DOCTORS LABORATORY, INC., 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of Doctors Laboratory, Inc. 401(K) Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Doctors Laboratory, Inc., who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to the maximum amount set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the first 5% of base compensation that a participant contributes to the Plan after the participant's first year of eligibility. The Company's contribution rate is set by its Board of Directors.

Participant Accounts: Each participant's account is credited with a participant's contribution: the Company's matching contributions and account earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are 100% vested immediately.

Investment Options: Upon enrollment in the Plan, a participant may direct employee and employer matching contributions to be invested in any of a variety of investment options as follows:

Mutual Fund - Balanced

Mutual Fund - Fixed Income

Mutual Fund - International.

Mutual Fund – Large Cap

Mutual Fund – Mid Cap

Mutual Fund - REIT

Mutual Fund – Small Cap

Mutual Fund – Taxable

Note 1 – Description of Plan (Continued)

Participant Notes Receivable: Prior to March 1, 2006, participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years or up to 20 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates in effect on the date the Advisory Committee approved the participant's loan. At December 31, 2010, there were no participant loans outstanding and nine at December 31, 2009 in the amount of $2,122. Effective March 1, 2006, the Plan was amended to discontinue the participant loan provisions.

Payment of Benefits: On termination of service due to disability or retirement, a participant may elect to receive either a lump-sum amount or installments over a fixed period of time, the value of the participant's vested interest in his or her account. On termination of services due to death, the Trustee must completely distribute the value of the participant's vested interest in his or her account to the participant's designated beneficiary within five years of the participant's date of death. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or in installments over a fixed period of time. The Advisory Committee has the option of postponing such payment until the participant attains normal retirement age of 65.

Forfeited Accounts: All participants' accounts are fully vested.

Subsequent Events: The Plan has evaluated events and transactions for potential recognition or disclosure in the financial statements through July 20 2011, the date on which the financial statements were available to be issued.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments are stated at their fair market value as more fully explained in Note 3.

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average-cost method.

Payment of Benefits: Benefits are recorded when paid.

Administration costs: Administration costs are absorbed by the Plan's sponsor.

Note 3 – Investments

Investments in money market accounts and equity securities are recorded at quoted market prices.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Unified Trust Company NA, the Plan's Investment Custodian:

Note 4 – Plan Merger

As of October 8, 2010, all of the outstanding stock of the Plan Sponsor, Doctors Laboratory, Inc., was acquired by Spectrum Laboratory Network (Spectrum). On November 17, 2010, Spectrum notified Unified Trust Company, N.A. (UTC) that they had decided effective December 31, 2010, to terminate the recordkeeping services arrangement with UTC and move the assets to CPI Qualified Plan Consultants, Inc. (CPI) as the new third-party administrator and merge the Plan with Triad Laboratory Alliance, L.L.C. 401(K) Savings Plan, a Plan sponsored by Spectrum.

Note 5– Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 8, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan as amended and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service, Department of Labor, or Georgia Department of Revenue. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 6 – Related Party and Party-In-Interest Transactions

Fees paid by the Plan sponsor for accounting and other professional services, rendered by parties-in-interest were based on customary and reasonable rates for such services.

At December 31, 2010, there were no participant loans outstanding and three at December 31, 2009 in the amount of $2,122.

For the years ended December 31, 2010 and 2009, Unified Trust Company NA served as custodian for the Trustee. The company managed the participant directed investments. The fees charged by Unified Trust Company for the years ended December 31, 2010 and 2009 totaled $59,815 and $41,896, respectively.

Certain Plan investments are shares of mutual funds managed by Unified Trust Company NA. The company is also the investment custodian of the Plan. Therefore these transactions qualify as party-in-interest transactions.

Note 7 – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation method include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.
