Selmet, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements

December 31, 2010 and 2009

Note 1 - Description of the Plan

The following description of the Selmet, Inc. 401(k) Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan documents for complete information.

General

The Plan is a defined contribution plan covering all full-time employees of Selmet, Inc. ("Company") who have completed at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The plan agreement provides for voluntary employee salary deferral contributions. Participants may elect to defer up to the Internal Revenue Service's annual limit of \$16,500 (\$22,000 for participants age 50 and over).

Participant accounts

Separate individual accounts are maintained for each participant. Each participant's account is credited with the participant's contribution and an allocation of the Plan's investment income or losses based upon the participant's prior election of investment option. Participant accounts are charged for certain administrative expenses of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants may direct their contributions into sixteen separate investment options or into one of four model portfolios.

Vesting

Participant accounts are fully vested at all times and are not subject to forfeiture prior to the time of withdrawal or distribution.

Notes receivable from participants

Under the terms of the Plan, a participant may borrow from his or her account a minimum of \$1,000 up to a maximum of \$50,000 or 50% of the participant's account balance. Each note receivable is secured by the balance in the participant's account and bears interest at a rate commensurate with local market rates for similar notes receivable. Principal and interest are repaid through payroll deductions.

Notes to Financial Statements (Continued)

December 31, 2010 and 2009

Note 1 - Description of the Plan (continued)

Payment of benefits

Upon attaining normal retirement age (65), death, or termination of employment due to disability, a participant or the participant's beneficiary may elect to receive either a lump-sum amount or a monthly, quarterly, semi-annual, or annual annuity equal to the value of the participant's account over a period not to exceed the life expectancy of the participant. For termination of service due to other reasons, a participant may receive the value of his or her account as a lump-sum distribution.

Plan termination

It is the intention of the Company that the Plan will continue indefinitely. However, continuation of the Plan is not assumed as an obligation of the Company. The Plan may be amended or terminated at any time subject to the provisions of ERISA.

Plan insurance

The Plan is a defined contribution plan and, as such, is not insured by the Pension Benefit Guaranty Corporation.

Note 2 - Summary of significant accounting policies

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment earnings includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements (Continued)

December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies (continued)

Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued at the net asset value (NAV) of shares held by the Plan reported in the active market in which the individual security is traded (level 1 inputs). There has been no change in the methodology used at December 31, 2010 and 2009.

Plan expenses

The Plan permits the payment of administrative expenses from the Plan's assets. These expenses are allocated either proportionately based on the value of the account or any other reasonable method elected by the plan administrator. The majority of the administrative expenses relating to operating and maintaining the Plan are paid from the Plan's assets. Expenses related to the audit and consultations on investment offerings of the Plan are paid by the Company. Expenses relating to specific participant transactions (i.e., notes receivable setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Selmet, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements (Continued)

December 31, 2010 and 2009

Note 2 - Summary of significant accounting policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Income tax status

The Plan is designed to be qualified and exempt from income taxes under Sections 401(k) and 501(a) of the Internal Revenue Code ("IRC"). The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2004.

Risks and uncertainties

The Plan provides for investment options in mutual funds. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 2 - Summary of significant accounting policies (continued)

Reclassifications

Certain items for 2009 have been reclassified in the accompanying financial statements to conform to the presentation for 2010. The reclassification has no effect on the change in net assets for the year ended December 31, 2009.

Note 3 - Certified financial data

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Charles Schwab Trust Company has certified to the completeness and accuracy of all investments, except notes receivable from participants, reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009 and the schedule of assets (held at end of year) as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

Note 4 - Party-in-interest transactions

Fees paid by the Plan for administrative expenses amounted to \$15,625 and \$11,514 for the years ended December 31, 2010 and 2009, respectively. The plan sponsor did not reimburse the Plan for these expenses.

Notes to Financial Statements (Continued)

Note 5 - Investments

The fair market values of individual assets that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009 are as follows:

<u>Description</u>	<u>Fair value</u>	
	<u>2010</u>	<u>2009</u>

Vanguard 500 Index Fund - Admiral Shares	786,343	748,952

Note 6 - Derivative and hedging activities

Certain plan funds may invest in derivative instruments to manage the risk associated with variability in cash flows. Some plan funds also enter into forward currency contracts to manage their exposure to changes in non-U.S. exchange rates arising from investments dominated in non-U.S. currencies. Risks from such contracts may include the potential inability of counterparties to meet the terms of their contracts and from possible movements in non-U.S. exchange rates.

Note 7 - Net assets available for benefits

Net assets available for benefits consists of the following:

	<u>2010</u>	<u>2009</u>

Amounts allocated to accounts of persons who have withdrawn from participation
