To the Trustee of
Gray Metal Products, Inc. 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of the Gray Metal Products, Inc. 401(k) Plan as of December 31, 2010 and 2009 and the statements of changes in net assets available for benefits and the supplemental schedule of investments held for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in the schedule of investments held which was certified by The Canandaigua National Bank and Trust, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010 and 2009 that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. DESCRIPTION OF PLAN

The following description of the Gray Metal Products, Inc. 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Salary Reduction Plan pursuant to section 401(k) of the Internal Revenue Code, established on January 1, 1999. It covers substantially all employees of Gray Metal Products, Inc. (the Company) who meet an age requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

Participation

Eligible employees may become participants commencing on the first day of the next calendar quarter following the attainment of the age of 21.

Contributions

The Company shall make deferral contributions (elective deferrals) on behalf of each participant who has an executed salary reduction agreement in effect with the Company. The maximum contribution each participant may make each year is subject to Federal limits.

Each year, the Company may make matching contributions on behalf of each participant based on participant deferrals. The Company match is 25% of the participant's elective deferrals up to a maximum of 5% of the participant's compensation. Matching contributions amounted to $14,190 and $10,563 for the years ended December 31, 2010 and 2009, respectively.

The Company may decide each plan year to make a discretionary profit sharing contribution on behalf of the eligible participant. Such contributions shall be allocated to eligible participants in the ratio that each participant's compensations bears to the total compensation paid to all eligible participants for the plan year. In order to qualify to receive a discretionary profit sharing contribution, the employee must be eligible for participation in the Plan. In 2010 and 2009, the company made discretionary profit sharing contributions totaling $-0- and $-0-, respectively. Discretionary profit sharing contributions may vary annually and are determined by management of the Company.

In addition, participants may transfer funds from other qualified plans, with the consent of the Plan Administrator.

Vesting

Participants are immediately 100% vested in their elective deferrals and rollover contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of continuous service.

DESCRIPTION OF PLAN (Continued)

A vested percentage for discretion matching contributions is determined in accordance with the following vesting schedule:

Years of Service For Vesting	Vesting Percentages
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participants vested interest in their account, or in annual installments based on participant and spouse's life expectancy.

Notes Receivable Participants

The Plan allows participants to borrow funds from their accounts. Loans are not to exceed the lessor of 50% of the employee's vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.50%, which are commensurate with the local prevailing rates as determined quarterly by the Plan Administrator. Repayments of principal and interest are made through payroll withholding. At any time, no more than one loan is permitted to be outstanding from the Plan to the participant.

DESCRIPTION OF PLAN (Continued)

Forfeited Accounts

Forfeitures arising under the Plan are used to reduce the Company's contributions to the Plan.

	2010	2009
Forfeitures available for using beginning of year	$ 411	$ 314
Forfeitures generated	-	86
Forfeitures used to reduce Company contributions	(429)	-
Earnings on forfeitures	20	11
Forfeitures available for use at end of year	$ 2	$ 411

Administrative Expenses

Administrative costs of the Plan are paid by the Company, with the exception of administrative fees charged by the custodian to individual participants for loan and withdrawal administration. Administrative expenses consist of $1,200 and $300 for the years ended December 31, 2010 and 2009, respectively.

SUMMARY OF SIGINIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for pension benefits and changes in those net assets.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Fair Value Measurement footnote.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurement

The Plan has adopted FASB Accounting Standards Codification 820 (formally Statement of Financial Accounting Standards No. 157), which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB Accounting Standards Codification 820 are described below:

SUMMARY OF SIGINIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement (Continue)

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities inactive markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the assets or liability
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at the fair value. There have been no changes in methodologies used at December 31, 2010 and 2009.

Money Market Funds: Valued at the net asset value ("NAV") of shares held by the Plan at the end of the year.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at the end of the year.

Participant Loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, Canandaigua National Bank and Trust, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits, the schedule of assets held for investment purposes and the related investment activity reflected in the statements of changes in net assets available for benefits.

Reclassification

Certain accounts in the prior year's financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

TAX STATUS

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believe the Plan is designed and is currently being operated in compliance wit the applicable requirement of the IRC.

PLAN TERMINATION

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.
