The Western World Insurance Company Retirement and Savings Plan
Notes to Financial Statements
Years ended December 31, 2010 and 2009

1. Description of Plan

General

The Western World Insurance Company Retirement and Savings Plan (the "Plan") is a defined contribution savings plan established and administered by Western World Insurance Company (the "Company") covering any regular employees of the Company for immediate participation upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following information is included as a general description of the Plan. For more detailed information, the Plan documents are available at the Company's corporate office.

Contributions

The Plan's provisions allow Plan participants to voluntarily contribute up to 50% of their compensation, subject to limitations under the Internal Revenue Code (the "Code") (\$16,500 in both 2010 and 2009), and to have that amount (the "voluntary contribution") contributed to the Plan in accordance with Section 401(k) of the Code. The Plan's provisions allow Plan participants to make Roth Elective Deferrals under Section 402A of the Code.

Plan participants, age 50 and over at the date of contribution, were allowed to make additional "Catch – Up" contributions of up to \$5,500 in both 2010 and 2009.

The Company provides a contribution equal to 8% of Plan participants' compensation and a matching contribution of 50% of the first 4% of Plan participants' compensation contributed voluntarily.

Distributions And Withdrawals

Eligibility:

Certain events must occur before Plan participants may withdraw money from the Plan. Benefits may be withdrawn upon:

- termination of employment
- becoming disabled
- attaining age 59½
- attaining Normal Retirement Age
- incurring a financial hardship
- termination of the Plan

Hardship Withdrawals:

Generally, the only financial needs considered to meet the financial hardship requirements are the following conditions for Plan participants or Plan participants' immediate families:

- deductible medical expenses
- purchase of a principal residence
- payment of tuition and related educational expenses for the next 12 months of post-secondary education
- to prevent eviction from a home or foreclosure upon a principal residence
- funeral or burial expenses of a member of the family
- payments to repair damage to the principal residence that qualifies for a casualty loss deduction

Hardship distributions are subject to a 10% penalty tax if received before Plan participants reach age 59½.

Elective Deferrals for the Plan including "Catch-up" contributions will be suspended for six months after receipt of the hardship distribution of Elective Deferrals.

The Western World Insurance Company Retirement and Savings Plan
Notes to Financial Statements
Years ended December 31, 2010 and 2009

Distribution Of Benefits

Payments from the Plan that are eligible rollover distributions may be taken in two ways. Plan participants may have all or any portion of their eligible rollover distribution either (1) paid in a direct rollover to an individual retirement account or another employer plan or (2) paid to the Plan participant.

Payments from the Plan that are eligible transfer contributions may be taken as noted above or used to purchase an annuity.

Participant Accounts

A separate account is maintained by the Plan for each Plan participant. Statements of account balances are issued quarterly for contributions, withdrawals, and Plan earnings.

All funds are maintained by the Plan's custodian, Vanguard Fiduciary Trust Company ("VFTC").

Vesting

Plan participants are at all times 100% vested in their voluntary contributions and earnings thereon and become 100% vested in the contributions made by the Company on their behalf after the completion of three years of service. Upon termination of service, a Plan participant forfeits unvested company contributions and may either receive a lump-sum amount equal to the value of the Plan participant's account or request a rollover distribution at the time between the termination of service and the attainment of age 65. The amounts forfeited for the years ended December 31, 2010 and 2009, were \$4,769 and \$2,499, respectively. Any forfeited Company contributions are used to reduce subsequent year's employer contributions. The forfeitures used for the years ended December 31, 2010 and 2009 were \$- and \$25,215, respectively.

Notes Receivable from Participants

The Plan was amended during 2010 to allow for a loan provision for eligible participants with vested account balances. Participants may borrow from their vested account balance, with a minimum loan amount of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants can have one loan outstanding at any point in time for a nonprincipal residence (minimum term of 12 months; maximum term of 60 months) or a principal residence (minimum term of 12 months; maximum term of 180 months). All active employees within the Plan are considered eligible to take a loan against their balance. All loans shall be evidenced by a promissory note and interest accrues at the defined prime rate at the beginning of the month. Principal plus interest on participant loans is repaid in equal installments through payroll deductions each pay period.

If a participant fails to make any loan repayment by its due date, except as permitted under certain conditions as outlined in the loan provisions available to participants, the loan will be considered in default and the outstanding balance of the loan, including interest, will be treated as a deemed distribution. This deemed distribution will be reported as taxable income and may be subject to an additional 10% early distribution penalty.

If a participant terminates employment and has an outstanding loan balance, the participant must repay the loan in full within 60 days of termination. If the participant fails to pay in full by the specified time period, the outstanding loan balance will become taxable.

Other Provisions

The Company pays all administrative expenses of the Plan and provides certain services at no cost to the Plan.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, Plan participants would become 100% vested and the total amount in each Plan participant's account would be distributed to the Plan participants.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The Plan uses the accrual basis of accounting for the presentation of financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments

Investments in registered investment companies at December 31, 2010 and 2009 are valued at the closing price on the active market on which that individual security is traded.

The Plan adheres to the provisions described in Accounting Standards Codification 946 ("ASC 946"). The provisions clarify the definition of fully benefit-responsive investment contracts for contracts held by defined contribution plans along with the financial statement presentation and disclosure of such contracts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by ASC 946, the accompanying Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis. Contract value of a common/collective trust represents contributions made under that contract, plus earnings, less participant withdrawals.

The fair value of the investment contract at December 31, 2010 and 2009 was:

	2010	2009
Common/collective trust, at contract value	\$ 7,870,302	\$ 7,212,439
Adjustment from contract value to fair value for fully benefit-responsive investment contract	315,733	154,870
Common/collective trust, at fair value	<u>\$ 8,186,035</u>	<u>\$ 7,367,309</u>

Notes Receivable from Participants

Notes receivable from participants are valued at the unpaid principal balance plus accrued, but unpaid, interest.

Effects of New Accounting Pronouncements

In January 2010, the FASB issued an update to ASC 820, *Fair Value Measurements and Disclosures*, on improving disclosures about fair value measurements. This guidance requires: (a) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (b) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (c) disclosures by class of assets and liabilities; and (d) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. The Plan adopted the guidance for Level 1 and 2 in its December 31, 2010 financial statements. Net assets available for benefits of the Plan were not affected by the adoption of the new guidance. The Plan does not anticipate any impact of the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010.

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. Participant loans are required to be classified as notes receivable from participants (rather than investments) and measured at their unpaid principal balance, plus any accrued but unpaid interest. The guidance, which must be applied retrospectively, is effective for fiscal years ending after December 15, 2010. The Plan adopted this guidance in its December 31, 2010 financial statements. Net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

The Plan is not aware of any other new accounting standards that were required to be adopted in 2010, or yet to be adopted, that would impact the Plan's 2010 or prospective financial statements.

3. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated August 22, 2001 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or DOL. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2007.

4. Information Certified by Trustee

All investment and loan information disclosed in the accompanying financial statements and supplementary schedule, including investments held, notes receivable from participants, and net realized and unrealized appreciation in fair value of investments and investment income for the years ended December 31, 2010 and 2009, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by VFTC, the Plan's Trustee.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Plan participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related Party Transactions

The Plan invests in shares of mutual funds managed by an affiliate of VFTC. VFTC acts as trustee for only those investments defined by the Plan. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Fair Value Measurements

Financial Accounting Standards Board guidance relating to fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

The Western World Insurance Company Retirement and Savings Plan
Notes to Financial Statements
Years ended December 31, 2010 and 2009

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust: Contains fully benefit-responsive investment contracts and is stated at fair value based on the value of the underlying investments. Fair value for traditional investment contracts comprises the expected future cash flows for each contract discounted to present value. Fair value for alternative investment contracts comprises the aggregate market values of the underlying investments in bond trusts, and the value of the wrap contracts, if any.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value by class of asset as of December 31, 2010 and 2009:

8. Subsequent Events

The Plan has evaluated subsequent events occurring after the date of the Statement of Net Assets Available for Benefits through the date of July 7, 2011, which is the date the financial statements were available to be issued. Based upon this evaluation, the Plan has determined that no subsequent events have occurred which require adjustments or disclosure in the financial statements.
