	31,940
	$ 652,891	$ 1,228,748

4. Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Guaranteed investment contract: Valued at fair value based on quoted market prices of the underlying investments owned by MetLife.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

4. Fair value measurements (continued)

Level 3 gains and losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2010 and 2009:

	2010	2009
Investment contract		
Balance, January 1 (at fair value)	$ 1,242,951	$ 917,114
Realized gains/(losses)	9,871	(64,121)

Purchases, sales, issuances, and settlements (net)	(163,219)	293,897
Balance, December 31 (at fair value)	$ 1,105,168	$ 1,242,951

4. Fair value measurements (continued)

	2010	2009
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 15,565	$ 96,061

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

5. Investment contract with insurance company

In 2004, the Plan entered into a benefit-responsive investment contract with MetLife, Inc. MetLife, Inc. maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MetLife, Inc., represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $1,105,168 and $1,242,951, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with MetLife, Inc. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on completing investment options, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

5. Investment contract with insurance company (continued)

	2010	2009
Average yields:		
Based on actual earnings	7.42%	12.27%
Based on interest rate credited to participants	2.87%	3.27%

6. Distributions payable

At December 31, 2010 and 2009, net assets available for plan benefits included $1,883 and $-0-, respectively, for distributions to participants who have requested a distribution from the Plan prior to the end of the Plan year.

7. Related party transactions

Certain 12b-1 fees are generated through mutual fund investments held by the Plan, and the 12b-1 fees are assigned to Wayne Hummer Investments, which is a party-in-interest to the Plan. A portion of these fees are paid to subsidiaries of First Co Bancorp, Inc. First Co Bancorp, Inc. uses these fees to offset certain expenses paid by the Company for the Plan, including the audit fee and other administrative expenses. The Company also pays a portion of these fees to the Plan's investment advisors. These fees are considered reasonable compensation for the services the investment advisors provide to the Plan and its participants.

8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	December 31,	
	2010	2009
Net assets available for benefits per the financial statements	$ 8,886,120	$ 7,115,125
Fees payable	6,650	6,450
Net assets available for benefits per Schedule H to the Form 5500	$ 8,892,770	$ 7,121,575

The following is a reconciliation of administrative expenses per the financial statements for the years ended December 31, 2010 and 2009 to Schedule H of Form 5500:

9. Reconciliation of financial statements to Schedule H of Form 5500 (continued)

	December 31, 2010	December 31, 2009
Administrative expenses per the financial statements	$ 15,172	$ 25,015
Change in fees payable	200	(6,450)
Administrative expenses per Schedule H of Form 5500	$ 15,372	$ 18,565

The asset fee for 2010 and 2009 to the third-party administrator was not charged to participant accounts in those respective years or recorded as a liability on Schedule H of Form 5500, as it was on the financial statements.

10. Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated February 24, 2010 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that should require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

11. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
