EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS**

1. THE PLAN

The following description of the Wright Tool Company Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The Plan, established on November 1, 1988 by Wright Tool Company (Company), is an employee stock ownership plan (ESOP), and is designed to comply with the regulations of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). First Bankers Trust Services, Inc. was appointed as trustee of the Plan effective November 1, 2007.

As discussed further in Note 4, effective September 30, 2008, the Company decided to terminate the Plan.

Participation

Employees became eligible to participate in the Plan as of the first day of the plan year nearest the date the employee completes one year of service, as defined by the plan document, and the attainment of age 21, provided he or she was still an employee on the anniversary date.

Contributions

Each year the Company may contribute to the Plan an amount determined by the Company's Board of Directors. Company contributions are invested in shares of the Company's common stock to the extent such stock is available for purchase. Each year, the Company's contribution will be placed in a trust fund for the benefit of the Plan's participants. The amount allocated to each participant's account is determined by the ratio of each participant's compensation, as defined by the plan document, to the total compensation of all the participants during the plan year. There were no Company contributions made to the Plan for the years ended October 31, 2010 and 2009.

Participants are not permitted to make any contributions to the Plan.

Participant Accounts

The Plan administrator will establish and maintain an employer stock account and a separate other investments account for all participants. As of the last day of the plan year, the Plan administrator shall allocate to the participant's account any investment earnings or losses, Company dividends and Company contributions. The amount allocated to each participant's account is determined by the ratio of each participant's account balance, to the total balance of all the participants' accounts.

Investment Options

All assets of the plan are invested in cash equivalents.

Federal law requires that participants who have attained age 55 with at least 10 years of participation in the Plan be permitted to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. During the first five years, a participant may diversify up to 25% of the shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50% of the shares allocated to their account. Participants who elect to diversify receive a cash distribution.

Benefit Payments

Vested assets of a participant's account will be distributed to the participant or participant's beneficiary within 60 days of the following: (1) retirement of the participant after age 60; (2) total and permanent disability or death; (3) the fifth anniversary of the participant's termination of employment. Distributions are paid directly to the participant from the net assets available for benefits and are made in lump-sum amounts subject to the provisions of the Plan. Benefits are recorded when paid.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the liquidation basis of accounting.

Plan Expenses

All significant expenses related to the administration of the Plan are paid by Company. 2010 administrative expenses paid by the Plan represent distribution fees.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. FEDERAL INCOME TAXES

The Plan obtained its latest determination letter on April 4, 2003, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

4. PLAN TERMINATION

Effective September 30, 2008, the Company decided to terminate the Plan. All participants became 100% vested in their accounts and the Company redeemed the stock held in the Plan for cash. Upon termination, participants were afforded the opportunity to leave all of their balance in the Plan or take up to 50% of the balance in their account and roll it into the Company's 401(k) plan, an IRA or take a lump sum distribution.

The Company made the required filings with the IRS to request a determination letter with respect to the Plan upon its termination. The Company received a favorable response on January 5, 2010 and the Plan distributed the remaining account balances of the participants by October 1, 2010.

5. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through August 5, 2011, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
