401(k) DEFERRED SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009**

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Vertellus Specialties Inc. 401(k) Deferred Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Information about the Plan agreement is also contained in a publication entitled "Summary of Vertellus Specialties Inc. 401(k) Deferred Savings Plan." Copies of this summary are available from the Plan administrator.

1. **General.** The Plan is a contributory participant directed deferred savings arrangement designed to qualify under Section 401(k) of the Internal Revenue Code. The Plan allows employees an opportunity to save for their retirement while excluding the contribution from their current taxable income. The Plan allows for employees to be eligible immediately upon employment.
2. **Contributions.** Employees may elect to defer 1 percent to 60 percent of their compensation. The employee may also make additional nondeductible contributions to the Plan of up to 10 percent of their compensation. The Company makes a safe harbor employer matching contribution on the employees' behalf based in the following formula: 100 percent of the first 3 percent of participant compensation contributed plus 70 percent of the next 3 percent of participant compensation contributed. In addition, the Company may make a discretionary contribution on behalf of Participants who do not participate in another Company sponsored retirement or pension plan in an amount equal to 3 percent of their compensation. The Company's matching contributions were temporarily suspended for non-union employees from April 1, 2009 to April 1, 2010. The match remained in effect for union employees during that period.
3. **Participant Accounts.** Each participant's account is credited with the participant's salary deferral and allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.
4. **Vesting.** The interest of a participant in the value of his account is fully vested at all times.
5. **Investment Options.** Upon enrollment in the Plan, a participant may direct contributions among a variety of investment options. Participants may change their investments options daily.

NOTES TO FINANCIAL STATEMENTS CONTINUED

NOTE A - CONTINUED

6. **Notes Receivable from Participants.** Participants may borrow from their fund accounts 50 percent of their vested account balance to a maximum of \$50,000, and a minimum of \$1,000. In addition, the participants must show a heavy financial need. Loan terms may not exceed five years. The loans are treated as a transfer from the investment fund of the participant into a separate loan account in the name of the participant. The interest rate is fixed over the life of the loan at the rate determined annually by the Plan sponsor benefits committee, which range from 4.25 percent to 9.25 percent. Principal and interest are paid ratably through payroll deductions.
7. **Payment of Benefits.** On termination of service, a participant will receive the value of his or her account as a lump sum distribution.

The Company may terminate the Plan at any time by action of its Board of Directors, although it currently has no intention to do so. In the event the Plan is terminated, the participant's vested interest in his account will be distributed to him.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

1. **Basis of Accounting.** The financial statements of the Plan are prepared under the accrual method of accounting.
2. **Investments Valuation and Income Recognition.** Investments are stated at aggregate fair value. Investments which are traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. Investments traded on the over-the-counter market and listed securities for which no sale was reported on that date are valued at the last reported bid price. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. The realized gain or loss from sales of investments is the difference between the proceeds received and the specific cost of investments sold.
3. **Notes Receivable from Participants.** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.
4. **Operating Expenses.** All expenses of maintaining the Plan are paid by the Company.
5. **Use of Estimates.** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE F - PLAN MERGER

The Vertellus Specialties Inc. 401(k) Deferred Savings Plan was merged with the Rutherford Chemicals Savings Plan and the Morflex, Inc. Employee Savings Plus and Profit Sharing Plan, effective January 1, 2007. The merged Plan became the Vertellus Specialties Inc. 401(k) Deferred Savings Plan. The new trustee, investment custodian, and record keeper of the new Plan is Fidelity Management Trust Company. Plan assets previously held by National City Bank were liquidated and transferred to Fidelity as part of the merger. The Reilly Industries, Inc. Target Benefit Plan was merged into the 401(k) Deferred Savings Plan in September 2009.

NOTE G - NAME CHANGE

Reilly Industries, Inc. changed its name to Vertellus Specialties Inc. effective July 2006.

NOTE H - SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 12, 2011, which is the date the financial statements were available to be issued.

NOTE I - TAX STATUS

The Plan is intended to qualify under Section 401 of the Internal Revenue Code, and consequently not be subject to tax. A favorable determination was made on the Plan by the IRS on March 31, 2008.

Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to regulatory examinations for the years prior to 2004.

NOTE J - FAIR VALUE MEASUREMENT

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to valuation methodologies include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds - Valued at the Net Asset Value (NAV) of shares held by the Plan at year end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009**

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Vertellus Specialties Inc. 401(k) Deferred Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Information about the Plan agreement is also contained in a publication entitled "Summary of Vertellus Specialties Inc. 401(k) Deferred Savings Plan." Copies of this summary are available from the Plan administrator.

1. **General.** The Plan is a contributory participant directed deferred savings arrangement designed to qualify under Section 401(k) of the Internal Revenue Code. The Plan allows employees an opportunity to save for their retirement while excluding the contribution from their current taxable income. The Plan allows for employees to be eligible immediately upon employment.
2. **Contributions.** Employees may elect to defer 1 percent to 60 percent of their compensation. The employee may also make additional nondeductible contributions to the Plan of up to 10 percent of their compensation. The Company makes a safe harbor employer matching contribution on the employees' behalf based in the following formula: 100 percent of the first 3 percent of participant compensation contributed plus 70 percent of the next 3 percent of participant compensation contributed. In addition, the Company may make a discretionary contribution on behalf of Participants who do not participate in another Company sponsored retirement or pension plan in an amount equal to 3 percent of their compensation. The Company's matching contributions were temporarily suspended for non-union employees from April 1, 2009 to April 1, 2010. The match remained in effect for union employees during that period.
3. **Participant Accounts.** Each participant's account is credited with the participant's salary deferral and allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.
4. **Vesting.** The interest of a participant in the value of his account is fully vested at all times.
5. **Investment Options.** Upon enrollment in the Plan, a participant may direct contributions among a variety of investment options. Participants may change their investments options daily.

NOTES TO FINANCIAL STATEMENTS CONTINUED

NOTE A - CONTINUED

6. **Notes Receivable from Participants.** Participants may borrow from their fund accounts 50 percent of their vested account balance to a maximum of \$50,000, and a minimum of \$1,000. In addition, the participants must show a heavy financial need. Loan terms may not exceed five years. The loans are treated as a transfer from the investment fund of the participant into a separate loan account in the name of the participant. The interest rate is fixed over the life of the loan at the rate determined annually by the Plan sponsor benefits committee, which range from 4.25 percent to 9.25 percent. Principal and interest are paid ratably through payroll deductions.
7. **Payment of Benefits.** On termination of service, a participant will receive the value of his or her account as a lump sum distribution.

The Company may terminate the Plan at any time by action of its Board of Directors, although it currently has no intention to do so. In the event the Plan is terminated, the participant's vested interest in his account will be distributed to him.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

1. **Basis of Accounting.** The financial statements of the Plan are prepared under the accrual method of accounting.
2. **Investments Valuation and Income Recognition.** Investments are stated at aggregate fair value. Investments which are traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. Investments traded on the over-the-counter market and listed securities for which no sale was reported on that date are valued at the last reported bid price. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. The realized gain or loss from sales of investments is the difference between the proceeds received and the specific cost of investments sold.
3. **Notes Receivable from Participants.** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.
4. **Operating Expenses.** All expenses of maintaining the Plan are paid by the Company.
5. **Use of Estimates.** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE F - PLAN MERGER

The Vertellus Specialties Inc. 401(k) Deferred Savings Plan was merged with the Rutherford Chemicals Savings Plan and the Morflex, Inc. Employee Savings Plus and Profit Sharing Plan, effective January 1, 2007. The merged Plan became the Vertellus Specialties Inc. 401(k) Deferred Savings Plan. The new trustee, investment custodian, and record keeper of the new Plan is Fidelity Management Trust Company. Plan assets previously held by National City Bank were liquidated and transferred to Fidelity as part of the merger. The Reilly Industries, Inc. Target Benefit Plan was merged into the 401(k) Deferred Savings Plan in September 2009.

NOTE G - NAME CHANGE

Reilly Industries, Inc. changed its name to Vertellus Specialties Inc. effective July 2006.

NOTE H - SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 12, 2011, which is the date the financial statements were available to be issued.

NOTE I - TAX STATUS

The Plan is intended to qualify under Section 401 of the Internal Revenue Code, and consequently not be subject to tax. A favorable determination was made on the Plan by the IRS on March 31, 2008.

Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to regulatory examinations for the years prior to 2004.

NOTE J - FAIR VALUE MEASUREMENT

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to valuation methodologies include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds - Valued at the Net Asset Value (NAV) of shares held by the Plan at year end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
