SOUTHERN TOWING COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE A - DESCRIPTION OF PLAN

The following description of significant Plan provisions is provided for general information purposes. Participants should refer to the Plan documents for more complete information. A summary description of the Plan has been provided to all eligible employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Southern Towing Company 401(k) Plan (the "Plan"), which is a defined contribution plan, was adopted by Southern Towing Company (the "Company") in July, 1999. The Plan provides retirement benefits to employees through employee and Company contributions.

Contributions

Generally, employees, who are twenty-one years of age, are eligible to participate in the Plan after the completion of ninety days of employment. Each year, participants may contribute up to 25% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Beginning January 1, 2007, the Company match is 100% of the first 5% of the employees elective deferral. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. No additional amount was elected for 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution, company match and earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions and income thereon is based on years of service. A participant is 100% vested immediately for matching contributions and after five years for profit sharing contributions. Termination of employment for reasons other than death or retirement will result in the forfeiture of portions not vested. Forfeitures are allocated to active participants' individual accounts. There were no forfeitures in the years ended 2010 and 2009. The Plan can be amended, modified, or terminated at any time by action of the Company. In the event of termination, individual accounts of each participant will become fully vested.

Payment of Benefits

A participant may elect to receive a lump-sum distribution or the purchase of an annuity upon retirement, early retirement, death, disability or termination of employment.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through July 30, 2011, which is the date the financial statement were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investment income is recognized when earned. Employer contributions are accrued on the basis of resolutions of the Company's board of directors. Administrative fees are recognized as of their effective date. Common trust funds are carried at fair value, as determined by the Trustee, based on actual trades or quoted market prices. Investment transactions are recorded on the trade date.

Payment of Benefits

The distribution of vested amounts to participants who have withdrawn from participation in the Plan is recognized at the time of distribution.

NOTE C - INVESTMENTS

The Plan's investments are reported at fair value in the accompanying statement of assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly, and Level 3 fair values are based on at least one significant unobservable input for the asset. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 2 and 3 inputs were used.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE C - INVESTMENTS (continued)

Level 2 Fair Value Measurements

The fair value of the pooled separate accounts is based on Level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. Most of the security prices were obtained from a pricing service.

Level 3 Fair Value Measurements

Fair value of the guaranteed interest contract with is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

NOTE D - FINANCIAL INFORMATION CERTIFIED BY TRUSTEE

The Company has elected the method of compliance permitted by Section 2520-103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The accompanying financial statements for the year ended December 31, 2010, were prepared based on information provided to the Company by the Trustee. Such information, which includes all investments held by the Plan, has been certified as complete and accurate by the Trustee, and has not been audited by the Plan's independent accountants.

NOTE E - RELATED PARTY TRANSACTIONS

Plan investments are shares in guaranteed interest accounts or pooled separate accounts issued by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal amounted to \$14,420 and \$10,985 for the years ended December 31, 2010 and 2009, respectively.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

SOUTHERN TOWING COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE G - TAX STATUS

The Plan is intended to be a qualified profit sharing plan as well as a qualified thrift savings plan under Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (the "Code"). A favorable letter of determination has been received from the Internal Revenue Service regarding the Plan; as such, the Plan is exempt from federal income taxes. Management does not believe there are any uncertain tax positions.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
