NOTE 1 – DESCRIPTION OF PLAN

The following description of the LEMO USA Inc 401(k) Profit Sharing Plan provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering all employees of LEMO USA, Inc. (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. LEMO USA, Inc. is the plan sponsor and serves as the plan administrator. Administrative expenses are paid by the Company. Certain transaction expenses are paid by the Plan.

Eligibility – Employees are eligible to participate in the Plan on the first day of the month subsequent to their hire date.

Contributions – Participants may elect to defer up to 90% of their compensation, subject to limitations imposed by federal tax law. The Company may elect to make discretionary matching contributions to the Plan. In addition, the Company may make profit sharing contributions at the discretion of the Board of Directors. A participant must be employed as of the last day of the plan year to be eligible for any discretionary matching or profit sharing contributions. For the year ended December 31, 2010, the Company made discretionary contributions of 50% of employee deferral contributions not to exceed 3% of compensation. For the year ended December 31, 2010, the Company did not make any profit sharing contributions.

Participant accounts – Each participant's account is credited with the participant's contribution, the employer's contribution, and allocations of plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their salary deferrals, rollover amounts, and fund earnings thereon. The Company's contributions and earnings thereon are vested in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	33%
2	67%
3	100%

Notes receivable from participants – A participant may borrow a minimum of $1,000 and up to 50% of their vested account, but not in excess of $50,000. Notes are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the plan administrator. The maximum note term is five years, unless the note term qualifies as a home loan, in which case the term of the note is not to exceed ten years. The maximum note term for notes issued prior to 2009 was 30 years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2010, the rates of interest on outstanding notes ranged from 7.25% to 9.25%, and had various maturities through February 2037.

Payment of benefits – Upon retirement, termination of employment, death, or disability, the Plan provides for payments to be made in a lump-sum distribution or via installment payments.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are first used to pay plan administrative expenses, with any remaining amount used to reduce future company contributions. As of December 31, 2010 and 2009, there were no forfeited nonvested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are presented under the accrual method of accounting.

Investment valuation – The Plan's investments are stated at fair value, as determined by Fidelity Management Trust Company (Fidelity). Shares of registered investment company funds are valued at the net-asset value of shares held by the Plan at year-end.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Use of estimates – The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Risks and uncertainties – Investment securities are exposed to various risks, such as interest rate, market, and credit risk. It is reasonably possible that given the level of risk associated with investments securities, changes in the near term could materially affect the investment amounts reported in the financial statements.

Recent account pronouncements – In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2010-06, Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements. The new guidance requires additional disclosures about transfers between levels within the fair value hierarchy and clarifies existing disclosure requirements regarding classes of assets and liabilities measured at fair value. The new guidance requires the Plan to: (a) disclose separately the amounts of significant transfers into and out of each level of the fair value hierarchy and describe the reasons for those transfers, (b) the Plan's policy for determining when transfers between levels of the fair value hierarchy are recognized, and (c) present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The new guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 reconciliation disclosures which are effective for reporting periods beginning after December 15, 2010. The Plan adopted this guidance on January 1, 2010 (see Note 4).

In September 2010, the FASB issued ASU 2010-25, Plan Accounting-Defined Contribution Pension Plans which amends existing guidance by requiring participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments to the Accounting Standards Codification included in ASU 2010-25 are effective for fiscal years ending after December 15, 2010. The Plan has adopted this guidance effective December 31, 2010 and has reclassified participant loans of $115,769 and $89,943 for the years ended December 31, 2010 and 2009, respectively, from investments to notes receivable from participants.

Payments of benefits – Distributions to participants are recorded when paid.

Subsequent events – The Plan has evaluated events occurring between the end of the most recent fiscal year-end and August 11, 2011, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The following table represents the fair value of investments that exceed 5% of plan assets at December 31:

	2010	2009
TRP Blue Chip Growth R	$ 536,220	$ 431,107
Fidelity Prime Fund	443,961	422,544
FA Freedom 2015 A	308,903	177,290
JPM Equity Index A	284,801	202,228
Pioneer Cullen Value A	261,163	214,148
FA Investor Grade Bond A	224,731	195,382
FA Mid Cap II A	200,213	less than 5%

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Generally accepted accounting principles also establish a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to establish fair value are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31:

NOTE 5 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of:

- participant-directed investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009;

- net appreciation in fair value of participant-directed investments, interest income on notes receivable from participants and interest and dividend income reflected in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2010.

- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 6 – TAX STATUS

The Plan is a prototype standardized defined-contribution plan that has received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these investments qualify as exempt party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
