Death and Disability: A participant is entitled to 100% of his or her account balance upon death or disability.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 25% per year.

Payment of Benefits: A participant may receive the value of the vested interest in his or her account upon termination of employment, retirement, death, in-service withdrawal, or disability as either a lump-sum amount or in equal installments.

Loan Provisions: Participants may borrow up to 50% of their vested account balance or up to a maximum of $50,000, whichever is less. Loan terms range from one year to five years, unless the loan proceeds are used to purchase a primary residence. Loans are secured by the balance in the participant's account.

Forfeited Accounts: Forfeitures are applied to reduce employer contributions or used toward administrative expenses of the Plan. In 2010, forfeitures of matching contributions were allocated to each participant's individual account in the ratio which each participant's compensation for the Plan year bears to the total compensation of all participants for such plan year. The total forfeited nonvested accounts at December 31, 2010 were $4,806.

Payment of Benefits: Benefits are recorded when paid.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Plan Expenses: Certain administrative fees are paid by the Company, including plan amendments, trustee services, and preparation of the Form 5500. All other fees are paid for by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Adoption of New Accounting Standards:

Participant Loans: In September 2010, the Financial Accounting Standards Board (FASB) amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. Early application is permitted. The adoption of this guidance by the Plan resulted in a reclassification from *investments* to *notes receivable from participants* of $98,739 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds and Money Market Mutual Fund: The fair values of the mutual funds and money market mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis which are held directly by the Plan are summarized below:

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

JPMorgan Chase Bank N.A. held the Plan's investment assets and executed investment transactions from December 31, 2009 to November 18, 2010 and Reliance Trust Company held the Plan's investment assets and executed transactions as of November 19, 2010 to December 31, 2010. Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustees or the agent of the trustee. This information has not been audited by independent accountants.

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits.

During 2010, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $191,344.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 6 - TAX STATUS

The Plan adopted a non-standardized form of a prototype plan sponsored by Reliance Trust Company. The Plan sponsor has an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status stating that the form of the Plan at that time was acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The prototype plan opinion letter has been relied upon by this plan. The Plan has been amended from the original prototype, however, the Company believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of the financial statement dates. No provision for income taxes has been included in the Plan's financial statements.

NOTE 7 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through August 16, 2011, which is the date the financial statements were available to be issued.
