Independent Auditor's Report

To the Board of Directors
Handmark, Inc. 401(k) Profit Sharing Plan
Kansas City, Missouri

We were engaged to audit the accompanying statements of net assets available for benefits of the Handmark, Inc. 401(k) Profit Sharing Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by State Street Bank and Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certification from the custodian regarding the completeness and accuracy, to the best of their knowledge, of the information provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2010 and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified or provided by the custodian has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in Note 7 to the financial statements, the Plan Sponsor downsized its operations in 2010 which resulted in a partial termination of the Plan.

Note 1. Plan Description

The following description of the Handmark, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of the Company who are age 21 or older. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax law. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute up to 90% of their annual salary in pretax dollars, subject to a maximum limitation as determined by the Internal Revenue Service (the IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. For the year ended December 31, 2010, the discretionary employer matching contribution was equal to 25% of the amount contributed by the participant, up to a maximum of 4% of the participant's covered compensation. The Plan allows for the employer to make discretionary profit sharing contributions. For the year ended December 31, 2010, no discretionary profit sharing contributions were made.

Participant accounts: Each participant's account is credited with the participant's contribution, the employer matching contribution, employer discretionary profit sharing contributions, and an allocation of Plan earnings and administrative expense. Allocations are based on participant earnings or account balances as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferral contributions and related Plan earnings. Participants vest in the employer contributions, which are completely discretionary, based on years of continuous service. A participant is fully vested after four years of credited service in accordance with the following vesting schedule:

Years of Service	Vesting Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Due to the partial Plan termination during 2010, participants affected by the partial termination were 100% vested in the Company's employer contributions and earnings thereon.

Forfeitures: Participant forfeitures will be allocated to reduce employer matching contributions or pay Plan expenses. During the year ended December 31, 2010, the Company used $3,205 of forfeitures to reduce employer contributions. At December 31, 2010 and 2009, the Plan had $10 and $168, respectively, of unallocated forfeitures.

Note 1. Plan Description (Continued)

Participants' investment options: Participants direct their salary deferral and Company contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investments options at any time throughout the year via direct access to ADP Retirement Services.

Earnings derived from investment funds are reinvested in the fund to which they relate. Participants may elect to transfer all or any portion of the value of their individual accounts among investment funds.

Payment of benefits: If a participant's employment with the Company is terminated due to retirement or death, the total vested amount of a participant's account is distributed in cash to the participant or the participant's beneficiary according to one of the options as described in the Plan and as elected by the participant. If a participant's employment with the Company is terminated for any reason other than retirement or death, the total vested amount of the participant's account is payable to the participant as soon as administratively practicable after the participant ceases to be an employee.

Note 2. Significant Accounting Policies

Following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements.

Basis of accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board ASC topic, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (formerly known as Staff Position FSP AAG INV-1 and SOP 94-4-1), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through collective trusts. As required by the topic, the statement of net assets available for benefits presents the fair value of the investment in the collective trusts as well as the adjustment of the investment in the collective trusts from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. At December 31, 2010, contract value and fair value were determined by the custodian, State Street Bank and Trust Company, to be the same for the common collective trusts.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid. There were no withdrawals approved but not yet paid as of December 31, 2010.

Note 3. Information Certified by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate, to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedule related to the following assets:

	December 31,	
	2010	2009
Investment at fair value:		
Registered investment companies	**$ 2,292,881**	$ 1,732,024
Common/collective trust	**128,603**	124,106

The custodian also certified to the completeness and accuracy, to the best of their knowledge, of $292,227 of net appreciation in fair value investments and $31,382 in dividends and interest for the aforementioned investments for the year ended December 31, 2010.

Note 4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codifications (formerly known as FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the topic are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment companies: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Common/collective trusts: Valued at the net asset value ("NAV") of the underlying investments at the end of the Plan year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009. The following tables present separately those assets that represent 5 percent or more of the Plan's net assets:

(A) The SSGA Stable Value Fund seeks to preserve principal while maintaining a rate of return comparable to other similar fixed income investments without market value fluctuations. The Fund primarily invests in investment contracts held at book value (issued by insurance companies, banks or other financial institutions), and high quality short investment products. SSGA Stable Value Fund is a portfolio consisting of Guaranteed Investment Contracts. SSGA is the investment manager for the Stable Value Fund. This fund is managed exclusively for participants in certain plans for which ADP Retirement Services provides recordkeeping and related services. The Stable Value Fund has no redemption restrictions and could be closed at any time.

(B) The SSGA S&P 500 Index seeks to provide returns that correspond to the total return of U.S. common stocks as represented by the Standard & Poor's 500 Index. The fund invests in individual U.S. common stocks in identical proportions to the Standard & Poor's 500 Index (equity index). The S&P 500 Index is an unmanaged index containing common stocks of 500 industrial, transportation, utility and financial companies, regarded as generally representative of the U.S. stock market. The SSGA S&P 500 Index has no redemption restrictions and could be closed at any time.

Note 4. Fair Value Measurements (Continued)

(C) The SSGA International Index seeks to match the performance of the MSCI EAFE Index while providing daily liquidity. The MSCI EAFE Index consists of almost 1,000 stocks in 21 countries outside of North and South America, and represents approximately 85% of the total market capitalization in those countries. The Fund invests in 3 country/regional funds which together make up the MSCI EAFE Index. Those funds include Europe, Japan, and Pacific Basin ex-Japan. This approach allows investors to gain daily exposure to EAFE as a whole, or any combination of the 3 component parts. The Fund employs an index replication approach in an attempt to match the returns of the Index. Replication results in low turnover, accurate tracking, and low costs. The Fund uses a hierarchy of trading processes when appropriate including internal crossing, external crossing, futures, and agency trades to attempt to capitalize on every opportunity to reduce the Fund's transaction costs. In order to facilitate daily liquidity, the Fund may hold up to 20% of its value in international equity index futures. Foreign investments involve greater risks and potential rewards than U.S. investments. These risks include political and economic uncertainties of foreign countries, as well as the risk of currency fluctuations. The International Index has no redemption restrictions and could be closed at any time.

Changes in Fair Value and Related Gains and Losses

During 2010, the Plan's assets (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $292,227, as follows:

Common/collective trusts	$	8,260
Registered investment companies		283,967
	$	292,227

Note 5. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other expenses of the Plan are paid by the Plan and the Plan sponsor.

Note 6. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7. Plan Termination

The Company intends to continue the Plan indefinitely. However, the Company may, at any time and for any reason, subject to ERISA and IRS regulations, amend, suspend, or terminate the Plan upon giving notice to all parties concerned, provided that such action does not retroactively and adversely affect the rights of any participant or beneficiary under the Plan.

In 2010, the Plan Sponsor downsized its operations which resulted in a partial termination of the Plan. Participants affected by the partial termination were 100% vested in their accounts.

Note 8. Federal Income Tax Status

The underlying standardized prototype plan has received an opinion letter from the IRS dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Code, and, therefore, the related trust is tax-exempt. The Plan sponsor has determined that it is eligible to, and has chosen to rely on the current IRS prototype plan opinion letter. Although the Plan has been amended since the prototype plan received the opinion letter, the Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

Note 9. Related-Party Transactions

Certain Plan investments are common/collective trusts managed by State Street Global Advisors (SSGA). SSGA is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to SSGA for investment services are netted with investment income on the statement of changes in net assets available for benefits. ADP provides record keeping services for the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid to ADP amounted to $1,350 for the year ended December 31, 2010.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009

Note 10. Reconciliation of Financial Statements to Form 5500 (Continued)

The following is a reconciliation of the net increase in net assets available for benefit per the financial statements for the year ended December 31, 2010 to Form 5500.

Net increase in net assets available for benefits per the financial statements	$	577,081
Contributions receivable as of December 31, 2009		26,363
Contributions receivable as of December 31, 2010		(21,966)
Excess contributions payable as of December 31, 2009		(16,124)
Net increase in net assets available for benefits per Form 5500	$	565,354

Note 11. Recently Issued Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board issued an amendment on the Fair Value Measurements and Disclosure Topic, which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2009. The adoption of this amendment had no impact on the financial statements or disclosures. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010.

In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04).* ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 12. Subsequent Events

Management has evaluated and disclosed subsequent events up to and including August 9, 2011, which is the date the financial statements were available to be issued.
