NOTE 1 DESCRIPTION OF PLAN

The following description of Truck Centers, Inc. (the "Employer") 401(k) Plan (the "Plan"), formally known as Truck Centers, Inc. NADART Salary Deferral 401(k) Plan, is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective June 1, 1986. The Plan has been amended and restated throughout the years to comply with tax legislation and was last amended effective September 1, 2010. The Plan is sponsored by Truck Centers, Inc. and covers employees who meet certain eligibility requirements. An employee is eligible to participate in the Plan upon attaining age 21 and the completion of one month of service. Employees may participate in the Plan on the first day of the following month upon meeting the eligibility requirements. The Plan excludes collective bargaining unit employees. It is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Eligible participants may elect to have a percentage of their compensation contributed as pre-tax 401(k) contributions to the Plan. Eligible participants may also elect to have a percentage of their compensation contributed as after-tax 401(k) contributions to the Plan. The Plan allows participants age 50 and older to make catch-up contributions. Until January 1, 2010, the Plan had an automatic enrollment feature that automatically withholds 3% as a pretax 401(k) deferral unless otherwise elected by the participant. Effective January 1, 2010, participants may designate all or a portion of their elective deferrals as Roth elective deferrals.

The Employer may, at its discretion, elect to make an Employer matching contribution or Employer non-elective contribution to the Plan. There were no Employer matching or Employer non-elective contributions for the years ended December 31, 2010 and 2009.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Employer matching contribution, an allocation of the Employer's non-elective contribution, earnings or losses, and the participant's share of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan. Income is allocated daily based on the number of shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are immediately vested in their contributions, Employer contributions, and actual earnings thereon.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Principal and interest is paid ratably through payroll deductions. Note terms are up to five years, except for notes to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years. Up to October 1, 2010, participants were allowed to have two notes outstanding at one time. Effective October 1, 2010, participants may have only one note outstanding at one time. The notes are secured by the balance in the participant's account and bear interest at the Prime interest rate plus 1%. At December 31, 2010, interest rates on outstanding notes ranged from 4.25% to 9.25%.

Benefit Payments

Upon termination of service, death, disability, or retirement (early or normal), the participant will receive the value of the vested interest in his or her account in the form of a lump sum distribution, in installments, or, if qualified, as an annuity. The Plan allows for in-service distributions if a participant reaches age 59½ and has seven years of credited service and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If a terminated participant's account balance is between $1,000 and $5,000, the Plan administrator may elect to roll the account balance into an individual retirement account in the participant's name.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2010 and 2009.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Mutual funds represent investments with various investment managers. The fair values of mutual funds are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value. Investments in the collective trust fund are valued indirectly based on the Net Asset Value (NAV) of the underlying assets.

The Plan invests in the Federated Capital Preservation Fund, a common/collective trust (CCT) fund. This CCT primarily invests in fully benefit-responsive investment contracts issued by insurance companies and other financial institutions and is required to be reported at fair value in the Plan's financial statements. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. As a result, the Federated Capital Preservation Fund is included in Investments on the Statements of Net Assets Available for Benefits at fair value. The difference between the fair value and the contract value of the fully benefit-responsive contracts held by the CCT is presented separately in the Statements of Net Assets Available for Benefits.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains/losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Employer pays certain administrative expenses on behalf of the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

During 2010, Financial Accounting Standards Board (FASB) released guidance that reclassifies participant loans from investments to notes receivable effective for fiscal years ending after December 15, 2010. The guidance permits early adoption and requires the reclassification to be retrospectively applied to all prior periods presented. The Plan adopted this guidance effective for the Plan year ended December 31, 2010.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Reclassifications

Certain amounts in the 2009 financial statements have been reclassified to conform with the 2010 presentation. These reclassifications do not affect net assets available for benefits as previously reported.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 24, 2011, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Cardinal Bank and Alerus Financial, N.A., the trustees of the Plan, have supplied the Plan administrator with certifications as to the completeness and accuracy of notes receivable from participants and all investment information, except for the adjustment from fair value to contract value, reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, the schedule of assets (held at end of year) as of December 31, 2010, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

	2010			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund:				
Stable Value Fund	$ 1,252,023	$ -	Daily	None

	2009

Collective Trust Funds:

Mid Cap Funds	1,635,344	-	Daily	None
Small Cap Funds	1,023,449	-	Daily	None
Target Dated Funds	2,001,034	-	Daily	None

The Stable Value Fund's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the Fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The Income Funds seek to preserve capital while providing prevailing interest rate returns.

The International Funds seek to provide investors a core value approach to investments with diversified exposure to the international equity markets, across capitalization and regions, with a focus on well-managed companies.

The Balanced Funds seek to provide for moderate growth and reinvestment of income.

The Large Cap Funds seek to provide investors with long-term growth of capital.

The Mid Cap Funds seek long-term growth of capital in a manner consistent with the preservation of capital.

The Small Cap Funds seek high levels of capital appreciation.

The Target Date Funds seek to allocate assets across multiple asset classes in a manner that becomes increasingly conservative over time, while seeking to achieve the appropriate level of risk given a participants' anticipated retirement date.

NOTE 5 INVESTMENTS (CONTINUED)

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in mutual funds and collective trust funds appreciated as follows:

	2010	2009
Mutual Funds	$ 186,911	$ 94,636
Collective Trust Funds	1,170,497	2,427,008
Total	$ 1,357,408	$ 2,521,644

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and market risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will remain 100% vested in their accounts.

NOTE 8 PLAN TAX STATUS

The Plan is placing reliance on an opinion letter dated March 31, 2008 received from the Internal Revenue Service on the prototype plan indicating that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is therefore not subject to tax under current income tax law. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

Up to October 1, 2010, the investments were managed by Cardinal Bank, the trustee of the Plan and NADART was the third-party administrator for the Plan. Effective October 1, 2010, the investments are managed by Alerus Financial N.A., the trustee of the Plan, and the third-party administrator for the Plan. Therefore, these transactions qualify as party-in-interest.

NOTE 1 DESCRIPTION OF PLAN

The following description of Truck Centers, Inc. (the "Employer") 401(k) Plan (the "Plan"), formally known as Truck Centers, Inc. NADART Salary Deferral 401(k) Plan, is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective June 1, 1986. The Plan has been amended and restated throughout the years to comply with tax legislation and was last amended effective September 1, 2010. The Plan is sponsored by Truck Centers, Inc. and covers employees who meet certain eligibility requirements. An employee is eligible to participate in the Plan upon attaining age 21 and the completion of one month of service. Employees may participate in the Plan on the first day of the following month upon meeting the eligibility requirements. The Plan excludes collective bargaining unit employees. It is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Eligible participants may elect to have a percentage of their compensation contributed as pre-tax 401(k) contributions to the Plan. Eligible participants may also elect to have a percentage of their compensation contributed as after-tax 401(k) contributions to the Plan. The Plan allows participants age 50 and older to make catch-up contributions. Until January 1, 2010, the Plan had an automatic enrollment feature that automatically withholds 3% as a pretax 401(k) deferral unless otherwise elected by the participant. Effective January 1, 2010, participants may designate all or a portion of their elective deferrals as Roth elective deferrals.

The Employer may, at its discretion, elect to make an Employer matching contribution or Employer non-elective contribution to the Plan. There were no Employer matching or Employer non-elective contributions for the years ended December 31, 2010 and 2009.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Employer matching contribution, an allocation of the Employer's non-elective contribution, earnings or losses, and the participant's share of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan. Income is allocated daily based on the number of shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are immediately vested in their contributions, Employer contributions, and actual earnings thereon.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Principal and interest is paid ratably through payroll deductions. Note terms are up to five years, except for notes to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years. Up to October 1, 2010, participants were allowed to have two notes outstanding at one time. Effective October 1, 2010, participants may have only one note outstanding at one time. The notes are secured by the balance in the participant's account and bear interest at the Prime interest rate plus 1%. At December 31, 2010, interest rates on outstanding notes ranged from 4.25% to 9.25%.

Benefit Payments

Upon termination of service, death, disability, or retirement (early or normal), the participant will receive the value of the vested interest in his or her account in the form of a lump sum distribution, in installments, or, if qualified, as an annuity. The Plan allows for in-service distributions if a participant reaches age 59½ and has seven years of credited service and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If a terminated participant's account balance is between $1,000 and $5,000, the Plan administrator may elect to roll the account balance into an individual retirement account in the participant's name.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2010 and 2009.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Mutual funds represent investments with various investment managers. The fair values of mutual funds are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value. Investments in the collective trust fund are valued indirectly based on the Net Asset Value (NAV) of the underlying assets.

The Plan invests in the Federated Capital Preservation Fund, a common/collective trust (CCT) fund. This CCT primarily invests in fully benefit-responsive investment contracts issued by insurance companies and other financial institutions and is required to be reported at fair value in the Plan's financial statements. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. As a result, the Federated Capital Preservation Fund is included in Investments on the Statements of Net Assets Available for Benefits at fair value. The difference between the fair value and the contract value of the fully benefit-responsive contracts held by the CCT is presented separately in the Statements of Net Assets Available for Benefits.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains/losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Employer pays certain administrative expenses on behalf of the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

During 2010, Financial Accounting Standards Board (FASB) released guidance that reclassifies participant loans from investments to notes receivable effective for fiscal years ending after December 15, 2010. The guidance permits early adoption and requires the reclassification to be retrospectively applied to all prior periods presented. The Plan adopted this guidance effective for the Plan year ended December 31, 2010.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Reclassifications

Certain amounts in the 2009 financial statements have been reclassified to conform with the 2010 presentation. These reclassifications do not affect net assets available for benefits as previously reported.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 24, 2011, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Cardinal Bank and Alerus Financial, N.A., the trustees of the Plan, have supplied the Plan administrator with certifications as to the completeness and accuracy of notes receivable from participants and all investment information, except for the adjustment from fair value to contract value, reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, the schedule of assets (held at end of year) as of December 31, 2010, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

	2010			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund:				
Stable Value Fund	$ 1,252,023	$ -	Daily	None

Mid Cap Funds	1,635,344	-	Daily	None
Small Cap Funds	1,023,449	-	Daily	None
Target Dated Funds	2,001,034	-	Daily	None

The Stable Value Fund's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the Fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The Income Funds seek to preserve capital while providing prevailing interest rate returns.

The International Funds seek to provide investors a core value approach to investments with diversified exposure to the international equity markets, across capitalization and regions, with a focus on well-managed companies.

The Balanced Funds seek to provide for moderate growth and reinvestment of income.

The Large Cap Funds seek to provide investors with long-term growth of capital.

The Mid Cap Funds seek long-term growth of capital in a manner consistent with the preservation of capital.

The Small Cap Funds seek high levels of capital appreciation.

The Target Date Funds seek to allocate assets across multiple asset classes in a manner that becomes increasingly conservative over time, while seeking to achieve the appropriate level of risk given a participants' anticipated retirement date.

NOTE 5 INVESTMENTS (CONTINUED)

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in mutual funds and collective trust funds appreciated as follows:

	2010	2009
Mutual Funds	$ 186,911	$ 94,636
Collective Trust Funds	1,170,497	2,427,008
Total	$ 1,357,408	$ 2,521,644

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and market risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will remain 100% vested in their accounts.

NOTE 8 PLAN TAX STATUS

The Plan is placing reliance on an opinion letter dated March 31, 2008 received from the Internal Revenue Service on the prototype plan indicating that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is therefore not subject to tax under current income tax law. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

Up to October 1, 2010, the investments were managed by Cardinal Bank, the trustee of the Plan and NADART was the third-party administrator for the Plan. Effective October 1, 2010, the investments are managed by Alerus Financial N.A., the trustee of the Plan, and the third-party administrator for the Plan. Therefore, these transactions qualify as party-in-interest.
