Note 1: Description Of Plan

The following description of the DeCrescente Distributing Co., Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who currently have completed two months of full-time service with no age requirements and elect to make a contribution. The participants can enter the Plan the first of the month following satisfaction of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute 100% of eligible compensation, as defined in the Plan. The total amount of this contribution, however, is subject to (1) the maximum amount allowed by the Internal Revenue Code in any plan year, and (2) the Internal Revenue Code mandated discrimination tests. Employees who have attained age fifty before the close of the Plan year shall be eligible to make catch-up contributions in accordance with Internal Revenue Code provisions. Participants may also contribute amounts representing distributions from other qualified retirement plans.

The Company may make a matching contribution, determined by the Company, equal to a discretionary percentage, of the participant's salary reduction. In determining matching contributions only salary deferrals up to 5% of a participant's compensation will be matched. For the years ended December 31, 2010 and 2009, the Company matched 50% of the employee's deferral on the first 5% of the employee's compensation.

Participant accounts - Each participant's account is credited with the participant's contribution, investment earnings, and the Company's contribution. Allocations are based on participant earnings or account balances in accordance with terms of the Plan. Each participant may make changes to their salary deferral amount quarterly.. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Investments are chosen by the participant from a limited number of investment vehicles offered through Nationwide Life Insurance Company.

Note 1: Description Of Plan (Continued)

Vesting - Participants are immediately vested in their voluntary contribution. Vesting of the Company's discretionary contributions is based on the number of years of service as follows:

Years Of Service	Vesting
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants' loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the vested interest of the participant's account in the Plan. Loan terms range from one to five years, or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1.5% as of the date of the loan. Principal and interest are paid ratably through weekly payroll deductions.

Payment of benefits - On termination of service or separation of service, due to death, disability, or retirement, a participant or their beneficiary will be entitled to receive a distribution of their total vested account balance. Benefits will be paid in accordance with the terms of the Plan.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, each participant's account will become fully vested and be distributed in accordance with the Plan Agreement.

Forfeited accounts - Forfeitures may be used to reinstate previously forfeited account balances of former participants, if any, or applied to reduce employer contributions or pay plan expenses. Forfeitures, which includes earnings, used to reduce employer contributions and plan expenses during the year ended October 31, 2010 and October 31, 2009 amounted to $-0- and $1,896, respectively. Forfeited non-vested accounts at October 31, 2010 and 2009 amounted to $16,584 and $2,486, respectively.

Note 2: Summary Of Significant Accounting Policies

Investment valuation - Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Unallocated Investment Contracts included in the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2: Summary Of Significant Accounting Policies (Continued)

The Plan's investments are held by an independent trust company. The investments in all of the funds, except the Nationwide Life Insurance Company Unallocated Investment Contracts, are based on the quoted market prices reported on the last day of the Plan year. The Nationwide Life Insurance Company Unallocated Investment Contracts are fully benefit-responsive and are reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions.

Purchases and sales of securities are recorded on a trade-date basis with the gain or loss based upon the average-cost method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income taxes - The Plan is exempt from Federal income tax under applicable regulations of the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

Note 3: Fair Value Measurements

The following information included in the accompanying financial statements (other than assignment of levels) was obtained from data that has been prepared and certified as complete and accurate by Nationwide Life Insurance Company.

The following is a description of the valuation methodologies used for assets at fair value at October 31, 2010 and 2009.

(a) *Pooled separate accounts:* Consist of mutual funds that are valued based on unit value calculated based on the net assets of the underlying portfolio held by the Plan at year-end.

(b) *Investment contracts:* Valued based on the book value less any market value adjustment as determined by Nationwide Life Insurance Company.

Note 3: Fair Value Measurements (Continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Fair Value Measurements At Reporting Date Using:

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
October 31, 2010				
Pooled separate accounts	$8,187,258	$ -	$ -	$8,187,258
Investment contracts	-	800,443	-	800,443
Total Investments	$8,187,258	$800,443	$ -	$8,987,701

Pooled separate accounts	$6,496,002	$ -	$ -	$6,496,002
Investment contracts	-	658,200	-	658,200
Total Investments	$6,496,002	$658,200	$ -	$7,154,202

During the years ended October 31, 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the years) appreciated in value as follows:

	2010	2009
Investments at fair value as determined by quoted market price:		
Nationwide Life Insurance Company Pooled Separate Accounts	$1,018,658	$1,031,078

Oppenheimer Global Fund	1,131,384
American Century Ultra Fund	754,467
Nationwide Life Insurance Company Unallocated Investment Contracts	658,200
Dreyfus Intermediate Term Inc A	475,875

Note 5: Investment Contracts With Insurance Company

The Plan has fully benefit-responsive investment contracts with Nationwide Life Insurance Company (Nationwide). Nationwide maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Nationwide. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Nationwide may not terminate the contracts at any amount less than contract value.

Note 5: Investment Contracts With Insurance Company (Continued)

Nationwide is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The interest crediting rate is based on a formula agreed upon with the issuer, which varies each year. The minimum interest crediting rate for 2010 and 2009 was 3.80% and 4.00%, respectively. Such interest rates are reviewed on an annual basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2010
Average yields:	
Based on annualized earnings (1)	3.80%
Based on interest rate credited to participants (2)	3.75%

(1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the investments on the same date.

Note 6: Related Party Transactions

Certain fees for administrative services may be paid by the Company.

Note 7: Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 8: Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to Form 5500 for the years ended October 31:

	2010	2009
Net increase in net assets available for benefits per the financial statement	$1,818,636	$1,754,107
Excess contribution payable adjustment	-	(13,191)
Net Income Per Schedule H Of Form 5500	$1,818,636	$1,740,916

Note 9: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Plan Amendments

During the year ended October 31, 2009, the Plan was amended to comply with and adopt the provisions required by the Pension Protection Act of 2006 (PPA '06), the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART), the Emergency Economic Stabilization Act of 2008 (EESA), and the Workers, Retiree, and Employer Recovery Act of 2008 (WRERRA).

During the year ended October 31, 2009, the Plan was amended to provide for the waiver of the 2009 required minimum distribution as outlined in the Workers, Retiree, and Employer Recovery Act of 2008 (WRERRA). This amendment is effective January 1, 2009 and is limited to the 2009 distribution calendar year.

Note 11: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of October 31, 2010, the Plan believes that it has appropriate support for the income tax positions taken and to be taken based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits. The Plan is no longer subject to federal, state, or local income tax examination by tax authorities for the years before 2006.

Note 12: Subsequent Events

Subsequent events have been evaluated through August 11, 2011, which is the date the financial statements were available to be issued.

Note 13: Change In Presentation

Certain items in the October 31, 2009 financial statements have been changed to conform with the October 31, 2010 financial statement presentation. These changes had no effect on the increase in net assets available for benefits or net assets available for benefits.
