**STAFFSCAPES, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS**

DECEMBER 31, 2010 AND 2009

Note 1: Description of Plan

The following description of the Staffscapes, Inc. 401(k) Profit Sharing Plan (the Plan), provides only general information. Participants should refer to the Summary Plan Description or the Plan agreement for a more complete description of the Plans' provisions. The Summary Plan Description has been made available to all participants in the Plan, and a copy of the Plan agreement is available from the Plan administrator.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective May 1, 2007, the Plan was restated in its entirety to a Volume Submitter Multiple Employer Tax Favored Saving and Discretionary Contribution and Trust Agreement ("Volume Submitter Plan") provided by Transamerica Financial Life Insurance Company. The amendment did not reduce the benefits or lessen the rights of employees with respect to benefits accrued prior to the date of the restatement. On March 31, 2008, the IRS approved the amended Volume Submitter Plan for changes required by the Economic Growth and Tax Relief Reconciliation Act of 2001 and various final Treasury regulations and IRS guidance published within the last several years. On June 1, 2008, the Plan was amended to allow for after-tax Roth Elective Contributions. At the end of 2010 and 2009, fourteen employers were participating in the Plan.

Administration

The Plan is administered by Staffscapes, Inc. (the Company). Plan trustees are Company employees who have been appointed by the Board of Directors of the Company. Certain administrative expenses incurred by the Plan have been paid for by the Company.

Contributions

Participant eligibility in the Plan varies from 18 to 21 years of age, with various service requirements. During any taxable year, participant contributions are subject to a limitation imposed by the Internal Revenue Service. Certain employers offer company contributions, some offer discretionary contributions, while some employers offer neither company nor discretionary contributions. Participants can direct the investment of their contributions into thirty-two pooled separate accounts and one money market account, as investment options offered by the Plan.

Note 1: Description of Plan (cont.)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching discretionary contributions portion of their accounts, if applicable, plus actual earnings thereon varies by employer from the first day of eligibility to six years. Participants are eligible for benefits under the Plan upon normal retirement at age 65 or upon death or termination of service due to disability.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, if applicable, and Plan earnings. Each account is also charged with an allocation of administrative expenses, while the remaining expenses of administering the Plan are absorbed by the Company. Allocations are based on participant earnings on account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of the vested portion of their account balance. Loan terms may range up to five years, unless the loan is for the purchase of a primary residence when the term can be extended to ten years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates, as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Loan transactions are treated as transfers between the investment and loan fund. Interest earned on loan balances is treated as income to the loan fund and a subsequent transfer into the employee's investment funds.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Distributions are subject to the applicable provisions of the Plan agreement, and are made as soon as is administratively possible after the receipt of the distribution request.

Note 1: Description of Plan (cont.)

Forfeited Accounts

At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$1,449 and \$1,466, respectively. These accounts will be used to first pay plan expenses, then to reduce employer contributions to the plan.

Note 2: Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through July 28, 2011, which is the date the financial statements were available to be issued.

Method of Accounting

Assets, liabilities, revenues and expenses are recognized on the accrual method of accounting for financial statement presentation. Wherever necessary, prior period financial statements have been restated to conform to changes in the way amounts are classified in the current year financial statements.

Investment contracts held by a defined-contribution plan are required to be reported at fair market value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principals requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**STAFFSCAPES, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS**

DECEMBER 31, 2010 AND 2009

Note 2: Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The general account contains investments in a fully benefit responsive investment contract and the investments are stated at contract value which is also the fair market value. The average yield earned by the plan is equal to the average yield earned by the plan adjusted to reflect the actual interest rate credited to the plan participants. Interest rates are reset monthly at the beginning of each month and are applied daily to the total outstanding balance of the investment. There is no stated maturity date for the investment. As of December 31, 2010 and 2009, there are no reserves against the contract for credit risk of the contract issuer or otherwise.

Investments in pooled separate accounts are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Contributions

Employee contributions are recorded in the period during which the Company makes payroll deductions from the participants' earnings. Matching Company contributions, if applicable, would be recorded in the same period.

Benefits

Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

DECEMBER 31, 2010 AND 2009

Note 3: Fair Value Measurements (cont.)

FASB ASC 820-10-35-37, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly through corroboration with observable market value, and Level 3 inputs which are unobservable have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are utilized when available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of pooled separate accounts is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The investment contract with an insurance company is not actively traded, the risk is defined by the insurance company third party credit rating which is observable. Thus, the fair value of the fully-benefit responsive investment contract is the contract value because the contract value is the amount the participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Level 3 Fair Value Measurements

The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Note 9: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10: Compliance Testing

During 2009, one employer in the plan was determined to be top heavy, but has complied with the top heavy rules required by ERISA. The employer elected to return excess contributions totaling \$682 plus earnings in 2010.
